1 AUST CRE NEW GUINEA FORESTS(AIF)

24 Feb 45

TRE 5665

Officer in Charge
Military History Section.

WAR DIARY - 1 AUST CRE NG FORESTS(AIF)

Further to ypur MH 64995 of 30 Jan 45, there are attached the following appendices which it is hoped will largely fulfil your requirements.

Appx 1. Developement of the Timber Resources, especially in New Guinea. Minute dated 11 Nov 43 from Lt-General i/c Admn. to Military Secretary. This is a general background to the problem of developing timber resources in New Guinea and adjacent areas during the war.

Appx 11. Directive from C in C and E in C, an outline of functions, command and liaison of proposed NG Forest Service, RAE. Special attention is drawn to 5(a) which states "It will be equiped to operate as a Forest Service, not as a producing unit." 1 Aust CRE NG Forests has done a lot of ground work in determination of species, best uses of new species, and forest survey of sites for sawmilling units in areas with a comparatively unknown flora.

Appx 111. Minute dated 19 Jan 44 from E in C to LGA, refers to the 2/1 Aust Forestry CRE and the recommended personnel in Australia and New Guinea for NG Forests mentions Capt M.R. Jacobs first Staff Officer (Forestry) at LHQ, and Lt J.B. McADAM M.M. the first CRE, 1 Aust CRE New Guinea Forests.

Appx 1V. Memo SM 2348 dated 2 Nov 44 from Adjutant-General to HQ First Aust Army, referring to raising of 1 Aust CRE New Guinea Forest and 1 and 2 Aust Forest Survey Coys.

Appx V . Memo MS 3(b)/MJ, GP/29/304 from Military Secretary to HQ Second Aust Army, giving approval of transfers and changes in posting of 8 of the original officers of the group.

Appx V1. Letter TRE 5043 dated 17 April 44 from CRE NG Forests to HQ Moresby Base Sub Area. Refers to proposed work and transference of 1 Aust CRE New Guinea Forests to Lae about 1 May 44.

Appx V11. Memo TRE 5049 dated 19 April 44 from CRE to CE NG Force referring to holding of botanical and wood technology school at Lae during July 44.

Appx V111. Memo TRE 5234 dated 23 July 44 from CRE to HQ NG Force, refer to visit of Dr Dadswell, Wood Technologist of C.S.I.R. and Mr C.T. White, Govt Botanist, Queensland.

Appx 1X. Report by CRE on Botanical Training school Yalu (nr Lae) 17-29 July 44. Appx "A" gives list of personnel, Appx "B" gives schedule of course.

Appx X . Memo TRE 5382 dated 27 Sep 44 from CRE to 1 and 2 Aust Forest Survey Coys requiring analysis of unit personnel capable of carrying out sample plot work.
Appx "A" gives reply from 1 Aust Forest Survey Coy. Dated 30 S
Appx "B" gives reply from 2 Aust Forest Survey Coy. " 30 Sep

Appx X1 . List of special equipment in WET's of CRE NG Forests and Forest Survey Coys RAE.

Appx X11. Field Returns AFW 3008 and AFW 3009, pages 1 and 2.

AUSTRALIAN WAR MEMORIAL AWM2020.71.3945

The preceeding information gives an outline of the reasons for establishment, the formation and general work of the group, prior to 1 Dec 44. Please advise if any salient points have been ommitted.

The scope of work and brief details of current work is covered excellently in the fortnightlyy report which is being attached to unit War Diary recordd as from 1 Jan 45.

(A.E.HEAD) Maj.
Adm. Comd.1 AUST CRE NEW GUINEA FORESTS(AIF).

AUSTRALIAN WAR MEMORIAL AWM2020.71.3945

A88. I.

DEVELOPEMENT OF TIMBER RESOURCES (ESPECIALLY IN NEW GUINEA.)

SECRETARY.

1. It is noted that the Minister's Minute of 2nd November that he desires Army plans for the developement of timber resources in NEW GUINEA to be submitted to War Cabinet.

2. At present it is difficult to indicate firmly the details of a timber supply plan which depends for imppementation on the developement of operations, strategic requirements, and transport, all of which, it will be realized, are highly variable and not easily predictable.

3. The requirements of both the AMF and the US Forces in the Area, which it is Army's task to try to meet, are growing, and the advance to and beyond FINSCHHAFEN will greatly step-up the quantity of timber needed, as well as require the delivery dates to be advanced. A highly elastic Army plan is needed to cope with this situation.

