37. PAY

(1) all personnel desiring to draw pay will in future hand their paybooks into the Pay Office by 0900 hrs on the Monday before pay day. A piece of paper will be inserted in the pay book showing the amount it is desired to draw.

38. NOTES ON RAA ASSOCIATION AS AT 31 AUG 1945.

(1) The following circular letter, received from BRA, LHQ is published for information:

"A request for information as follows has just been received by BRA Office, LHQ –

1. Is it intended to produce something that the troops could be given before they leave their units, on the formation and the aims of the RAA Association ?

2. Is it intended to obtain authority for and request units to elect the disposal of unit funds to the Association, either generally or for benevolent purposes ?

As these questions will arise in all Formations, the following information is circulated as to the present state of development of the RAA Association.

i. State branches are in existence in Victoria and Queensland, and branches are being formed in other States.

ii. It is anticipated that each State branch will set up a Benevolent Fund.

iii. The question of payment of Regimental Funds into RAA Benevolent Funds has not yet been decided; but it is proposed to take up this matter with the C-in-C at an early date.

iv. The RAA Association will apply for a proportion of surplus AACS funds, which it is understood are to be allotted for benevolent purposes.

v. The Victorian Branch will circulate to all Formations a firm statement on policy and aims within the next month.

vi. An Australian wide Federal Council for the Association will be formed as soon as possible.

You will be kept fully advised as to progress in the above matters.

For information the addresses of the Hon Secs are:-

VICTORIA Major G. M. Lee c/o BRA Branch, LHQ.
QUEENSLAND Major R. B. Taylor DSO. c/o United Service Club, 70 George Street, Brisbane.

39. POST-DISCHARGE MALARIA.

(1) (a) The Repatriation Commission will accept responsibility for providing any treatment necessary in respect of the first attack of malaria suffered by an ex-member of the AMF after his discharge from the Army.

(b) During such treatment, the Commission will institute inquiries as to eligibility or otherwise for the treatment of any subsequent attacks of malaria.

OS.

AUSTRALIAN WAR MEMORIAL AWM2019.366.3357

(2) On the first occasion after his discharge that an ex-member becomes ill with malaria, he should -

(i) if resident in a capital city - report to the Repatriation Department's branch office or general hospital, either in person or by telephone, when immediate examination and treatment will be arranged;

(ii) if resident in the country - report to and request treatment from the nearest Repatriation local medical officer, who will send a report to the Repatriation Department. It will be necessary for the ex-member to identify himself by production of his discharge certificate.

(3) (a) If it is not possible so to report, the ex-member should consult and request treatment from his local civilian doctor, and, provided prompt advice is sent by the doctor or the ex-member to the Repatriation Department, the Commission will assume full responsibility for the payment of medical fees, hospital fees and the cost of drugs.

(b) Arrangements for any further treatment will be notified to the ex-member by the Repatriation Commission as soon as possible.

(4) Information regarding the treatment of malaria, with particular reference to ex-service personnel, has been sent by the Commonwealth Department of Health to civil, medical practitioners.

(5) In view of the foregoing, it is unnecessary for any member to be examined by a final medical board at the time of his discharge merely on account of a history of malaria. If the member has had an attack during his service, it will be on record in his medical history. Whether or not the member has had an attack during his service, he will be cared for by the Repatriation Commission should he develop an attack of malaria after his discharge. (GRO 237/45).

40. MEDALS - CAMPAIGN STARS AND CLASPS AND DEFENCE MEDAL - CONDITIONS OF AWARD.

The following extracts from GRO 233/ of 14 Sep 45 are published for the information of all concerned.

(1) (a) His Majesty the King has been graciously pleased to recognise the service rendered by His Majesty's forces during the present war by the institution of further Campaign Stars and a Defence Medal, and has been graciously pleased to approve of a proposal to vary the provisional terms of qualification for the award of the Africa Star and the 1939/43 Star which were promulgated in 1943. He has also been graciously pleased to authorise the award of clasps to Campaign Stars under conditions defined herein.

(b) The conditions under which these awards will be made to Australian army personnel are still the subject of negotiation between the governments of the United Kingdom and Australia, but, pending a final decision being reached, this order is promulgated to cover those cases in which eligibility has already been determined. When the conditions have been finally approved, any necessary amendments will be promulgated.

