NEW GENERATION DAF XB

Powering your Success

The truck that's built for the city

A PACCAR COMPANY DRIVEN BY QUALITY

DAF

The power of efficiency

The New Generation DAF XB is more than a truck. It's a complete transport solution, built for the demands of modern business.

Designed for metro distribution, local government services and city construction, the XB delivers the agility, efficiency and reliability operators depend on every day. From navigating tight city streets to managing the stop start pace of metro operations, it combines advanced safety, driver comfort and low operating costs to help maximise productivity across every task.

HIGHLY MANOEUVRABLE

The New Generation DAF XB sets the benchmark for agility. With class-leading turning circle and dedicated wheelbase options, it's the perfect fit for busy city streets, narrow roads, or crowded construction sites. Whether it's refuse collection, tippers, or distribution, the XB gets the job done where space is tight.

OUTSTANDING EFFICIENCY

At the heart of the DAF XB is a proven and highly efficient driveline, combining the PACCAR PX-7 engine with a choice of 290hp and 1,090Nm of torque or 260hp and 990Nm, paired with the advanced ZF PowerLine 8-speed fully automated transmission. Designed for metro distribution and demanding applications, it delivers strong performance, excellent fuel efficiency and long-term durability.

The PowerLine transmission provides smooth, seamless shifting and automatically selects the ideal gear for the conditions, enhancing driveability in stop-start traffic while reducing fuel consumption and running costs.

For specialised applications, a 5-speed Allison automatic or 9-speed manual transmission is also available, providing the flexibility to match a wide range of business needs.

The power of safety

The New Generation DAF XB combines outstanding visibility, advanced safety technologies and exceptional manoeuvrability to help drivers operate with confidence in busy metro environments. Whether making city deliveries or working on construction sites, the XB is engineered to improve awareness, reduce risk and support safer operations every day.

From intelligent driver assistance systems to enhanced direct vision, every aspect of the XB is designed with safety in mind, helping drivers stay focused and in control throughout the day.

Advanced Driver Assistance Systems (ADAS) safety features as standard

DAF Turn Assist detects vulnerable road users

Excellent direct vision for greater awareness

Large steering angle for best-in-class manoeuvrability

Safety built-in

Protecting drivers, businesses and communities is at the heart of the DAF XB. Advanced safety systems help prevent incidents and support compliance with Australia's road safety standards.

Key features include:

- DAF Turn Assist detects road users in blind spots and issues sound and visual alerts.
- Digital Information Panel integrates safety warnings and vehicle data for the driver.

Beyond these technologies, the XB's excellent direct visibility, compact dimensions and outstanding manoeuvrability give drivers greater confidence in high pedestrian traffic and tight metro environments.

Combined with DAF's intuitive 'hands on the wheel, eyes on the road' design philosophy, this creates a safer, more controlled driving experience, delivering peace of mind for both operators and the communities they serve.

The power of comfort

DAF trucks are known worldwide for class-leading comfort, and the XB is no exception. Easy cab access makes it ideal for drivers who frequently get in and out of the vehicle. Wide seats with extra cushioning reduce fatigue, while premium materials and soft-touch trims create a modern, inviting interior.

For regional or overnight work, the Sleeper Cab provides a comfortable rest space with blackout curtains and a quality mattress. Because comfortable drivers are safer, more focused, and more productive.

Productivity meets comfort

Designed around the driver, the DAF XB combines easy access, generous space and exceptional comfort in every shift. The result supports reduced fatigue, improved wellbeing and greater productivity behind the wheel.

Discover the New Generation DAF. There's one for every need.

Alongside the highly manoeuvrable and efficient XB, DAF offers a complete range of trucks to suit every operation. The XD with an 11-litre engine delivers flexibility for distribution work, the XF, equipped with a 13-litre engine, stands out as a dependable all-rounder, and the XG powered by a 15-litre engine provides maximum space, comfort and capability for long haul applications, ensuring the right balance of performance and efficiency across the entire line-up.

TOTAL TRANSPORT SOLUTION

Efficient transport takes more than just a great truck. DAF delivers a complete transport solution backed by a professional, nationwide dealer network. Our experts work with you to select the right vehicle for the job and offer tailored finance solutions for your business.

