5 BINOCULARS, COMPASSES, PRISMATIC: AND WATCHES.

i) Binoculars, Cpmpasses prismatic and Watches are Unit stores and must remain so. When personnel to whom these articles are on issue, are transferred from the Unit for any reason, action will be taken to withdraw the items for re-issue.

iii) All personnel at present in possession of these articles will report them to the Q M.

6 CENSUS OF BINOCULARS.

1) National Security Regulation No 57 dated 23 December, 1941, provides for all binoculars owned by individuals to be declared. This includes those owned by members of the Army whether officers or other ranks.

2) It has been decided that the Army will arange the Census of Binoculars owned by Army personnel. It is known that the Census of Warlike stores will reveal the holdings of Army issue Binoculars, but it is felt that the many who are using their own will not be included in such return as the glasses are not on charge to units.
For purpose of supply, it is necessary to know the total number available in Australia, but it is not intended to call up binoculars privately owned by Army personnel.

2) To enable this information to be collated, each unit will submit the following return:-

Attention of all ranks is to be drawn to S[illegible] 234/41, which is re-promulgated hereunder:-

"(i) The sale of tabacco, cigarettes and cigarette papers by military canteens, to civilians visiting camps, is prohibited.

(ii) Re-sale to civilians of supplies taken away from camps by members of the Forces may result in the rationing of supplies in all camps, and the attention of all ranks is to be directed to this with a view to obviating the possible loss of privileges in respect of unrestricted supplies."

8. QUARRELS AND DISORDERS= DUTY OF OFFICERS' AND N C O's
Instances have occurred recently where Officers and NCO's have failed to exert their authority in the presence of quarrels and disturbances engaged in by military personnel. To maintain discipline is the first duty of every Officer and N C O, and failure to do so is not only neglect of duty, but points to lack of character on the part of such Officers or N C O's who, rather than carry out an unpleasant task required of them, either deliberately move away from or ignore the occurrence.

In future every Officer and NCO will, with regard to above, take such steps as the circumstances require of him, and failure to do so will be regarded as an offence.

The anti-gas cape may in future be carried in any one of the following four positions as ordered by the local commander, having regard to the existing circumstances, and in accordance with the items of equipment which are being worn at the time; i.e. battle order, marching order, etc:-

1. The "Worn" position as at present taught.

If the latter course is adopted, the gas cape may be worn to give protection against rain, except in the case of men digging, loading or unloading heavy stores, or riding in mechanical vehicles. The cape should be folded to a width of 11 inches, with tapes and whipcord inside, and then rolled; it should be placed in the haversack on top of all other items.

5. SECRECY DISCIPLINE

The attention of all ranks is invited to the necessity for maintenance of secrecy discipline. The efficiency of the enemy espionage and information service has been a conspicuous factor of his general mil. success at this time.
There is evidence of leakage to the public of information regarding the disposition and movement of mil. units and material, presumably the result of careless talk at social gatherings, in hotel lobbys and on public conveyances. The tendency to talk in an atmosphere of conviviality requires no further comment.
Offrs, enlisted men and civilian employees are forbidden to discuss any mil. matters in the presence or hearing of any stranger, either mil. or civilian. They must understand that comments regarding mil. subjects may become dangerous to the safety of our troops and our cause. While it is obvious that, inthe majority of cases, the intent was not malicious, and that public curiosity is a constant temptation, it must be accepted that comments regarding mil. subjects in an unofficial setting and to unauthorised persons indicate lack of a proper sense of official responsibility.
It is directed that this matter be brought to the attention of all personnel with a view to exercising increased caution in respect to mil. information.

8 INJURIES TO MEMBERS - USE OF BREADCUTTING MACHINES

In order to avoid accidents to members of the Forces when using breadcutting machines, loaves of bread will NOT be pushed into the cutter by hand, but will be propelled by a piece of wood which will be of sufficient size to prevent any portion of the operator's hand coming into contact with the blade of the cutter. Every member detailed to operate a breadcutting machine is to be instructed accordingly by the member so detailing him.
In any future accidents arising from the use of breadcutting machines, inquiry is to be made as to whether the injured member has been advised of this direction. If he has been so advised appropriate action is to be taken against him for disobedience of orders. O's C units will provide each driver with AAF G 13 and ensure that instruction regarding the completion thereof has been given.

Attention is directed to para 43 of Standing Orders for the Operation and Maintenance of Mechanised Vehicles. Drivers will study these instructions carefully and particularly section B of para 43, requiring drivers to ascertain names and addresses of driver and owner of any other vehicle concerned, and also of any witnesses to the accident. Independent witnesses, where possible, will be questioned and their names and addresses obtained. Failure of MT drivers to obtain this important information has often deprived the Dept of its legal right to recover damages sustained to its property by negligent private drivers.