08

(2) Members of the AMF, including members of the AANS, members of the VAD, and physiotherapists attached to the AMF, and representatives of philanthropic societies attached to the AMF, and civilians attached to the AMF in an official capacity, will be eligible for these awards. It is a condition without any exception that all civilians were full-time workers, were in uniform and satisfied the conditions appropriate to army personnel.

(3) (a) The Stars and Defence Medal will be worn in the following order:- the 1939-45 Star, the Atlantic Star, the Air Crew Europe Star, the Africa Star, the Pacific Star, the Burma Star, the Italy Star, the France and Germany Star and the Defence Medal.

These awards will allow army personnel to wear five of the eight ribbons of the Campaign Stars, i.e:-

The 1939-45 Star
The Africa Star
The Pacific or Burma Star
The Italy Star
The France and Germany or Atlantic, or Air Crew Europe Star.

(b) The ribbon of the Defence Medal may be worn by qualified recipients in addition to those granted for Campaign Stars."

All those who desire to obtain approval to wear the ribbons of any of the abovementioned stars may obtain full particulars regarding qualifications necessary from the Orderly Room.

41. TRANSPORT REQUISITIONS

(1) Requisitions for Transport in accordance with Administrative Instruction No 9 will be submitted whenever possible on the day before the transport is required.

REFLECTOR SIGHT FOR 20-MM EQUIPMENT

In reference to BRA AA1903/RA/JP dated 2 Jul 45, and MGO memo (177/01/270) B46555 dated 27 Jul, report requested in abovementioned memos follows herewith.

2. Reference is made to para 5 of MGO memo and comments requested are tabulated opposite the relevant sub-para numbers.

"5. (i) Reaction of the Sight to Vibration during firing. Visibility and Stability of Image - Slightly affected, but not to an extent likely to prejudice the success of an engagement.

Maintenance of Collimation - Satisfactory.

Structural weakness in frame - Nil

Tendency of globe holders to work loose - these holders do show a tendency to work loose as does the brightness controlling ring, though in neither case was the defect serious.

Stability of moderating glass when in down position Quite stable in down position, but in the up position, during firing the moderating glass cracked. This was ascribed to the possibility that the glass fitted was too large for the rim, and not to the fact that stresses placed on the rim by vibration during firing caused the fracture.

(ii) Height of line of sight - much too high as equipment stands at present, but it is understood that a "band stand" is provided for the equipment in the role contemplated. This provision would overcome the difficulty.

Position of Sight on bracket. - Satisfactory.

Eyeguard - Desirable. An eyeguard was fitted to the sight under trial and layers reported an increased degree of comfort was obtained.

Obstruction of Vision - Nil.

(iii) Collimating adjustments - Insufficient vertical adjustment obtained. If uppermost adjusting and locking nuts half the thickness of the present ones are fitted, sufficient adjustment will be obtained.

(iv) Brightness of Graticule

Range - More range could be provided as the definition of the graticule is faint on very bright days.

Moderating Glass - efficient

Ghost images - no trouble.

AUSTRALIAN WAR MEMORIAL AWM2019.366.3357

(v) Definition of Graticule - Satisfactory except for comment above.

(vi) Accuracy - The accuracy of the sight is of a similar standard to the Cartwheel Sight, and an improvement noted was the consistency of the lay throughout a run.

Parallax Errors - Nil

Field of View - Satisfactory.

(vii) Resistance to Rain

Sealing - Satisfactory

Effect of Rain drops on Optical Surfaces - Rain drops falling on the dome housing the graticule blotted out positions of the graticule, an incomplete image being reflected and consequent inaccuracy of lay.

3. Modifications Recommended

(i) Fitting of an eyeguard.

(ii) Fitting of countersunk screws in lieu of hexagon-headed bolts securing sight to base plate. NB. The front left hand bolt would not clear the rear bearing whilst the sight was in the forward position.

(iii) Fitting of a more positive locking device in lieu of the knurled headed bolt securing the sight in position in relation to the eye. NB. It was noted that this bolt worked loose during firing and caused enlargement of the holes.

North Head			During the month of October personnel commenced marching out for demobilization. All those whose services could be dispensed with or for whom replacements were supplied were permitted to march out. Owing to the fact that the School of Artillery is a Permanent Establishment and that No 1 MG & DO Course was still in progress it was necessary to retain certain personnel. As a result of conversation with DAAG (O) NSW L of C Area, PMF personnel and low priority personnel were posted to the School to replace high priority personnel being demobilized. A number of these personnel, particularly PMF personnel could not be absorbed on WE owing to their ranks. The result is that a surplus of Warrant Officers and Sergeants exists. On 31 Oct 45 an Equipment Course was commenced for these surplus WO's and Sgts.

