

Personal Reflection Sheet

This worksheet is provided to assist you in reflecting on how well each of the options performs against the identified community outcomes. **This will help you prepare for the survey.**

	Improves the ecology of the South Lagoon as determined by scientific evidence, given water availability and constraints.	Protects sites and areas of all cultural, Indigenous and broader community significance	Provides a long-term solution that can be sustainably managed	Reflects the needs of the community	Grows / supports local economic opportunities and education now and into the future.	Enables the continuation and enhancement of use of the wetland in a sustainable manner	Is able to be adaptable, flexible and is aesthetically sensitive
Option 1A Increased dredged Murray Mouth Dimensions							
Option 1B Training walls for an open Murray Mouth							
Option 2 Coorong - Lake Albert Connector							
Option 3 Coorong Lagoon dredging							
Option 4 Augmentation of SE Flows							

	Improves the ecology of the South Lagoon as determined by scientific evidence, given water availability and constraints.	Protects sites and areas of all cultural, Indigenous and broader community significance	Provides a long-term solution that can be sustainably managed	Reflects the needs of the community	Grows / supports local economic opportunities and education now and into the future.	Enables the continuation and enhancement of use of the wetland in a sustainable manner	Is able to be adaptable, flexible and is aesthetically sensitive
Option 5 Coorong South Lagoon regulator							
Option 6 Temporary pumping – Sth Lagoon to Ocean							
Option 7 Permanent connection between Sth Lagoon & Ocean							
Option 8 Additional automated barrage gates							
Option 9 Temporary wetting/drying cycling of Sth Lagoon							
Option 10 Water level induced flow
