TRAINING INSTRUCTION No. 3

The drill set forth herein will be carried out by all tank attack personnel of 101 Aust Mot Regt until further orders.

The orders will be read in conjunction with those laid down for use with carriers (Scout Troop) generally and for Tk.A guns 2 pr wheeled carriage and will not be construed as nullifying any of the instructions in the text books governing the handling or maintenance of either the weapon or the carrier.

DRILL FOR CARRIERS 2 Pr TANK ATTACK.

PRELIMINARY NOTES.

1. The telescope will be mounted in its bracket in the gun.
2. All covers will be in position and laced.
3. The gun barrel will be clamped in the 12 O'clock position.
4. Platform extentions will be in the extended position.

"CREWS FRONT".

On the command "Crews Front" each crew will form up at the double in the following order:

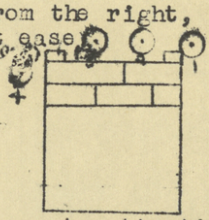
CREW COMD. One pace right front of the off side mudguard of the carrier.

Dr Op. One pace left of the Crew Comd.

Dr MECH. One pace left of the Dr Op.

GUN No. One pace left of the Dr Mech.

When each crew has taken up its dressing from the right, taking the time from the Crew Comd, all will stand at ease.



Each crew will number, for drill purposes, from right to left.

"START UP."

On the command "Start Up" Nos 1 & 3 will come to attention and turn about. No 3 will mount over the front of the carrier, take his seat, start the engine, and check instruments. He will then indicate "all correct" to No 1 by extending his arm forward over the front of the carrier. On receipt of this signal, No 1 will turn about and indicate to his next senior comd by raising his right arm externally.

"MOUNT."

On the comd "Mount" Nos 1,2,4 come to attention. Nos 1 & 2 will turn to the right and double to the off side of the carrier. No 4 turns to the left and doubles to the near side of the carrier. All mount, raise their seats and sit in the order 1,2,4 from right to left. (diagram).

When No 1 is satisfied that the carrier is ready to move, he will indicate to his next senior comd by extending his right arm over the side of the carrier.

198. PRE-SELECTION OF OFFICERS. In order to ensure the exploitation of the best material available to provide officers for the Australian Military Forces, the establishment of Officer Pre-Selection Boards has been approved to conduct psychological and other tests of personnel recommended or desirious of appointment to commissioned rank.

As it is a fundamental principle of the scheme that every soldier who considers himself suitable for commissioned rank shall be interviewed by the Selection Board, steps will be taken to ensure that all other ranks know of this privilege, and that applications may be submitted to C.O's and O.C's unit accordingly. Seven days before the sitting of the Board in any Divisional Area, each unit within that formation will include in its Routine Orders a statement of the objects of the Board.

199. DAMAGE TO PRIVATE PROPERTY. The attention of all ranks is drawn to the necessity for minimising damage to private property. It is the duty of all ranks to see that all damage done is reported and repaired immediately, where possible. Liaison between units and property owners is essential. All fences must be held strained when cutting and suitable gateways made. The attention of all ranks is directed to Div R/O Q58/43 Ser 5.

200. PACK TRAIN - FEEDING POINTS. The following meal arrangements are in operation -

(1) CLAREMONT to GERLADTON - Breakfast and cut lunch provided at MINGINEW.
(2) GERALDTON to CLAREMONT - Breakfast and cut lunch provided at WATHEROO. Cup of tea at GINGIN.

201. CLOTHES RATIONING FOR THE ARMY 1943 - 44. The Rationing Commission have advised that acceptance of current issue will be allowed up to 31/7/43.

203. BLANKETS. Sqn Ldrs will ensure that all personnel have been issued three blankets, and advise R Q by 1800 hrs 4 May '43, numbers of blankets on issue to personnel and number held in Q Store.

---

204. RUBBER SHORTAGE. Severe shortages of rubber used in washers, and of die-cast metal used in bungs, make it essential that these items be conserved. Sqns using drums will replace bungs and washers and tighten them with a bung spanner. Care will then be taken not to damage bungs by using a hammer or any other unauthorized method of opening.