63. DEMOBILIZATION - STUDENTS

Information has been received that arrangements have now been completed for consideration of applications for accelerated discharge by members, both male and female, who before enlistment or while on service conpleted at least entire first year of Course at a University, Teachers College, Technical College or similar public institution. Full details will be published when available.

64. DAZZLING HEADLIGHTS ON MT VEHICLES

(1) With the lifting of war-time blackout restrictions on the lighting of road vehicles and the increasing volume of road traffic, complaints are being made by road user organisations, and particularly by tram drivers, regarding the inconvenience and danger occasioned by glaring and dazzling lights on motor vehicles.

(2) The adjustment and operation of headlights so that, as far as practicable, all avoidable dazzle to oncoming traffic is eliminated is not only part of common road courtesy, but is also required by the traffic laws and regulations of the various States.

(3) The following action in regard to army MT vehicles will, therefore be taken by all concerned:-

(i) The headlamps of all MT vehicles required to operate on public highways will be checked and adjusted in accordance with the relevant law of the State in which the vehicle is operating.

(ii) The driver of an army vehicle, when approaching oncoming traffic (including trams) at night, will-

(a) dip his headlights, if the vehicle is equipped with a dipping device, when at a distance of not less than 300 feet from the oncoming vehicle and keep them dipped until he has passed it, even if the oncoming vehicle does not reciprocate.

(b) Keep as near as practicable, having regard to all the circumstances, to the left-hand side of the road;

(c) So reduce the speed of his vehicle that, if it becomes necessary, he can stop it within the lessened limits of vision provided by the depressed beam.

54. WEARING OF CIVILIAN CLOTHING BY FEMALE MEMBERS OF AMF

The following extract from GRO 275/1944, as amended by GRO's 12 Oct 45, is published for the information of female members:-

"1. (a) Subject to the provisions of this order, a female member of the AMF when NOT on duty may wear civilian clothes on the mainland of Australia or Tasmania, except -

(i) when she is travelling to or from her unit or camp;

(ii) when she is travelling on a HL pass;

(iii) when she is in any part of her unit or camp area (other than as prescribed in unit or camp orders).

(b) Civilian clothes will NOT be worn by a female member of the AMF when attending a social function in a unit or camp area.

55. LIGHTING

(1) In order to conserve as much as possible electric current commensuate with safety, action will be taken by all concerned to ensure that no more electric energy is used than is necessary.

(2) In this connection it is the duty of all personnel to see that the following procedure will be adopted:-

(a) no room is left unattended with lights burning

(b) Lecture rooms - IG IC Course to arrange for all lights to be extinguished at conclusion of Lecture and/or Study.

(c) Dining rooms of aLL Messes - no lights will be left on after tables have been cleared.

(3) If the above precautions are observed there will be a considerable saving in money and power.

56. VEHICLE MARKINGS

(1) All Vehicles on charge to School of Artillery will be known as 318. Arrangements will be made to have numbers amended as soon as practicable.

57. AUDIT BOARD

(1) The following officers are appointed as Audit Board for School of Artillery:

Capt A. W. D. McEachern
Lt A. D. Swift
Lt N.M. Lane

58. WAR LOAN OFFICER

(1) Capt K.H. HERDE has been appointed Unit War Loan Officer vice Capt R.A. VENN.

59. WEARING OFUNIFORM AFTER DISCHARGE

NSW L of C Area RO Pt 1 Serial 42 No 490 is published for the information of all concerned:

(1) Attention is directed to the fact that members after discharge or termination of service are not entitled to wear the complete uniform of the AMF and that if they do so they commit a breach of Section 83 of the Defence Act and render themselves liable to prosecution in respect thereof.

AJ.

AUSTRALIAN WAR MEMORIAL AWM2019.366.3357

(2) The Section of the Defence Act referred to above prohibits the wearing of any uniform of the Defence Force by any person not a member of the Defence Force. The wearing of portion of a uniform is not forbidden by this section, but the wearing by a discharged member of a complete uniform, so as to represent the wearer as still a member of the Defence Force, would be an offence against the section. Discharged members will not, therefore, wear complete uniform, and, where portion of uniform is worn, all badges, AMF buttons, colour patches and chevrons will be removed therefrom.