4. It may be expected that as production develops all locally-milled timber surplus to local Service requirements will be back-loaded to the mainland whenever possible, although it is expected that the greater part of the 5/10,000,000 super ft. per annum which is the maximum Army capacity to produce, subject to many limiting factors, will be required for operations in NG and adjacent areas.

5. It may be stated that, in addition to the objects stated above, which are an operational necessity, Army policy provides for the following:-

(a) Control by NG Force of all timber production, and distribution in NG, and export therefrom.

(b) Milling to be conducted on a sound afforestation basis to protect timber assets.

(c) Existing civil rights and timber lease will be respected, and all timber removed from such areas will be recorded separately.

(d) Complete surveys will be made, and detailed records will will be kept in such a manner that they can be passed over to the Civil Administration when the change from a war footing to civil control is implemented.

6. The mainland's difficult timber problems are understood. The same problems are facing the AMF and US Forces in the field, where increasing difficulty is encountered in satisfying the appetite for timber. The broad plan formulated by Army is in part the product of an attempt to relieve the strain on mainland sources about which the Controller of Timber in the Ministry of Munitions complained to the QMG on 2nd. April, 1943, but the character of military operations in the area makes the forward estimation of demand, and therefore of the production plan, difficult if not impossible to define, but it may be stated that the maximum capacity of Army Forestry Units in or proceeding to the Area will probably fall short of local needs even under the most favourable conditions. The time-lag before full production is reached represents another serious problem.

7. All administrative steps necessary to organize production along the above lines are under way, but precise details are not yet available. The Minister will be informed immediately they are available

-2- .....

AUSTRALIAN WAR MEMORIAL AWM2020.71.3945

8. It is suggested that the draft memoranda (appearing on the file) prepared for despatch to the various Government Departments concerned, give all data which can be made available to those bodies at present.

9. It may be, on perusal of the above, that the Minister will share the view that little purpose could actually be served at the moment by submission of a formal Agendum to War Cabinet.
It is clearly understood, of course that as soon as further useful data are obtained, the Minister and all Government Departments involved will be adequately informed.

Lieutenant-General,
i/c Administration.

11 NOVEMBER, 1943.

AUSTRALIAN WAR MEMORIAL AWM2020.71.3945

App. II

THE NEW GUINEA FOREST SERVICE. RAE

1. The C in C has directed that the Timber resources of NEW GUINEA are to be managed, as far as operational requiremnets permit, along sound silvicultural lines under E in C control. The C in C also wishes that every reasonable opportunity be taken to improve our knowledge of NEW GUINEA Forests withe the aid of the vast amount of air survey and other recce work that has been done in the course of the present campaign.

2. In order to implement the policy outlined above, the E in C has been instructed to raise a NEW GUINEA Forests Service, RAE. This Service will comprise a Headquarters unit and three or more Survey / Recc units.

3. The NEW GUINEA Forest Service RAE will perform in NEW GUINEA those functions normally carried out by a civil Forestry Department. These functions will include:-

(a) The implementation of Army Forestry Policy in NEW GUINEA as determined by the C in C.

(b) Prior allocation and survey, as far as operational conditions permit, of areas to be milled by all Australian Army Sawmilling units.

(c) Compilation through CE NGF from Australian sawmilling units of informations necessary for compensation and other forestry record purposes.

(d) Liaison with US Services in order to bring all timber production in NEW GUINEA under a common policy, and to obtain the records necessary for reverse lease-lend adjustments.

(e) Liaison with ANGAU to determine the question of civil rights.

(f) Execution of surveys to obtain the maximum amount of forestry information from air surveys and other work done by the Allied Forces in NG.

(g) The correlation and maintenance of forestry information and record in a manner suitable for handing over to a civilian Forest Service at the appropriate time.

4. Command and liaison with other units will be as follows:

(a) The service will be under command of a CRE NG Forest Service under NG Force.

(b) The various survey /recce units will be under appropriate local command, but on technical questions will deal direct with CRE NG Forest Service.

(c) As far as operational conditions permit, Forest policy and technical questions will be decided by CRE NG Forest Service direct with E in C. LHQ.

(d) Relationship with other RAE units will be through CE, NG Force.

(e) Normal functioning will require that direct liaison should be established and maintained between CRE NG Forests Service, ANGAU, Survey Directorate and the US Engineers.