---

205. MOBILE COOKERS. Inspection of kitchens where the above cookers are in use shows that insufficien t attention is given to the steam boiler, with the result that damage is being caused to the unit, and its efficiency considerably impaired. The attention of all cooks is directed to the following :-

(a) The cookers are designed to operate at pressures in excess of 50 lb. Operation under this pressure will result in permanent damage.

(b) The water now in use requires extra care on the part of the boiler-man. The water in the boiler should be checked frequently and the boiler "blown down" at least three times a day.

(c) The ground under the cooker quickly becomes fouled. The cooker must must be moved a few feet daily and the fouled ground raked over.

---

206. VEGETABLES. The prevalent practice of boiling the majority of vegetables must cease. Root vegetables should be baked or steamed where possible. Greens should be lightly steamed. A 12 gal steamer was specially included in Fowler stove equipt for the cooking of vegetables. The use of it for any other purpose when it is ... the only means of steaming vegetables, will not be permitted.

---

207. CARE OF BOOTS. Boots A/B and boots H/H are being worn out unnecessarily by the two pairs being worn by each soldier on alternate days. The result frequently is that boots are condemned owing to the reserve pair being repaired when the second pair also requires attention.
Now boots will be worn until they are broken in and then action will be taken to ensure that one pair only is worn continuously and that the other pair is kept in reserve and only to be worn when the first pair are wet or otherwise unserviceable.

---

208. EMPTY BOTTLES. Unless the practice of throwing empty bottles about the camp ceases forthwith, it will become necessary for personnel to consume their drinks at the canteen.

217. COMMENDABLE CONDUCT. The GOC has directed that the commendable conduct of NX79863 Cpl WAHLSTROM H.H.J., in connection with a fire which occurred in a vehicle, be published. Para 5 of a report of the C of I is quoted hereunder :

"The fire squad functioned efficiently - using water, sand and wet bags, and chemical extinguishers on the blaze. Efforts were also made to unload and save the contents of the truck. Commendable example being shown by NX79863 Cpl WALSTROM H.H.J., who at the height of the blaze unloaded several boxes of ammunition. The action taken in unloading the truck undoubtly saved some of the contents and the vehicle from more extensive damage."

218. PMF AND CMF ENLISTMENT IN AIF. On 6 Apr '43 the War Cabinet approved of lowering the age limit for voluntary enlistment of males in the AIF to 18 yrs, subject to the existing conditions for enlistment in the AIF. The employment of all members of the AIF under the age of 20 yrs is to be subject to the same restrictions as are now applicable to Universal Service Personnel under the age of 20 yrs (vide GRO A492/42). It is stressed that the written consent of parents is necessary in all cases of enlistment in AIF of volunteers under 21 yrs of age.

219. DISC, IDENTITY AND BLOOD GROUPING. Further to Div RO A235/43, a recent check showed that 25% of the patients passing through a Medical Inspection Centre were either not in possession of identity discs or were wearing discs on which the blood grouping had not been recorded.

---

220. TEA AND SUGAR RATION COUPONS. Numerous instances have been reported of pers on leave, making application, in writing or personally, to the Deputy Director of Rationing, for sugar and tea ration coupons. This practice is quite irregular and must cease forthwith. Prior to proceeding on leave, with or without pay, pers will receive from their Unit Issuing Offr, their entitlement of tea and sugar ration coupons. It is the responsibility of Unit Comds to ensure that a sufficient reserve of coupons is held to meet requirements.

---

221. ANIMALS - KILLING OF FOR CONSUMPTION. It is essential that all meat for consumption by the Army should be obtained through authorized channels therefore :-

(a) No live bird or animal shall be permitted in unit lines.
(b) No animal, intended for consumption, shall be killed anywhere other than at a Slaughter House which in all respects complies with the Health Laws applicable to the locality of this Division at the time.
(c) No animal or part of an animal which has been killed contrary to this order shall be consumed.

240. VEHICLE CANOPIES. Damage is frequently caused to canvas canopies due to the failure on the part of drivers to securely lash down or roll canopies on vehicles. The repair of canopies takes a considerable time and material in in short supply, consequently all drivers will ensure that all canvas covers used on vehicles are carefully lashed. Disciplinary action will be taken against all offenders.