60. UNIT EDUCATION OFFICER

(1) Lt ALLISON has been appointed as Unit Education Officer.

61. CHANGE OF DESIGNATION

(1) In future "Headquarters, Allied Land Forces in South West Pacific Area" will be known as "Headquarters, Australian Military Forces". The abbreviation "HQ, AMF" will be used.

(Extract from GRO 253/1945)

(2) In accordance with the above, LHQ will be omitted from the designation of this School, which will be known as "School of Artillery".

50. ORDERS FOR DEMOBILIZATION OF THE AMF - APPLICATIONS FOR MEDICAL BOARDS

(1) Reference is made to "Orders for Demobilization of the AMF", para 150 (b).

(2) A considerable number of cases is occurring where members are applying for Medical Boards on totally inadequate grounds in the belief that failure to recordany repatriation claim now will jeopardise any future claim, with the result that the demobilization procedure is being delayed.

(3) The attention of all ranks will be drawn to the fact, that there is no time limit within which an application for a claim must be made either for a pension or for treatment, and that the Repatriation Department will accept any application at any time after discharge.

(4) The "CAB" publication entitled "Going Home", page 12, dated 27 Aug 45, is being amended accordingly.

(5) AAF D2 (A) question 7 is also being amended to read, "Do you wish to claim an immediate war pension", and medical officers will explain to all members that a negative answer to question 7 does not prejudice any future claim for a pension by the member.

(NSW L of C RO Part 1 Serial 41 Para 480)

51. EMPLOYMENT OF AWAS IN ARMY MEDICAL UNITS ON THE MAINLAND.

(1) Applications are invited from OR members of AWAS, irrespective of rank or trade grouping, to serve in Hospitals or Con Depots on the mainland in the following trades:

71. BARBER'S SHOP

The barbers shop, situated at the rear of the dry canteen, will NOT be open during parade hourse.

72. CARE OF HAND TOOLS

As a shortage of certain hand tools, especially woodworkers tools NOT manufactured locally, still exists, it is essential that wastage is reduced to a minimum and that tools are not misused.

(extract from GRO 279 of 9 Nov 45).

Tools will be issued only to tradesmen and workshops personnel and they will be used only for the purpose for which they are supplied.

73. LEAVE WITHOUT PAY

Attention is directed to the provisions of War Financial (Military Forces) Regulations, which provide, in effect, that all pay (including allotments) and pay allowances cease in respect of any period for which a member is granted leave (or an extension thereof) without pay.

When leave (or an extension thereof) without pay is granted, the following will not be payable during the period of such leave (or extension):-

(a) pay (including deferred pay);

(b) field allowance;

(c) command allowance;

(d) special allowance;

(e) exchange allowance;

(f) dependants' allowance;

(g) travelling allowance;

(h) subsistence allowance;

(i) any allowance payable under regulation 9 of the abovementioned regulations.

(extract from GRO 598 of 16 Aug 43.)

74. HOLY COMMUNION & CHURCH PARADE

A parade will he held for those desirous of attending Holy Communion at 0700 hrs on Thursday 15 Nov 45.

Church Parade will be held at 0845 hrs on Thursday 15 Nov 45.

75. SUMMER UNIFORM AWAS

ADMIN STAFF. Summer dress (with or without tie) shoes, stockings, small hat. Cardigans or great coats will be ordered as required.

Q, MAINTENANCE, LIBRARY STAFF. Shirt & trousers, large hat, shoes and socks or stockings. Jackets will be ordered as required.

MESS & COOKING STAFF. Working frocks, socks and shoes, small or large hats. Shirt and skirt, collar and tie, shoes and stockings for waiting at table in the evening.

67. UNLAWFUL POSSESSION OR DISPOSAL OF ARMS, EQUIPMENT AND EXPLOSIVES

Extract from GRO 273/45 of 2 Nov 45.

(1) Attention is directed to -

(i) the number of AIF, Allied and enemy arms which are passing into the hands of civilians, particularly of the criminal class;

(ii) the fact that instances of unauthorized disposal and receipt by barter and otherwise, of AIF and Allied arms and equipment by and to members of the AIF and Allied forces have been detected;

(iii) the fact that members of the public have been killed or seriously injured as the result of the handling of explosives which have been taken or sent home as souvenirs by members or which have negligently been left in places to which the public has access.

