HYGIENE - PUCKPUNYAL CAMP

1 MEAT DELIVERY

a Meat is delivered t units by means of a 3-ton lorry, the meat lying on the floor of the vehicle, with a layer of about ¼ to ½ inch of straw. consequently all meat delivered has straw s straw stuck to it.

b.Members of the AASC delivering meat ride in the vehicle with mea meat. On alighting from vehicle, their boots are liable to become caked with mud, which at the present time abounds in this vicinity. These men then return to the vehicle, carrying on to the fl floor theemud from their boots, thereby producing a layer of mud for the meat to rest on before delivery at the next cookhouse.

c.It is suggested that some means be arranged by which the meat ca can be hung in the vehicles. One does not care to contemplate the possible results of the present method of delivery during the summer months.

2 RUBBISH TINS

Most rubbish tins in the areas are without fly-proof covers. This is a camp matter, but it appears impossible at present to obtain satisfactory covers, hence the matter is referred to you.

4. RETURN OF PETROL LICENCES.

"The Commonwealth Liquid Fuel Control Board desires to draw attention to the obligation devolving on every person holding a Motor Spirit Consumor's Licence issued for any purpose other than for private use, Class 2 (that is a licence on buff-coloured paper) to surrender his licence immediately there is any change in the occupation of the holder. The Board has reason to believe that a number of persons called up for military duty have not acted in accordance with this obligation and surrendered the Motor Spirit Consumer's Licence issued to them in connection with their civil occupations.

Any person in this camp who is still in possession of such a licence, or who failed to return same before entering camp is therefore required to surrender same immediately to the Liquid Fuel Control Board in the Capital City of the State in which the licence was issued, together with a letter explaining the changed circumstances and the reason for failure to return the licence previously.

This direction is issued under the National Security (Liquid Fuel) Regulations, breaches of which are punishable by a fine up to £100 or six months imprisonment or both"

3. FEDERAL TAXATION

1. Members of the Forces, other than recently returned A.I.F., are required to lodge income tax returns in any case where the income (as a soldier and private income), including the value of subsistence, field allowance and allotments, but excluding dependents allowance, derived during the year ended 30 Jun 42, exceeded £156.

2. Members of the Forces so liable for the payment of income tax for the year ended 30 Jun 42, will be assisted to meet such payments by having deducted form their drawing rate of pay a daily rate, approximately equivalent to that required, according to their rank and rate of pay. They will be duly advised of the rate to be deducted, and the drawing rate in paybooks will be adjusted accordingly.

3. Deductions and payments will be made by the Army and controlled by the District in which the member enlisted, irrespective as to whether or not the member derived his income in that state.

4. To enable the Army and the Taxation Department to carry out the proposed procedure, it is necessary that all taxation returns be forwarded to the correct authority. In this connection members should submit their returns for the year ended 30 Jun 42, to the Commissioner of Taxes in the capital city of the State in which they enlisted, e.g. a member who enlisted in Victoria- say with an Army No. "V 12345- will forward his return to the Commissioner of Taxes, Melbourne, Victoria.

3. INTERFERENCE WITH SIGNAL COMMUNICATIONS.

The practice of firing weapons from troop trains or M T vehicles on roads is forbidden. Many instances of damage to insulators and telegraph wires, resulting in considerable delay in communications, have been attributed to this.

If a telegraph wire is broken, the channel of intercommunication is immediately interrupted, and the fault must be located before the service can be restored. To effect repairs, line parties must be sent distances of up to 100 miles.

If the insulator only is broken, the wire will rest on or touch intermittently the cross-arm, producing a fault which is very difficult to locate.

Where the circuit concerned is of the "carrier" type, two or more telephone and telegraph channels may be affected.

The vital importance of maintaining these channels of communication is self evident. Disciplinary action will be taken against all offenders.

3. ACCIDENTS TO VEHICLES- AA FORM G13 (Accident Report)

a. All cases involving traffic accidents, particularly where private vehicles or citizens are involved, comprehensive reports on AAF G13 (Accident Report), must be completed, without delay, and signed by the MT Driver implicated.

b. Drivers must be provided with AAF G13 and instructed as to the completing of same.

c. Attention is directed to para 43 of Standing Orders for the Operation and Maintenance of Mechanised Vehicles. Drivers will study these instructions carefully, and particularly section B of para 43, requiring drivers to ascertain names and addresses of drivers and ~~xxxxxxx~~ owners of other vehicles concerned, and also any witnesses to the accident. Independent witnesses, where possible, will be questioned and their names and addresses obtained. Failure of MT drivers to obtain this important information has often deprived the Department of its legal right to recover damages sustained to its property by negligent private drivers. HYGIENE - PUCKAPUNYAL CAMP

1 Further to our 595.102.42 of 21 Jun 42, there has been no alteration in the method of the distribution of meat.

2 RUBBISH TINS

a. Rubbish tins in the camp area are in statu quo. All are old and nattered; many of them split or with holes; and most covered with accumulated grease of many months service. Large numbers are without lids and, where lids are available, they do not fit.

b. Owing to the prevailing state of tins as outlined in 2a, the grounds beneath stands is soaked with greasy fluid, rendering it impossible to keep the surroundings of the cookhouses clean an and savoury.

3. LATRINES

Most urinals in the area can be smelt along before seen, despite frequent flushing.

4. SUGGESTED REMEDIES

Meat delivery - Provision of a rack in the vehicle, on which the meat can be hung.

Rubbish tins - a. provision of new rubbish tins to replace wornout, broken or badly bent ones.
b. tins to be scrubbed, then scalded with ste steam daily.
c. Concreting the area below stand, with provision of small greasetrap intowhich this area drains. Concret may then be washed down daily, and soiling of area prevented.

Latrines - Repainting ofurinals with suitable painting materials
