AUSTRALIAN WAR MEMORIAL AWM2020.71.2021

N O T I C E S

1. OFFENCE OF A W L

Attention is directed to the prevalence of the offence of ABSENCE WITHOUT LEAVE in Units of this Division.
A serious view is taken of this offence and personnel are warned that, attention having been directed to this matter, COurts Martial may take into account when imposing sentences the fact that this order has been issued. A M R & O 558 (2)
The production of a sick report (A A F A.46) signed by an Area M O does not entitle the holder to additional leave. It is merely evidence upon which a C O may if he considers it desirable, authorise additional leave. A C O may take such action as he thinks fit, including communicating with the M O concerned, to inform himself as to the necessity for granting extended leave.

2. BREAKING-IN BOOTS.

(1) The following methods are to be used:-
(a) After careful fitting, the man should stand in about 3inches of water for about 20 minutes, or until leather becomes thoroughly wet and pliable and in a condition to stretch easily. The soldier should then be marched on a level surface if possible for an hour or until the boots have dried on his feet to the shape of which the pressure of body weight and muscular action have forced the leather, in drying, to conform. Before the boots are quite dry, and application of Dubbin or animal oil or fat when dubbin is not available, should be applied to the internal surface of the boot.
(b) Grease the foot or for preference the outside of the socks prior to wearing the boots, until the inside of the boot becomes soft and moulds itself to the shape of the foot. This method although effective, is a much slower process and , in some case may result in the foot "breaking in" first.

25. SALUTING : Attention is directed to G R O A I98 regarding saluting. It is not generally recognised that saluting, in common with guards and sentries, is one of the best means of obtaining alertness and of training observation for the more serious tasks of battl The conditions of service demand that all ranks are trained to be alert wherever they may be and that their eyes are trained to observe whatever is going on around them. The constant practice in observing by both officers and other ranks in order that the correct compliments are paid and returned, is of the greatest value in getting automatic battle standards of observation and alertness. The orders regarding saluting and returning of salutes will be strictly enforced.

26. NATIONAL SECURITY (Landlord and Tenant)REGULATIONS : Members of the Forces or their dependants who desire to complain of breaches of the National Security (Landlord & Tenan Regulations should not communicate with members of Parliament or with Federal or State Departments, but should approach the nearest Clerk of Courts for advice as to their rights and obligations under those Regulations.

27. CLOTHES RATIONING : The allotment of coupons for Clothes Rationing to personnel serving on I5 JUN will be 25 Coupons per annum.

28. STRIPPING THOMPSON SUB-MACHINE-GUN :

1. Owing to the difficulty of stripping and assembling the recoil spring and buffer by hand, without damage to the recoil spring, these components are not to be removed from the gun by unit personnel, except when the gun becomes inoperative in active operati

2. Normally, the above components will only b stripped by A.A.O.C. armourers with the special tools provided in accordande with Armoury Workshop Instruction No. A.I2.

29. The use of "A I F Australia" and "Home Forces" in addresses will be discontinued and "Australia" substituted.

30. Attention is directed to regulation 63 of National Security Regulations (Supplementary) which provides that any Officer not below the rank of Captain may whether in or outside Australia administer oaths to, take affidavits of, and attest the execution of documents by, any member of the Defence Force of the Commonwealth engaged on active.