(2) Arms, equipment and explosives captures from the enemy are Commonwealth property and their possession by any member is unlawful unless authorised under paras 29 and 30 of GRO 209/1945.

(3) A high degree of care will be exercised by members in respect of arms, equipment and explosives in their possession.

(4) Except when acting in the course of his military duty or when authorised under paras 29 and 30 of GRO 209/1945, a member will not have in his possession, or deliver or transmit to, or acquire in any way from, or attempt to deliver or transmit to, or acquire in any way from, any other person (whether a civilian or a member of another Australian or Allied service) any arms or explosives.

(5) A member will not take his arms or equipment to his home unless it is impracticable to deposit them at an Aust Army cloakroom.

(6) When any member is charged with an offence in respect of any act, conduct or omission forbidden by this order, the CO will direct that a summary of evidence be taken and will make application to superior authority for direction whether the member will be tried by court-martial.

68. STANDING ORDERS FOR SCHOOL OF ARTILLERY

The following section of Standing Orders for School of Artillery has been amended:

Section B, page 3, Daily Routine

For "Retreat 1700 hrs", substitute

"Retreat 1730".

All copies of SO's for School of Artillery will be amended accordingly.

69. CANTEEN PROFITS - DISTRIBUTION OF

(1) As from 28 Sep 45, no further distribution of monies becoming available from Canteens profits will be made to Regimental Funds of Units.

(2) The whole of the 5% which was previously distributed on the basis of 2-3/4% to Regimental Funds and 2¼% to the Special Amenities Fund will, in future, be made available to the AIF Special Amenities Fund.

(3) Units requiring assistance will make their requests for such financial requirements in future to the Amenities Service through the usual channels.

AUSTRALIAN RED CROSS SOCIETY - SCHOLARSHIPS IN SOCIAL STUDIES

The Australian Red Cross Society is offering a limited number of scholarships for training in Social Studies at the Universities of Sydney, Melbourne or Adelaide, tenable for the two years 1946-47. They are open to men and women, aged between 21 and 35 years, who have matriculated.

The value of the scholarships is £150 per year. Students required to train away from their home city may, if they find it necessary, apply for a further living allowance of up to £1 per week, if training in Melbourne or Adelaide, and up to 25/- per week if training in Sydney.

Preference in making awards will be given to suitable applicants from those States where there is no training for social workers, namely Queensland, Western Australia and Tasmania.

If is desired through these scholarships to make opportunities for people of some maturity, and who would not be eligible for benefits of the Commonwealth Reconstruction Training Scheme or for the Commonwealth Government's form of financial assistance.

Scholarship holders will be required, on completion of their training, to give two years service in the Social Service Department of the Red Cross Society. The Society is responsible under instructions from the Army, for maintaining medical work in military hospitals; and provides a social case-work service for men and women discharged from the Services with medical disabilities to assist in their rehabilitation into civil life. The post-war plans of Red Cross include provision for development of other aspects of social service, as the need arises.

Applications for scholarships should be by letter to the State Division of the Red Cross Society in the applicant's home state, and should state reasons for wishing to undertake social work and for requiring a scholarship. More detailed information will be supplied by the Society on request.

APPENDIX 'A'

TRIALS WITH EQUIPMENT RADAR AA No 1
MK 2 and No 3 MK I.

OBJECT.

To test the efficiency of AA No 1 Mk 2 modified as outlined in DME Radio Bulletin No 240, as a "putter on" for AA No 3 Mk 1.

DETAILS

Equipments used -

Radar AA No 1 Mk 2
AA No 3 Mk 1
Predictors AA No 1 Mk 3
AA No 10 (BTL)

Date 14.11.45 Location - RANDWICK.

METHOD

(a) Lining-up with the Predictors was checked by selecting an aiming point on which both Radars and Predictors were aligned. Then AA No 1 Mk 2 was connected in turn to Predictor AA No 1 Mk 3 Predictor AA No 10 and Radar AA No 3 Mk 1 and alignment checked.

(b) "Putting-on" trials were carried out on passing aircraft after repeated failures to arrange air co-operation. Owing to the scarcity of trained operators two complete detachments could not be obtained. Accordingly the most experienced operators were used to man AA No 1 Mk 2 and a scratch detachment consisting of an experienced NCO and three AEME personnel were used in AA No 3 Mk 1. The three AEME personnel were intelligent troops with knowledge of how to operate but without the dexterity that would be possessed by operators of long experience. The methods used were

(i) AA No 1 Mk 2 would search for a target while AA No 3 Mk I followed continuously.