AUSTRALIAN WAR MEMORIAL AWM2020.71.3945

THE NEW GUINEA FOREST SERVICE RAE (cont)

5. The relationship between the NEW GUINEA Forest Service, RAE, and the Forestry Coys, RAE, will be as follows:-

(a) The NG Forest Service RAE will carry on in NEW GUINEA until the control of forest resources reverts to a civilian organization. It will be equipped to operate as a Forest Service, not as a producing unit,

(b) The Forestry Companies Group RAE form an AIF mobile group whose purpose is the production of timber by milling along lines compatible with the policy of a Forest Department. The Forest Companies may be moved anywhere where timber is required for the Services at any time.

(c) The NG Forest Service RAE will co-operate with the Forest Companies Group RAE through CE, NG Force.

AUSTRALIAN WAR MEMORIAL AWM2020.71.3945

App. III

SECRET

DEVELOPMENT OF TIMBER RESOURCES IN NEW GUINEA

EC: 4411

L G A

Reference your Minute of 14 Jan 44

1. The responsibilities placed on the Office of the E in C., by this instruction are equivalent to those carried by a well established Forestry Department.

2. The present Army Forestry Group is not equipped to do the necessary work for the following reasons:-

(a) The Forestry Coys. or other Army Milling Units are essentially semi-mobile Field Units whose primary purpose is production.

(b) in ENGLAND, the Continent, or even on the Australian mainland such Army Milling Units would work in forests in which Civil Forestry Departments had been carrying on survey and othe investigational work for centuries or decades.

(c) In NEW GUINEA this preliminary civil survey work has been limited to the last few years only, and has scarecely touched the areas likely to be milled.

(d) The required information could not be obtained without close liaison with ANGAU in order to determine ownership, civil rights etc. An adequate organisation to make use of ANGAU records would be essential.

(e) American sawmilling operations in NG, and inevitable reverse Lease-Lend questions that will arise from them, must also be considered.

3. To implement the policy as outlined it is considered that the Office of the E in C would require the following additional personnel, which may later have to be added to.

(a) In AUSTRALIA

A technical staff at LHQ to correlate NG reports, to liaise with US Forces and to act as a medium through which technical advice could be sent to forward areas.

The problems involved in the production of timber, compensation, civil rights etc., vary from botanical, insect and fungal, to engineering and legal ones. This technical staff would be required to obtain necessary information from appropriate Army Branches or civil departments and pass it on to forward units.

This mainland staff should be composed of qualified forestry officers with adequate technical staff.

Capt. M.R. JACOBS has all the necessary qualifications to fill the senior appointment and is at present a member of my staff.

(b) In NEW GUINEA

A Field Forest Service Unit RAE operating under CE, NGF which would, in effect, carry out the survey and recording work normally done by a civil forestry department.

AUSTRALIAN WAR MEMORIAL AWM2020.71.3945

It is considered that this unit, if established now, would be of the very greatest value to the future of NEW GUINEA as well as assisting in present Army problems. A vast amount of information invaluable in the future development of the country could be obtained from Army reconnaissances and air surveys if the work is put in hand immediately. If delayed, much of the value will be lost as the rapid growth of plants in the tropics will make correlation between air photos and ground survey difficult.

It is considered that this Field Forest Service Unit RAE might be composed of, at the start, of a HQ and three survey/recce units. A suggested establishment is shown in Appx B. Further survey/recce units would be required if activities extended to NEW BRITAIN under arrangement with US Forces.

Should this unit be formed, it is considered that Lieut. J.B. McADAM M.M. at present acting between CE NG Force and ANGAU should be appointed OIC. McADAM was specially trained by the Commonwealth Government to be Chief Forester of NEW GUINEA Territories, and carried out the duties of that post for several yeats before the war with Japan, in which he has served as a soldier with good effect. It is pointed out that the timbers and Forests of NEW GUINEA have not yet been adequately written up in books. Nobody knows them very well, but McADAM knows them better than anyone else who could be appointed to the position.

The appointment of McADAM would mean, in effect, giving pre-war and presumably post-war Chief Forester of NEW GUINEA the responsibility of collecting the records essential for his department.

4. NEW GUINEA contains one of AUSTRALIA'S most important reserves of timber. Because of the mainland timber shortage, and because of the problems of the vast quantities of timber that will be required for post war housing and reconstruction, it is inevitable, as your minute points out, that the action of the Army as custodians of this reserve will be continually watched with active interest by Government Departments and industrial concerns alike.