241. BREAKING DOWN OF SERVICE OR ENEMY AMMUNITION. The breaking down of service or enemy ammunition in any other way than that authorised by army publications, hand books, regulations in existence or instructions issued from LHQ, is strictly forbidden.
The breaking down of any service or enemy ammunition by unauthorised persons is prohibited.
If information is required on the internal construction of any type of service ammunition, reference to be made to inspecting Ordance Officer posted to HQ of Corps H of C, is strictly forbidden.
Enemy ammunition will normally be broken down or demolished by R&D units (preferably bomb disposal units) under instructions from formation HQ.

242. IGNITER SETS - GRENADES No36m - SUSCEPTIBILITY TO MOISTURE. The RE cartridge cap, as used in the igniter sets for grenades No 36m, is highly susceptible to moisture.
Personnel handling igniter set containers will observe strictly the following procedure :-
(a) Igniter sets are always issued in soldered cylinders. Should a cylinder be opened and the whole of the contents not expended, the cylinder will be resealed by effective adhesive tape or shellac binding.
(b) Detonators which show visible signs of corrosion or verdigris on the caps will be treated as suspect, as these are liable to produce blinds. Units will refer such detonators to an inspecting Ordance Officer for determination of condition. Sqns will keep the number of "ready use" grenades to a minimum, consistent with operational needs, and in tropical areas this number will not exceed four days requirements in advance.

AMR & O 905 :-"Before men are dismissed from any parade for which ball ammunition has been issued, an offr will ascertain that nine remains in their rifles, magazines, pouches or bandoliers. They will also be reminded on such occasions that they are not allowed to have any ball amn in their possession. After firing the ball amn a certificate will be rendered to the effect that all unexpended rounds of ball amn have been collected or otherwise accounted for.
Drill cartridges will not be carried on any parade during which ball or blank amn is used."

246. VARIATION OF STANDING ORDERS FOR DRIVERS OF MECH VEHS. (a) Where an offr instructs the Dr of any veh to exceed the authorized speed limits or to infringe any other order or instn, the offr so concerned will sign endorse the Dr's G2 and will sign same as accepting full responsibility.
(b) No offr shall authorize such infringements except on urgent official grounds : such grounds shall be clearly endorsed on on G2.
(c) This instn will not be taken to idemnify either the offr or the Dr from any civil action which may be taken for infringement of the civil code.

247. DISCIPLINE OF TPS TRAVELLING IN MT. The present standard of discipline of tps travelling in MT leaves much to be desired. Sqn Ldrs will ensure that immediate steps are taken to improve the standard. The following points are given as a guide.:-
(a) When tps are moved by MT an Offr, an NCO or the senior soldier will be put in charge of each vehicle. This Offr, NCO or senior soldier will be responsible to the senr Offr or NCO moving with the vehicles.
(b) Tps will NOT stand up in any veh whilst it is motion.
(c) Tps will sit only in the authorized places and in the manner laid down.
(d) Articles of clothing wil NOT be removed unless under instn of the OC detachment and then only when uniformity of dress ensures.
(f) Tps will NOT shout unnecessarily and will NOT behave in an unsoldierly or disorderly manner.

250. TRAIN DISCIPLINE. Several instances have been reported during the weeks of personnel whilst travelling on the various Railway Systems riding on the steps or vehicles and stepping from one vehicle to another whilst the train is in motion. Accidents have occurred, some with fatal results. Attention is therefore [illegible] drawn to all ranks to the following:-

The O C of the train is responsible for the discipline of troops travelling and security of unit equipment and other service stores conveyed on the train. He will ensure that the Regulations of the Railway Systems are strictly observed by troops. He will not however, interfere with the prescribed running of the train or the working of the Railway Service. At stations where an RTO is located, O C train will make any requests to the Railway authorities through that Officer, who is the channel of communication between the troops and the Railway Operating Staff. Before leaving the entraining station O C train will warn troops against :-

(a) Boarding or leaving trains in motion.
(b) Leaning out of windows and doors, or protruding any portion of the body from the train as to [illegible] be in danger of being struck by side or overhead structures.
(c) Throwing anything out of the train.
(d) Interfering with or causing damage to railway property (windows, doors, break-gear etc.)
(e) Chalk markings of rolling stock.
(f) Discharging firearms, except pursuant to orders.
(g) Carrying or consuming liquor on the train, unless supplied as part of a normal service available in a dining car.
(h) Occupying any portion of the train other than that set aside for their accommodation.