(ii) AA No 1 Mk 2 would search for a target while AA No 3 Mk 1 remained stationary. When a target was located the order "Fresh target" was given by phone and AA No 3 Mk 1 would turn to the position indicated on the dials and report when on target. Records were kept of (a) the bearing difference between the two equipments when the order "Fresh target" was given (b) the time taken between "Fresh target" and "On target" and (c) the distance travelled by the plane between "Fresh Target" and "On target".

RESULTS

(i) When employing the first method no sensible readings could be obtained as the target was on the crosswire and being followed by AA No 3 Mk 1 in every instance when "Target" was reported by phone from No 1 Mk 2.

(ii) When employing the second method 33 readings were obtained which are tabulated in Table 1. In assessing these results the speed of rotation of the cabin must be considered, as the greatest proportion of the time was involved waiting for AA No 3 Mk 1 to "catch up" to the indicated bearing. The Radar used had been modified to reduce the current through the thyratron with consequent reduction in the speed of rotation. Actual times from a standing start were

90° rotation 20 seconds
360° " 67 "

AUSTRALIAN WAR MEMORIAL AWM2019.366.3357

It must also be remembered that the travel of the target is not considered and that the bearing difference would have to be corrected for this factor before the times shown would be accurate enough for assessment of operational delay. Other factors to be considered are

(a) The maximum range at which an aircraft was detected was 16,000 yards. This was an adverse factor as the bearing rates were high in most cases.

(b) In only a few cases was the A/S above 15° and mostly it was below 10°. While this reproduced the conditions that would be encountered with distant targets, it would have given no indication of the delay due to elevation traverse and accordingly the mirrors were tilted between 20° and 30° between "runs". At no time however did this appear to be a limiting condition. But the small A/S appeared to affect adversely the accuracy of CL Mk 2's information with the result that the mirrors had to be rocked about the indicated figure.

(c) The Mk 2 equipment used was fitted with a Displacement Corrector and transmitted range to 14000 yds only. The normal Mk 2 transmits range to 30,000 yards. Conclusions drawn are based on the use of a Mk 2 not fitted with this type of Displacement Corrector.

CONCLUSIONS

(i) The modification, after certain technical alterations are made, is successful. These alterations are outlined in Appendix "A" and are being separately communicated to DME by SYDNEY Area Workshops.

(ii) The time involved in "putting on" is due almost entirely to the rate of bearing traverse with No 3 Mk 1 and this would be the same with any method of "putting on". The ease with which the information is read is considerable and no special operating skill is involved.

(iii) The requirements stated in BRA letter Radar 833 of 22/10/45 have been met.

AUSTRALIAN WAR MEMORIAL AWM2019.366.3357

APPENDIX "A"

The modification set out in DME Radio Bulletin No 240 was originally unsatisfactory for the following reasons:-

(a) The roof telephone was useless owing to a severe 50 cycle hum. This voltage comes from the magslip system and was corrected by removing the connection between terminals 24 and 39.

(b) The hunter magslip has no X and Y terminals as shown in the blueprint but instead has three connections from the Bearing transmitter of No 3 Mk 1

(c) No instructions were included for setting up the hunter magslip with the result that although the bearing dials in both equipments were correctly aligned the hunter would centre only when the two equipments were on different bearings. After considerable experiment with the connections to the hunter the solution was found in releasing the ring on whichare mounted the stops for the hunter pointer, rotating the frame of the hunter until the pointer was central when on correct bearing and then tightening the ring with the stops in the desired position.

I. REPORT ON LAA TRIAL CARRIED OUT BY SCHOOL OF ARTILLERY, NORTH HEAD, 13 Nov 45.

II. OBJECT.

To ascertain what advantages could be obtained by employing a different method of correction for target approach angle to that now in use, with a view to

(a) accuracy of shooting
(b) effect on laying due to sight movements
(c) ease of operation.