5. The information the E in C is to be responsible for, can only be obtained if reasonable machinery is provided for the work. In effect, a small Forestry Department is required under E in C., control. If this machinery is provided it will perform valuable service for this country.

6.

(Sgd) C.S. STEELE,
MAJOR GENERAL,
ENGINEER IN CHIEF.

3	92160	2 AUST FOREST SVY COY	IV/16G/1	6	121	127	" "

2. The personnel required to form the abovenamed units may be AIF or CMF and will be provided by:-

(a) Nomination of the officers by LHQ (E in C)

(b) Transfer of selected personnel from formed units on the mainland under separate instructions to be issued by LHQ. Action is being taken to arrange transfer of these personnel and, pending further advice from LHQ, it is desired that HQ NG Force ensures that the following posting in the units being raised remain unfilled:-

WO II		Trade Group I	
Foresters	8	Surveyors	2
Surveyors	3		
Sergeants		Trade Group II	
Draughtsmen	1	Axemen	3
Orderly Room Clerk	1		

(c) Transfer of selected personnel from units within the resource of HQ NG FORCE.

(d) Drafting of suitable general reinforcements from 1 RAE TRG CENTRE.

(e) Reallotment of suitable applicants for key postings from personnel of AMF units at present being, or about to be, absorbed as general reinforcements under LHQ instructions.

AUSTRALIAN WAR MEMORIAL AWM2020.71.3945

(f) Posting of native personnel by HQ NG FORCE.

3. Selection of personnel required vide sub- para 2 (c) above will be made by HQ NG FORCE.

In order that arrangements can be made for the earliest provision of the balance of personnel required to complete the new units to WE strength, it is desired that HQ NG FORCE advise 2 Ech LHQ, as soon as possible, particulars by ranks and trades of personnel so selected.

Selection of personnel required vide sub-paras 2 (d) and (e) will be made by CE SECOND AUST ARMY, acting in this matter as representative of LHQ, in collaboration with 2 Ech LHQ. It is desired that CE SECOND AUST ARMY or an officer nominated by him, contacts 2 Ech LHQ as soon as possible to arrange selection of the necessary personnel. Personnel so selected will be drafted as required under direction of 2 Ech LHQ.

4. Movement of personnel from the mainland to NG will be as follows:-

(a) Those transferred vide sub-para 2(b) above will be moved independently to 5 Aust ARD under LHQ instructions and HQ Formations or L of C Areas concerned will advise HQ NG FORCE the estimated time of arrival of the personnel at 5 Aust ARD.

(b) Those selected vide sub-paras 2(d) and (e) will be drafted to NG by 2 Ech LHQ for posting to 1 Aust CRE New Guinea Forests or 1 and 2 Aust Forest Svy Coys by NG L of C Area RO. 2 Ech LHQ will advise HQ NG FORCE the estimated time of arrival of each draft at 5 Aust ARD.

Priority of on movement to NG of these personnel will be aranged by HQ NG FORCE.

5. Personnel transferred in accordance with this instruction will retain personal arms and equipment.

The issue of unit equipment for 1 Aust CRE New Guinea Forests and 1 and 2 Aust Forest Svy Coys in accordance with WETs in course of promulgation will be subject of separate instructions from LHQ.

Jungle green clothing is not required.

6. The officers appointed to command the new units, or such officers as they may nominate will report to NG L of C Area RO for instruction in "Unit Records" procedure.

7. It is requested that the raising of these units be treated as a matter of urgency and that the provision of personnel excluding natives be completed, if possible, by 31 Mar 44.

K. DAWSON Lt Col
for Major- General
for Adjutant General.

I AUST CRE NEW GUINEA
FORESTS
17 Apr 44

HQ MORESBY BASE SUB AREA
COPY TO; CE NG FORCE

TRE 5043

1. The under quoted memo on timber production has been sent by Comd NGF to all timber producing units in Aust New Guinea:
" 1. In order that all milling and timber getting operations in NEW GUINEA may be controlled with a view to establishing a satisfactory basis for future operations, to use the Forestry resources to the best advantage and maintain records, HQ NGF has been instructed to institute a method to record and coordinate all forest activities.

2. This will be implemented by 1 Aust CRE New Guinea Forests (Maj McAdam) direct with the responsible engineer officers concerned, to whom CE Tech Instn No 77 (to Aust Engr Comds on this subject) is being forwarded for information and guidance."

