SECOND ANZAC CORPS "Q"

O.C.,7th L.R.O. Company reports that a battery of 18 pounders has been placed in the enclosure at Sheet 28.U.25.d.6.3. The muzzles of the Guns are only 14' from the centre of the track and fire directly across it.

It will be impossible to operate this portion of the line while this battery is in action.

Is it possible for another site to be selected for these Guns, please?