III. DESCRIPTION.

(a) Reference to App.A photograph shows that modification employed dispenses with handle, tube and ratchet assembly and mounted in its place on Journal assembly a transverse guide carries a slide block, in which the rear ball of the Journal shaft assembly engages. An annular slot is attached to the slide block at right angles to the guide-way. A bridge piece is attached to each end of the guide-way and carries at its centre a short hollow shaft in a vertical bearing; to the lower end of the former a guide assembly is attached carrying a slide fitted with a roller engaging with the annular slot. A handle is attached to the top end of the hollow shaft. A knob controls, through the hollow shaft, the slide and roller, which may be positioned for aircraft speed. It was found desirable to fit a second handle bar; this provides a convenient rest for No.1's arm, which permits finger tip control of course bar.

(b) Method of operation.
It will be seen by reference to appendix A and diagram appendix B that after initially applying aircraft speed the action of aligning handle with the axis of the target aircraft modifies this speed by the sine of the approach angle.

IV. CONCLUSIONS.

(a) On targets up to 150 MPH little advantage is gained - at higher target speeds the instinctive and uni-directional operation provides a marked advantage in accuracy, requiring considerably less mental concentration on part of No.1

(b) The elimination of jerky sight movements considerably reduces the layers problem and provides a smoother and more accurate lay.

(c) Mental concentration is required principally when aircraft is first sighted and out of range in order to obtain initial alignment; the following operations are natural and instinctive, a marked advantage being noted in the fact that at no time is No.1 required to change the direction of his movements - the faster the target, the more rythmical these become.

V. TRIALS.

TRIAL A.

One gun detachment was employed operating successively a 40 mm equipment, fitted with normal S/C and one with modified S/C.

(a) Standard of Trg.

Detachment - only fair

AUSTRALIAN WAR MEMORIAL AWM2019.366.3357

No.1 - (a) fully trained on normal S/C
(b) fired after 3 practice runs on modified S/C.

(b) Target Drogue towed by Vultee Vengeance aircraft. Air speed 150 MPH - Height 1300 ft.

Standard Courses
North to South and South to North crossing at ground ranges at C.P. 800 to 1200 yds.

(c) Weather.
Northerly wind approx 25 MPH
Visibility - good with patchy cloud and blue sky.

(d) Tracer observation.
50% (approx.) observed.

(e) No. of Rds. fired
S/C modified 100
S/C normal 70

(f) Observations.
Accuracy of shooting was at least as good if not slightly better with modified sight. Report by No.1 stressed the greater ease of operation of the modified correctional head; freedom from sudden sight variations permitted a smooth and accurate lay.

TRIAL B.

This was conducted by layers and No.1's in Apparatus Dome Training AA No.1 engaging targets successively with normal and modified S/C.

(a) Standard of Trg.

Layers trained.
No.1 trained in operation of normal S/C. A series of runs with film No.205 using S/C modified were conducted to accustom No.1 to modified correctional head.

(b) Film used -
No.203 - speed 290 MPH crossing target crossing point range 500x.

(c) No.of runs - 10 runs each equipments

(d) Observations.
Hits were obtained in 5 of the 10 runs with modified S/C, and targets were easily followed through crossing point. No.1 reported that after initial alignment of course bar, when target was out of range, action was instinctive and e simple, requiring little mental concentration.
Hits were obtained in 1 run only using normal S/C. Target was lost by layers on each run due to sudden sight changes, when traversing at high rate - at no time was target followed through crossing point with normal S/C. No.1 reported that particular concentration was required at all times when such a difficult course had to be followed.

RECORD OF TELEPHONE CONVERSATION

13 ~~JAN~~ NOV. 45

From : Fraser BRA's Office.

To : Comdt. School of Artillery.

Maj. Thorpe has completed portion of his F.S. report at B.R.As Office and will leave Melbourne by ~~air~~ train Wednesday night, arriving on Thur 15 Nov. to return to School of Artillery to complete his report.

This should take about 14 days. In connection with this report there will be setting up of boards and equipment. B.R.A. requests that an Officer of PMF either Staff Corps, or A.I.C. be detailed to take over such information and any prepared equipment, in order to hand it over later on to F.S. Officer more permanently allotted to School Staff. Five copies of Maj. Thorpe's paper are to be prepared. Two to B.R.A. Two to School of Arty. One to Maj. Thorpe.

On completion of this work, Maj. Thorpe's release to be arranged.

Capt Clements. Should be finished in Melbourne by the end of this week and leave for Sydney early Wed. week to complete his report and carry out trials on equipment.

His reports should be dealt with in the same way as Maj Thorpe's.