269. SPECIAL ORDER BY GENERAL SIR THOMAS BLAMEY

LHQ
April 1943

It is the primary duty of every member of the Australian Military Forces to ensure that there is no avoidable waste in the use of material provided by the Australian Government for the Armed forces.

Severe demands are, of urgent necessity , being made by the Government upon the financial resources of the nation, by both taxation and loan. The people who provide that money are entitled to be fully assured that, so far as the Australian Military Forcesare concerned, it is used with the greatest possible economy commensurate with the prosecution of the War to ultimate victory.

This economy involves the most careful examination of every item of expenditure and meticulous care in the employment of available man power.

Any idea which may exist that unlimited funds are available for any project that will contribute toward victory. None are available for unwarranted extravagance.

Care must be exercised in the expenditure of small accounts as well as of the large outlays inseparable from national defence and the preparation of an offensive campaign.

Man-power must be conserved most carefully. Men should not be employed on duties for which women are suitable, if women can be made available for such duties. Two men must not be employed on any duty which man be fulfilled by one. There is no 'over-time' in the A.M.F.. Officers and other ranks in non operational areas must be prepared to complete a task efficiently when circumstances demand it, as much as if the presence of the enemy forces it upon them in the Field of active operations.

A particular responsibility devolves upon all officers to ensure that facilities provided for War purposes are not diverted to the personal comfort and convenience of individuals.

Many inconveniences have been imposed upon the nation in order that resources shall be available to provide the fighting forces with the men, material and munitions necessary to prosecute the War, not to enable members of the Services to enjoy non-essential facilities denied to the Civilian.

All members of the AMF must be ready, if the necessity arises, to adopt the spartan conditions of existence which circumstances have enforced upon the fighting soldier in the areas of actual Battle.

It is the special and immediate duty of every officer and soldier to take whatever action is within his authority to prevent wasteful diversion of national resources, to avoid any extravagance in the expenditure of public funds and to establish the Australian Army as a national model in Wartime economy as well as in the already proven qualities of service and sacrifice.

THIS ORDER WILL BE READ TO ALL RANKS. Sgd T.A.BLAMEY. General.

286. VEHICLE CANOPIES.

Damage is frequently caused to canvas canopies due to the failure on the part of drivers to securely lash down or roll canopies on vehicles. The repair of canopies takes a considerable time and material is in short supply, consequently all drivers will ensure that all canvas covers used on vehicles are carefully lashed.

Disciplinary action will be taken against all offenders.

297. GRAVEL. Gravel will NOT be drawn by units of this Formation from Gravel Pits at N50/5 336383. Where pits are not being worked under the supervision of or by RAE, indiscriminate removal of gravel has been taking place. This has had the effect of reducing the recoverable quantity from a pit and rendering thepit unsafe for working as well as unsafe to approach. No gravel will be removed from pits NOT being controlled by RAE unless unit ensures party is in charge of an NCO experienced in the working of gravel pits.

298. REFUSE. The practice of dumping refuse including old tins on local rubbish tip will cease. All refuse will be treated and disposed of in unit areas. Particular attention will be paid to complete destruction of all old tins after burning, to ensure that they will not hold any water as such water is a potential mosquito breeding area.

298. ENGINEERING CADETSHIPS. The provision of engineering cadetships (both Civil Engineering and Electrical and Mechanical Engineering) for a limited number of cadets, who may be drawn either from serving personnel or from civilian sources, is under consideration.
Although the scheme has not yet been finally settled or approved, applications are invited forthwith on the following basis :-

(a) Cadets will be selected only from candidates between the ages of 17 and 20 yrs, who are medically class A1, who are or become members of the AIF, and who have reached Leaving Certificate standard in English, Maths and Science or have equivalent qualifications. Parential consent to join the AIF will be required in respect of any cadet who is not a member of the AIF.