2. Preliminary work on data collecting on the sawmilling carried out in Aust New Guinea since the outbreak of hostilities with Japan has now been completed.

3. Future operations will be covered by regular monthly returns.

4. Several of the personnel of 1 and 2 Aust Forest Svy Coys have been attached to this HQ for the preliminary work. A number of others are already concentrating at LAE.

5. It is necessary to put these Coys through a period of training in Forest Survey and Estimation. LAE has been chosen as the best site for this purpose.

6. It is necessary that this HQ be transferred to LAE prior to May 1 1944 to receive the monthly returns which then become due from the various sawmilling units.

7. It is requested therefore that 1 Aust CRE New Guinea Forests and 1 and 2 Aust Forest Svy Coys be placed on the OOB for LAE Base Sub Area and that arrangements be made for air movement of this HQ and attached personnel and unit equipment to LAE.

8. Details of personnel and equipment are attached.

AWM. VII

MR C.T. WHITE, GOVERNMENT BOTANIST, QUEENSLAND
DR E. DADSWELL, WOOD TECHNOLOGIST, CSIR MELBOURNE
REQUESTS FOR SERVICES OF

I AUST CRE NEW GUINEA FORESTS

19 Apr 44

CE

TRE 5049

N G F

1. Shortly after the arrival of 1 CRE New Guinea Forests and 1 and 2 Forest Svy Coys at LAE, a school for the training of personnel in their new duties will be organised.

2. Subjects will include survey methods and botanical and wood identification of New Guinea Species.

3. In order to give the personnel the best training and in order to establish our own technologists on the best lines quickly, it would be advisable to utilise the professional knowledge and experience of acknowledged leaders in these subjects in Australia.

4. Mr C.T. WHITE, the Government Botanist of Queensland has a wide contact with the New Guinea flora and is also an educationalist, being a lecturer in Forest Botany at the Queensland University. He has expressed his personal willingness to cooperate in the training of the young foresters in these units providing the Queensland Department of Agriculture can spare his services for a period.

5. Dr Eric DADSWELL is the leading Wood Technologist in Australia and has already done a considerable amount of work with New Guinea woods for the army. A visit from him would not only put the training of our personnel on this subject on a sound basis and enable us to establish our wood technology laboratory on the best lines, but would also render Dr DADSWELL's work for the army, (which he will be continuing in close cooperation with this unit), more valuable. He is personally willing to cooperate and I have no doubt, when approached his Department will make his services available.

6. A month to six weeks visit from these two experts coincidently would be invaluable.

7. At the moment, owing to the difficulty of forecasting final concentration of this unit at LAE, it is not possible to fix a date for their arrival. However they would require some few days work in the area to get the "feel" of the locality. If it could be arranged for them to arrive about mid May, it would fit in with present plans.

8. It is desirable that their respective Departments should have early knowledge of these proposals so that they can arrange to meet us on them.

9. It would be appreciated if you would initiate these requests please.

J B McADAM MAJ

REQUEST FOR DR DADSWELL'S RETURN.

Ref memo from L.G.A. relative to the above subject.

1. The subject matter has been discussed with Dr Dadswell. He came up on the understanding that he was to stay 4-6 weeks. The 4 week period is the absolute minimum his services are required at the present school. The 6 week period would be of considerable assistance to Dr Dadswell's work on the Philippine timbers which is being undertaken by CSIR for G.H.Q.

2. CSIR Melbourne has been requested to confirm this arrangement.

3. Pending a reply, it should be accepted that 12 Aug will be Dr Dadswell's date of departure from the Territory. Every effort should be made to facilitate both his and Mr White's return, once embarked.

4. The following is suggested as the itinerary for Dr Dadswell and Mr White.

Jul 28	Finish Lectures at School YALU.
Jul 29	Consolidate on timber samples collected and prepare for Mountain trip.
Jul 30	Depart for WAU - EDIE CREEK.
Jul 31 } Aug 1 }	WAU area.
Aug 2 to 4	WAU to EDIE CREEK - BULLDOG RD and return to WAU.
Aug 5	Return to LAE.
" 6	Consolidate timbers collected in mountain area.
" 7	To MILNE BAY
" 8 to 11	At MILNE BAY on pile investigation, inspection sawmills etc.
Aug 12	Depart for mainland by Mariner.

