CAPT K.C. PHILLIPS ADM COMD HQ 3 AUST SUPPLY DEPOT COY (AIF)

NOT TO BE PUBLISHED - AMR&O 1587

Order Number 3 22 Sep 43

1. GIFT PARCELS FOR UNITED KINGDOM ADDRESSEES: DUTY FREE CONCESSION

(i) A concession has been sanctioned by the United Kingdom authorities which permits members of the AMF and the British Army, serving in Australia, to send to their relatives and friends in the United Kingdom four (4) gift parcels a year, duty free. The usual postage rates are payable.

(ii) Such parcels must not weigh more than 5 lbs each nor exceed 30/- in value, and contents may not include :-

(a) any drinkable spirits;

(b) more than ½ lb total weight of tobacco, including cigars and cigarettes (50 cigars or 200 cigarettes = ½ lb) , or any tobacco goods marked "H.M. Ships only";

(c) more than ½ pint of scent;

(d) more than 2 lbs of any one foodstuff.

(iii) Special Customs Declarations (Army Form W5192) will be affixed to the parcels; these will be secured through normal stationery channels for issue under unit arrangements, on a basis of a maximum of four (4) a year to any one sender. A comparatively few forms should suffice for needs of any one unit, and each form issued therein will have entered upon it the recipient's number and name and be signed by the issuing officer in the space provided.

(iv) It is stressed that full duty will be charged on the contents of parcels which infringe restrictions expressed in para (ii).

2. POWERS OF SENTRIES AND GUARDS (G.R.O. A.648/43)

(i) Regulation 8A of the National Security (General Regulations (Statutory Rules 1942, No. 374) provides that, without derogating from or restricting the existing powers or rights of sentries and guards, a military sentry or guard stationed or posted at, on, in, or in the neighbourhood or vicinity of, any prohibited place, protected area, controlled area, or any premises used by the Commonwealth, or used for defence purposes or for essential services, or any vehicle, vessel or aircraft used by the Commonwealth, or any enclosed wharf or picking-up place, or any merchant vessel lying in port, or any road, pathway or waterway, specified in an order by the Minister, which passes through or near a prohibited place of work of defence, may be armed, and may -

(a) use his weapons against, or otherwise attack, any person who, in disregard of a warning given by a sentry or guard, approaches, enters, leaves, or passes over or in the vicinity or neighbourhood of, or attempts to approach, enter, leave or pass over or in the vicinity, or neighbourhood, of, that place, area, premises, vehicle, vessel, aircraft, wharf, picking-upplace, road, pathway, or waterway, or who, after being arrested for so doing, escapes; and

(b) use his weapons against, or otherwise attack, any person attacking him or sho is reasonably suspected of being about to attack him.

(ii) There are, however, certain principles which must guide all sentries and guards in the execution of their duty as such, and in the exercise of the right to resort to arms.

(iii) These principles are :-

(a) Sentries and guards will be ordered to take any action required to ensure the safety of their posts or to defeat the activities of enemy, or suspected enemy, agents.

.....(b) If necessary

AUSTRALIAN WAR MEMORIAL AWM2022.5.2744

(b) If necessary, they will fire upon or otherwise attack any persons threatening the safety of their posts or engaging in hostile actions.

(c) Before firing upon any person, the sentry or guard will, except in an urgent case of self-defence, challenge that person to "Halt". If that person does not halt, the sentry should challenge him again with "Halt or I fire". If he does not halt, and no other means are available for stopping him - as for example, by calling on the rest of the guard - it is the duty of the sentry to shoot.

(d) The sentry will use his intelligence and sense of responsibility in choosing whether he will shoot or not, and he must be careful not to allow any suspected person to approach so close that he can be rushed and overpowered.

(e) Guards of enemy prisoners of war. An enemy prisoner of war attempting to escape may be fired upon, but a previoys summons to surrender, will be given if possible.

(f) Guards of members of the forces in custody.

(i) An escort or guard is not justified in using his weapons merely for the purpose of preventing another member from escaping from custody and if he so uses his weapons he may render himself, as well as any officer or NCO under whose orders he acted, liable to be charged with murder, manslaughter or incitement to murder.

(ii) If a member in custody attempts to escape, the escort or sentry will immediately raise the alarm and give chase. He may call upon any passer-by to assist him in apprehending the escapee.

(iii) An escort or guard may be justified in using his weapons when a member in custody resorts to violence. In such circumstances an escort or guard may meet force with force, but care must be taken to use no more force than is necessary to overcome the violence offered. Hence, even when violence is offered to an escort or guard, it will only be as a last resort that the use of weapons will be justified.

(iv) Orders for guards and sentries will be framed in conformity with the above and guards and sentries will be suitably instructed as to their powers and duties.

(v) GRO A.682/1942 is cancelled.

3. CAMP DUTIES

(i) Previous instructions regarding Camp Duties are cancelled. The following routine will take effect as from 0700 hrs 22 Sep 43 :-

42. USE OF GRENADES, HAND, JAPANESE, TYPE 91. (CRO 4724/43)

1. This grenade is in use by the Japanese and quantities have been captured and used by our troops. Tests indicate that the grenade has certain characteristics which may lead to injury in the hands of inexperienced personnel. These characteristics are:-

(a-) The delay fuse, marked 4/5 seconds, has been known to burn in much less time. Some tested fuses burned in 3 seconds.

(b-) While the delay fuse is burning, a considerable quantity of black smoke is emitted throught the escape hole at the base of the fuse tube, and small fragments of the delay fuse are sometimes forced out. At night or even at dusk or dawn, a definite glow from this hole can be seen.

2. The following precautions will be taken if the grenade is used:-

(a) It will be thrown immediately after the head has been struck;
(b) When striking the grenade, the hand will be kept well clear of the escape hole at the side of the fuse tube.

43. GRENADES, No. 36M - DESTRUCTION OF BLINDS.

1. Due to the possible occurrence of hangfires, as a result of slow burning fuses, it is essential that an interval of fifteen minutes and NOT five minutes, as previously published, be allowed to elapse before action is taken to destroy blind 36M grenades.

2. An amendment to Small Arms Training, Volume 1, Pamphlet No 15 "Grenades", incorporating the above change to existing procedure, will be issued in the near future. In the meantime, action will be taken to ensure this order is brought to the notice of all ranks.
