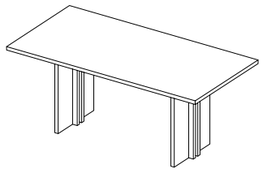
Introducing Strata.

Strata keeps things simple, with a strong profile and solid timber construction inspired by Japandi design.

The table and leaner system runs from single tables through to larger multi-leg configurations, giving the same clean geometry across a wide range of commercial settings.

Standard Sizes



Strata Table
1800 | 2100 | 2400 | 2700 | 3000 x 900
2100 | 2400 | 2700 | 3000 x 1000
2100 | 2400 | 2700 | 3000 x 1100

Solid American Ash
stained in Clear

Optional utility port
with integrated power
and data

A shape for every setting.

Choose rounded or square ends to suit workplace, meeting and social spaces. Crafted from solid American Ash, Strata can be stained or painted in any colour. A crisp square-edge top creates a refined profile, with optional integrated power adding function without interrupting the form.

Tables range from 1800 × 900 to 4200 × 1600 mm at 730 mm high. Leaners range from 1800 × 700 to 3000 × 1000 mm, with a choice of 950 or 1050 mm heights.

Notes from the floorplate.

Tables for focus, leaners for flow

At 730 mm high, Strata tables create a comfortable setting for seated meetings, shared work and longer conversations. Strata leaners, available at 950 or 1050 mm high, support quick catch-ups, informal collaboration and shorter stays. Using both creates different ways to gather within one consistent design language.

Ends that shape the space

Rounded ends soften circulation routes and make shared settings feel more approachable. Square ends create a clean, efficient footprint that aligns easily with walls, joinery and structured meeting spaces. Choose the profile to suit how people move through and use the room.

Plan power into the floorplate

Optional integrated power keeps devices connected while preserving Strata's clean architectural form. Position powered tables and leaners near planned service routes, and consider access early to keep cables controlled and surrounding floors clear.

Crafted for connection.

A seated meeting, a standing catch-up, a shared surface for ideas. Strata adapts to the ways people work and gather, with table and leaner heights, rounded or square ends, and a considered range of sizes.

Made to order in New Zealand from solid American Ash, with your choice of stain or paint finish and optional integrated power.

Harrows

Life is built on the interaction of people. We fill spaces with thoughtfully crafted furniture to facilitate these interactions.

Let's talk.