FIRE PRECAUTIONS.

The Commandant directs that personnel be practised in the use of fire appliances in the school area in accordance with instructions issued in AF G936.

2. Practice will commence on Saturday ~~1 Dec~~ 1 Dec 45 and will continue to be held on each Saturday morning until further orders.

3. Personnel to be trained

All ranks School Staff and Depot Troop. Officers above field rank will not be required on these exercises.

4. Object of Exercises

To train Orderly Officers, Orderly Serjeants and Fire Piquets in the correct use of fire appliances in the event of an outbreak of fire.

5. Instruction

RSM will be responsible for the instruction of personnel and will arrange for a member of Local Fire Brigade to attend when convenient to assist in the instruction.

6. Exercises with hoses and hydrants will be of a dry nature, that is to say, that hoses will be coupled, hydrants fixed but valves will not be opened.

(a) Wet drill will be carried out when the services of a member of Fire Brigade is available. RSM to arrange for wet drill once a month.

(b) Other fire appliances, such as Fire Extinguishers will be described and demonstrated in their use to the class, but care will be taken that the Extinguisher so used is filled and charged at the first opportunity.

(c) At the conclusion of wet drill, hoses must be carefully dried before being replaced..

(d) WO Moloney will be present at these exercises to assist RSM.

WATER CONSERVATION
AMF SCHOOL OF ARTILLERY.

Owing to the breakdown of the main water pump in this area, it is requested that until this pump is restored to full service, the utmost economy in the use of water be exercised by all ranks.

2. The principle reasons for conservation are:-

(a) Quarantine Station is at present in short supply owing to pump breakdown.

(b) In the event of fire, the supply at present would be totally inadequate to cope with or assist in subduing an outbreak of fire.

3. Your co-operation in this respect will be appreciated.

TRIAL - RADAR EQUIPMENT AA No 4 MK I - ATTENUATION OF PPI INTERCONNECTING CABLES.

OBJECT: To test modification to AA No 4 Mk 1 and AA No 3 Mk 1 whereby video signals are transmitted from ZPI to APF.

DETAILS: Date of Trial - 28 Nov 45
Location - NORTH HEAD.

METHOD: (a) To check attenuation. A steady fixed echo was selected and the signal strength adjusted until it was just visible on PPI, one length of cable being in use. Additional lengths of cable were added in, one at a time and strength of signal on PPI observed.

(b) To check range resolution. Two fixed echoes which could just be separated in range with one length of cable in use were selected for observation. Then additional lengths of cable were added and separation checked.

RESULTS: No difference in signal strength or range resolution could be detected, when additonal lengths of cable were added.

CONCLUSION: The modification is very successful.

86. CONSERVATION OF RUBBER

The following extract from GRO 314/1945 is published for the information and necessary action of those concerned:

"The supply situation in regard to rubber is still serious and it is imperative that every ounce of rubber in use by the Army should be conserved to the utmost. The use of vehicles is to be restricted to essential requirements.

When vehicles are used, the following six points will be rigidly enforced:-

(i) Don't speed; avoid rapid acceleration, harsh braking and fast cornering.

(ii) Check pressures daily with gauge to protect side walls and save treat wear.

(iii) Keep brakes equalized, wheels true, and watch for misalignment.

(iv) Interchange tyres at prescribed intervals to keep wear even.

(v) Closely inspect tyres daily, remove any stones, and repair minor cuts.

(vi) Report defects immediately.

87. PAY - CHRISTMAS PERIOD

Pay day for the pay period 14 Dec 45 to 27 Dec 45 will be Thursday 20 Dec 45. The next pay day will be 10 Jan 46.

Members are reminded that paybooks, together with a slip of paper indicating the amount of pay required, should be handed into the pay office on the Monday preceding each pay day. As this is necessary to estimate pay requirements, insufficient pay may be drawn to pay those members whose paybooks have NOT been handed in.

88. BARRACK MAINTENANCE

It has been observed that tiles have been disappearing from the bathrooms in the barracks buildings. Personnel removing such tiles for any purpose are informed that such action is likely to result in a charge being laid under civil law.

89. HALF YEARLY RETURN OF TYPEWRITERS & DUPLICATORS

All Administrative and Training Offices will submit to Orderly Room by 1400 hrs on 13 Dec 45 a list of all typewriters and duplicators held by them. Number, Make and Condition of Machines are required.