Once you're on the road, our commitment continues. We help keep your fleet performing at its best through customised Repair & Maintenance service plans and smarter, more efficient operations powered by PACCAR Connect. That's why DAF isn't just a great truck brand – we are the perfect partner for your business.

Knowledge is power

PACCAR Connect is an advanced fully integrated digital productivity and telematics platform with the power to simplify, streamline and optimise your transport operations.

SIMPLIFY YOUR BUSINESS

Whether you're behind the wheel, behind a desk, or in the workshop, PACCAR Connect will equip you and your team with the insights needed to make smarter decisions and work with maximum efficiency.

OPTIMISE EVERYTHING

With PACCAR Connect you can quickly analyse the performance of your overall operation, or drill down to specific trucks. Routes across multiple vehicles and days are displayed on a single screen. PACCAR Connect makes it that simple.

WORK SMARTER NOT HARDER

Turn the key and PACCAR Connect goes to work, constantly monitoring your truck's critical systems. Onboard fault detection is displayed on the dashboard, enabling informed, on-the-spot decision-making. Peace of mind, that's what you can expect with PACCAR Connect.

STREAMLINE COMPLIANCE

PACCAR Connect streamlines compliance by syncing critical data. It works with Gearbox to automate service scheduling, parts tracking, training, and work orders – so nothing gets missed. Integration with Logmaster provides an NHVR-accredited Electronic Work Diary (EWD) that's compliant nationwide. Real-time asset and odometer updates save time, reduce manual entry, and improve reporting accuracy.

ENHANCE SAFETY

PACCAR Connect lets operators configure advanced safety and performance features. Triggering instant alerts for emergency braking or rollover events and syncing with the cloud for real-time reporting, hazard prevention, and integrated compliance. Digital prestart checklists, auto-filled vehicle details, and mobile inspections make it easy for drivers to escalate issues on the go – keeping every vehicle safer and road-ready.

AUTOMATE FUEL TAX CLAIMS

In partnership with KPMG, PACCAR Connect facilitates fuel tax credit claims using real-time data to identify on and off-road activity. Claims are pre-approved by the ATO, so refunds are processed and in your account with a minimum of fuss – a valuable feature accessible to any transport business.

KEEP EVERYONE INFORMED

The best network just got smarter. Your DAF dealer now has access to vehicle data, enabling faster, better-informed roadside assistance. Minor issues can be scheduled into regular maintenance – maximising uptime for every truck.

PACCAR Connect is proven proprietary technology, available exclusively for use on DAF Trucks. Embedded at the time of manufacture, its unique protocols and deep integration with major vehicle systems deliver capabilities beyond those of aftermarket solutions.

A total transport solution

Transport efficiency goes beyond having the ideal truck. That's why DAF Trucks Australia provides a comprehensive transport solution. Backed by a trusted professional team and a wide dealer network, we can help you choose the right truck, offer financing support, and keep your fleet in top condition.

PACCAR Australia

Australia's best Dealer network means there's always a DAF representative nearby ready to provide expert support. The in-depth knowledge of DAF mechanics and the exclusive use of genuine DAF and PACCAR parts, maximise your uptime for the life of the truck.

PACCAR ASSIST

Each PACCAR dealership is on permanent 24-hour standby, ready to come to your aid in the event you need assistance. One call to the dedicated 1800-PACCAR number is all it takes.

PACCAR FINANCIAL

Dedicated in every sense to the Australian trucking industry, PACCAR Financial's innovative solutions provide the flexibility to purchase the trucks and trailers you need to keep your business running smoothly.

PACCAR PARTS

In addition to maintaining an extensive inventory of DAF parts and accessories, the PACCAR Parts distribution centres provide daily deliveries to every dealership in Australia. Whatever your truck servicing requirements, we can get the parts you need, to where you need them.

PacLease
Truck Rental and Leasing

PacLease helps fleet operators achieve their business goals through short and long-term rental and leasing solutions, including value-added services like telematics, preventative maintenance, and 24/7 Roadside Assistance.
