144 NOTICES.

COLOUR PATCHES A.I.F. AND EX.A.I.F. PERSONNEL SERVING WITH C.M.F. UNITS.

1. Members and ex-members of A.I.F.units who have served overseas and reinforcements who were allotted to A.I.F.units or proceeded overseas, who have been transferred to C.M.F. units, will wear the colour patch of the C.M.F.unit with which they are serving and above it a miniature of the last A.I.F.unit in which they served.

Members of the A.I.F.who are "attached" to a C.M.F.unit will wear only the colour patch of their A.I.F.unit.

Personnel accepted as reinforcements for the A.I.F., but who have not been allotted to an A.I.F.unit or proceeded overseas, and who are transferred to C.M.F. units, will wear the colour patch of their C.M.F.unit with a battle-grey background of the same shape.

2. Where complete A.I.F.units are transferred to a new formation their colour patch will not be changed.

(Extract General Routine Orders 22 May'42. Para A36.)

NON MILITARY USE OF BINOCULARS BY MEMBERS OF THE ARMY.

1. All binoculars owned by private individuals in Australia are being impressed for Service use.

2. It is considered most undesirable that the public should see members of the Army using binoculars at race meetings and on other non-military occasions. All ranks will therefore cease to use binoculars other than in connection with their duty.

TRANSPORT.

Headquarters M.V.must be dispersed under cover at all times and camouflaged with garnished nets combined with local materials.

Drivers must sleep in or under their vehicles and M/C orderlies must sleep within a few feet of their machines. Amy disobedience ofthese instructions will involve the loss of Army Driving Licence to personnel so charged.

DRESS.

Personnel attached to this H.Q. must be cleanly and neatly dressed at all times. No excuse will be accepted and disciplinary action will be taken with personnel disobeying this order.

PETROL RE SERVE (ON VEHICLES)

The following will be the normal reserve of Pet in drums to be carried on vehs:-

Cars and Vans	8 gals
L.30cwt and L.3 ton	12 gals
All vehicles with pet consumption of 5 m.p.g. or less	16 gals.

SPARE M.T. PARTS -- UNAUTHORISED HOLDIN S

Further to 3 AUST DIV R.O.217/42 parts and accessories are NOT to be held ~~by~~ in excess of authorised scale; nor are they to be removed from damaged or grounded vehicles for holding in unit stores. All parts must be handed in to L.A.D.'s or workshops. Recoverable components are of most value in the hands of distibuting units. Unauthorised holdings of spare parts by user units causes disorganisation and shortage of those parts in the repair and issue services.

It is the responsibility of the driver and of the unit to ensure that a damaged vehicle is adequately guarded until handed over to the repair orga nisation.

All spares held by units in excess of authorised issues are to be returned at once.

DRESS AND DISCIPLINE.

Attention is drawn to the increasing tendency on the part of troops 3 AUST DIV to be careless in regard to their dress and general appearance

Numerous instances are occurring with personnel with tunics partly or completely undone whilst on duty, smoking when speaking to or saluting superior officers and often in an unshaven manner, and it is the G.O.sC desire that a very considerable improvement be shown in the bearing and appearance of the troops in 3 AUST DIV. and that the troops under his command should be an example to all others.

As from the issue of this instruction all troops 3 AUST DIV proceeding on leave must be clothed as follows.

O/Rs

Hat (turned up at the side)
Jacket,S.D.
Trousers, S.D.
Gaiters.
Boots, army pat.
Belts, waist 37 ptn.

CANTEEN PROFITS.

Canteen profits are distributed monthly to formations and units through Regimental Trust Account.

These profits will not be used for ordinary military requirements, in aid of any religious or philanthropic organisation or institution or for any other purpose than the comfort, recreation or other advantage of unit personnel.

VEHICLE ACCIDENTS

When any vehicle is involved in a traffic accident which is investigated by Civil Police, the driver will give to the police investigating the accident the following particulars:-
No. Rank Name Unit - specifying the Unit is part of First Aust Army.

M.T. ROAD DISCIPLINE.

1. It is observed that many M.T. drivers adopt the practice of changing to lower gear ratios when approaching road corners with a view to reducing speed and gaining rapid acceleration after turning.

2. This practice is both dangerous and harmful as the braking effect is absorbed by the rear wheels only, introducing the possibility of skidding and subjecting the rear tyres to increased wear.

3. Units will instruct drivers to reduce speed by the application of the foot brake and take disciplinary action against offenders.

MAIL.

Letters must be handed into RHQ for censoring. Mail will be cleared immediately after midday meal each day.

Inward mails will be delivered upon receipt at this office at approx 1600 hours daily.

MOTOR CYCLE - FIRE HAZARD.

1. A warning notice is given to Units recently issued with W.D. type B.S.A. 500 c.c. sidevalve model motor cycles.

2. Difficulty in starting these machines is due to incorrect setting of the controls; consequently, if the carburettor is flooded to excess the engine is liable to back-fire and ignite the petrol.

3. Similar trouble of back-firing and petrol igniting has been experienced with these machines when in course of travel, due to slightly lean mixture.

4. Pending the result of further tests now being conducted to dispel the risk of fire, which will be promulgated at a later date, the following instructions are issued as a guide:-

(a) Riders of B.S.A. Motor cycles of the abovementioned type will adhere strictly to the advice given in the manufacturer's instruction book, particularly in regard to starting up.

(b) When preparing to start, set the throttle at $\frac{1}{8}$ inch (one eighth inch) open. Do not unnecessarily flood the carburettor.

(c) When machine is travelling, close the air control lever sufficiently to allow smooth running without developing too rich a mixture.

5. The correct procedure to extinguish a fire on a motor-cycle is:-

(a) Turn off petrol.

(b) Raise and hold valve-lifter open.

(c) Keep on turning over the engine with the kick-starter, or alternatively, wheel the machine along in gear.

FITTING OF UNIFORMS

1. There is need for closer attention to be given to the fitting of uniforms when initial and replacement issues are being made by G.D.Ds. and units, respectively.
2. Thoroughness in fitting is particularly necessary in regard to jackets and trousers, S.D. In the case of minors, it is necessary to make some allowance for probable filling out during the early period of service but care must be taken to ensure that this is not over-emphasized and made the excuse for the issue of uniform which gives the wearer a "sloppy" appearance. In regard to jackets, the more conspicuous parts are the neck and chest. Particular care is necessary, therefore, in the fitting of the garment at these points. Trousers should fit comfortably round the waist and permit of sufficient underclothing being worn.
3. Preliminary fitting of uniform is to be supervised by an officer or senior N.C.O. and not left entirely to issuing storemen to exercise their discretion as to what is "near enough".
Clothing fitting parades are to be held at G.D.Ds as early as possible after issues are made. At these parades the inspecting officers will give adequate attention to the appearance of each man and arrange for the exchange of ill-fitting clothing, alteration by regimental tailor or the provision of special measurement garments, as may be required by the circumstances of the case.
4. In order to minimise delay in the provision of uniforms for men who cannot be fitted from stock sizes, action is being taken at L.H.G. to expand, where necessary, the facilities for production of special measurement garments.