5. The following personnel from 1 Aust CRE N G Forests will accompany Dr Dadswell and Mr White to WAU - EDIE CREEK. Major McAdam, Major Jacobs, Major Fox, Lt Smith (Botanist) and one driver.

6. Twenty natives will be necessary from 2-4 Aug to carry the party past the obstruction on the BULLDOG Rd into the high mountain area and to carry back specimens.

7. It is desired to inspect the Pile and Harbour works erected at MILNE BAY. Dr Dadswell's knowledge of timber is essential to make a thorough examination of the pile situation a success. The vegetation of the MILNE BAY area is unusual in the Territory. Mr White's botanical experience will be invaluable there. The party for the inspection at MILNE BAY should comprise Dr Dadswell Mr White, Major Jacobs, Major McAdam and Lt Smith. If a small craft could be made available it would greatly facilitate the inspection by providing freedom of movement within the MILNE BAY - SAMARAI area.

8. Dr Dadswell and Mr White could return direct to the mainland from MILNE BAY by Mariner. The rest of the party will return to LAE as soon as the inspection is completed.

9. It is requested that tentative approval be given to this program and as soon as CSIR's reply is received steps be taken to cover the movement.

Sgd J B McADAM Maj
Comd; I AUST CRE NEW GUINEA FORESTS.

AUSTRALIAN WAR MEMORIAL AWM2020.71.3945

App. IX

REPORT ON BOTANICAL TRAINING

SCHOOL

YALU - 17 - 29 JUL

1. A botanical school, chiefly for the personnel of Forest Survey Coys was commenced at 0830 hours on 17 Jul 44 at HQ 2 Aust Forest Survey Coy, YALU, Ref Map HEATHS 1/25,000 - Map Ref 545550, and continued till 1700 hours 28 Jul 44.

2. Forty personnel attended the full course while up to fifty participated in the field work (See Appendix A for Nominal Roll).

3. The course (Syllabus - Appendix B) consisted of ten lectures on NEW GUINEA Forest Botany delivered by Mr. C.T. WHITE, Government Botanist, QUEENSLAND, ten lectures on Wood Technology delivered by Dr. H.E. DADSWELL, Wood Technologist, C.S.I.R., MELBOURNE, two lectures on Botanical Terminology by Lt L.S. SMITH, Botanist, and one lecture on Interpretation of Vegetative Types from Aerial Photographs by Lt L.T. CARRON, Air Survey Specialist. The last two officers mentioned are from 1 Aust CRE NEW GUINEA Forests. One lecture on the Fundamentals of Tree Growth was delivered by Major JACOBS, visiting Officer from LHQ. The lectures were supported by practical botany and Wood Technology in the laboratory and in the field.

4. As a preliminary to the school the specialists concerned made an intensive study of the local vegetation as a result of which a valuable collection of botanical and wood specimens was made. This collection was used in the school and is now available as a reference collection.

5. In the course of the bush trips members of the class were made familiar with timbers species of the area. The students were now all familiar with the characters used in the identification of timbers and have had considerable practice in the working of the key to the Identification of NEW GUINEA Timbers which has been prepared by the Division of Forest Products, C.S.I.R., MELBOURNE.

6. A copy of the lectures is attached.

SAMPLE PLOT PERSONNEL

A. With a view to future assessment work involving the delineation and complete measurement of sample plots will you please forward nominal rolls of personnel (including officers) whom you consider are now capable of efficiently undertaking all or any of the following jobs:-

1. Making a quick recce of areas up to 100,000 acres and forming an appreciation of number and location of sample plots required to give a fairly reliable estimate of volume by representative species.

2. Satisfactory identification of at least 15 of the more common timber trees and who are also capable of quickly identifying new main timber species in other areas.

3. Assessment and estimation of volumes of individual trees mainly merchantable height and several diameters at estimated heights.

4. Laying out a plot accurately (2-10 acres in extent) and locating such plot to existing known data (for identification both on 1" maps and air photos.

5. All book work concerned with any of the above jobs.

B. Particular care should be taken that only the names of proved reliable men should be submitted.

C = Capable

WOII O'BRIEN: Although primarily a Surveyor, he has invaluable New Guinea experience. With his knowledge of natives and local conditions he would be of great assistance in any recce work or plot location.

Cpl PEEL: Although at the present time he could not be regarded as qualified for any phase except plot location, he is a potential estimator, and could give assistance to more fully trained personnel.
