294 SALUTING AND PAYING COMPLIMENTS Extract Second Aust Army NO's 94-107

1. A marked improvement is noticeable in saluting by individuals and the paying of compliments by formed bodies of troops. Further improvement is however required in the following respects.
   (A) In many cases the salute is given too late and the hand is out away too soon.
   (B) It frequently happens in paying compliments that the command is given so late that the officer who is to receive the compliment has gone by before the compliment is paid.
2. In both these cases the inference is that those concerned are either lacking in alertness to observe or else they cannot make up their minds quickly.
3. It is pointed out that keen vision, alertness of mind and ability to make quick decisions are of priceless value in action and should be cultivated at every opportunity especially by Officers and NCO's.

340 SOLDIERS ON LEAVE - REPORTING SICK Extract Second Aust ~~XXXX~~ Motor Div R.O.'s No A 63

Area Officers, Area Medical Officers and local Medical Officers have received instructions that extra days leave is NOT to be recommended where a soldier is fit to return to camp and his condition would not be prejudiced by travelling to his Unit.

Leave passes will be inspected in all cases and if a man is AWL this will be clearly marked on the Sick report together with the time and date of reporting to the AMO.

If the soldier is unfit to travel he will be admitted to a Military hospital, if possible, otherwise to a civil Hospital and the DDMS Vic L of C Area will be notified.

In all cases, a sick report will be completed and the man will be given a copy for submission to the C.O. If the man is incapable of informing his C.O. of his inability to return to camp on expiry of leave, the AMO will furnish a copy of completed Sick reports to the Area Officer for transmission to the C.O. of the Unit.

101 AUST. MOTOR REGT.

REPORT OF SIGNAL EXERCISE - 26 - 27 - 28 AUGUST 42.

29th. August 1942.

On arrival at Control Headquarters, Cranbourne 166965, detachments were moved out to the following positions,(assuming the enemy to be in the Area between 10, & 22, by 85 moving N.W. by N.) FEZU 145936, VEJU 173934, ZEMO 188946.

Contact quickly established, Messages in Cypher were passed on W/T. Acting on the text on Messages received, Control, PIZO moved outstations by stages to the following positions for the night. Control, PIZO 173934, ZEMO 210870, VEJU 107894, FEZU 130903. Contact re-established speedily and continuous watch was maintained through the night. Night Patrol activities were reported, but owing to atmospheric conditions and fading, difficult communication conditions were experienced between the hours of 2300 hours 27 Aug. and 0200 hours 28 Aug. It has been noticed on previous exercises that this difficult period, which invariably exists during the hours of darkness, varies in summer and winter. In spite of conditions, messages succeeded in getting through and at no time did communication break down.

Throughout the afternoon of the 28th. Aug. varying conditions were encountered by outstations, such as densely wooded country, hilly regions, electrical storms etc. but repeats were very rarely necessary.

At noon, outstations were ordered to new positions, ZEMO 188855 taking over control , VEJU 098872, FEZU 149880 while PIZO moved down to Western Port in order to test communications over a greater distance with the No. II set.

Using a twelve foot Vertical Aerial from a concealed position contact was established with ZEMO who reported Signal R. 7. In return ZEMO, using a IOI set with Windom Aerial, was heard by PIZO R.5.

This result was quite satisfactory for an initial test and we are looking forward to some really performances from these Sets.

PIZO then moved back to CRANBOURNE 107894 and resumed control, and after a brief exchange of Messages, control moved to 158960 where contact was established for the remainder of the exercise.

During the movements of our stations two serviceable roads were discovered which are not on the Map. One begins at a point on Humphries Road at approx. 155914 and winds through the hilly country to approx. 155892. The other branches from Humphries Road approx.155914 in the opposite direction to 174906 approx. Both roads could be classed B. 2.

A feature of the exercise was the marked improvement shown at the conclusion of the exercise in the speeding up of both the cyphering and transmitting of messages, the time taken to encypher, transmit, receive and decypher; being quite short as the attached samples show. On the other hand there were a few occasions when a considerable time lag was apparent, but these were in the minority. Any remaining difficulties will boubtless be ironed out in future exercises.

To quote a few examples at random, as all Messages have not been classified at time of writing.

To PIZO from FEZU - 18 Groups.
Time of Origin 1107. T.H.I. 1108. T.O.R. 1115. In Clear 1120. Total 13 mins.

To PIZO from FEZU - 23 Groups.
T.O.O. 1400. T.H.I. 1402. T.O.R. 1420. Decyphered 1440. Total 20 mins.

To PIZO from FEZU - 22 Groups.
T.O.O. 2020. T.H.I. 2021. T.O.R. 2031. Decyphered 2035. Total 15 mins.

To PIXO from VEJU - 23 Groups.
T.O.O. 0610. T.H.I. 0615. T.O.R. 0628. Decyphered 0636. Total 26 mins.

Others ranged from twenty groups in eleven minutes down to eleven groups in one hour. The latter delay being caused by repeats.

To sum up, the exercise showed the work to be of a good standard and definitely beneficial in the matter of speeding up the passing off messages in cypher; using W/T.

The exercise terminated at 1530 hours on 28th. Aug. and after a discussion at the R.V. the convoy moved back to Camp; arriving at 1715 hours.

356 CANVAS-CANOPY, FRAMES AND COVERS FOR MT VEHICLES
Extract Second Aust Army Routine orders Nos 146-154.

1. Canvas is in extremely short supply. Many examples of unnecessary damage have occurred during the past weeks and every precaution will be taken to preserve and care for existing equipment. This damage in the main is being caused by
   (a) Neglect in preservation and general ill-treatment.
   (b) Impact with trees and branches due to carelessness.
2. Carelessness means wastage of workshop labour and equipment.
3. Unit Commanders will ensure that every measure is taken to conserve these stores and prevent careless damage and waste of equipment which is very difficult to replace.

358 SALUTING Extract ORO's dated 17 July 1942

1. Action is being taken to amend AMR & O 1165 by omitting sub-regulation (i) and inserting in its stead the following sub-regulation:-
(i) in a crowded thoroughfare or assembly or,
(ii) during an exercise in the field; or
(iii) when on parade under the immediate control of a superior; or
(iv) when precluded by the nature of their duties from so doing".
This amendment will be anticipated and effect given thereto forthwith. All ranks will be instracted accordingly.
2. Inview of the number of Officers who have been recently commissioned care is to be taken to ensure that theyfully understand the implications of the provisions concerning saluting.
All officers are to salute their seniors before addressing them on duty or on parade. When not on duty or parade Officers under Field rank are to salute all officers of field rank and upwards. General Officers and Field Officers are to salute their superiors in rank.