(b) Cadets selected from civilian sources will be enlisted in the AIF and all Cadets will, during their cadetships, remain serving soldiers on the rank of Pte or Spr, with pay and allowances accordingly. Text books will be provided by cadets at their own expense.

(c) Engineering Cadetships will cover a course of military tng, courses at approved educational establishments and a final course at an OCTU, over a period of approx 3 yrs. Successful cadets will receive commissions subject to existing vacancies. Pending appointment to commissioned rank, such cadets will be allotted to RAE or AEME units in the ranks.

(d) Cadetships as such will terminate on the cessation of the war, but it is hoped to make arrangements for the completion of the courses which have been commenced, as part of the a Repatriation scheme of vocational tng.

(e) Cadets who prove unsatisfactory or who become medically unfit or who are unsuccessful may have their cadetships terminated and returned to normal army service.

Applications will be made by serving personnel to their COs who will forward all applications direct to LHQ (E in C) to reach LHQ not later than 6 July '43. This is essential to allow sufficient time for selection as first course is expected to commence in September '43.
COs will, with each application furnish a report ~~on~~ on the candidate as to his character, ability and suitability.

---

299. LEAKAGE OF MILITARY INFM IN PROCEEDING BEFORE CIVIL COURTS. When giving evidence in a civil court, a soldier will merely give his number, rank and name, and state that he is a member of the AMF without mentioning his unit.

In no circumstances will a soldier divulge in open court the location of his unit unless the bench rules that a full answer is essential to the case, in which event he will write it on a slip of paper to be handed to the bench.

The danger to security in disclosing the location of units cannot be too strongly impressed on all ranks.

526. PRIVATE PROPERTY - TRACKS. Landowners have complained that some units in occupation of areas and in passing through areas are making unnecessary tracks; in many cases across the middle of t[illegible] paddocks. Not only is this bad track discipline but it is also causing unnecessary physical damage to property.
Erosion is very easily started in this district as a result of tracks. Units will immediately review existing tracks and all unnecessary tracks be closed. Owners concerned will be contacted with a view of ploughing or otherwise dealing with such tracks to their satisfaction. Units will ensure that all tracks are around outskirts of paddocks wherever possible including cases where units are only passing through paddocks.
Claims Officers will furnish DAQMG with a report at July Claims Offrs conference. The above is NOT intended to restrict necessary deployment in training. (Div RO Q349/1943)

---

527. TRACKS WITHIN CAMP AREA. Action will be taken immediately by All Sqns to ensure that only existing tracks are used for vehicular traffice within the camp area. Drivers of MT will be notified to this effect and action taken to see that this order is carried out.

---

528. RIFLES - "LOST" AND "FOUND". A considerable number of rifles are from time to time reported as being either "lost" or "found".
These report necessitate Courts of Inquiry which involves expense and loss of time. Many of those weapons however are later discovered in other areas, having been transferred with personnel. In order to obviate this, HQ of Formations, WA L of C Area and 3 Aust Corps units, will, as from 30 May '43, and on the 30th day of each month thereafter, prepare a list of the numbers of rifles lost or found in their area and forward a copy of same to HQ 3 Aust Corps. (Div RO Q350/1943)

---

529. TRANSFERS TO RAAF. LHQ has directed that no further transfers to RAAF will be permitted from pers serving in 3 Aust Corps.
All RAAF call-up notices will be cancelled.
Soldiers at present at GDD Claremont awaiting discharge and transfer to RAAF will be returned to their units.

332. SAVINGS BANKS PASSBOOKS. The inclusion in Savings Banks Passbooks of unit names as part of depositor's addresses may reveal movements of units, because the places at which the accounts have been operated are inscribed in such passbooks.
In the interests of security, the following action, which the Commonwealth and State Savings Banks have expressed their concurrence, will be taken :- Unit names will be effectively deleted from all passbooks already in the possession of or which may later come into the possession of , officers and other ranks. The deletions will be made in a manner which will not mutilate the passbooks unnecessarily.(GRO G408/43)

333. ECONOMY IN MANPOWER, MATERIAL AND MONEY. The attention of all ranks is directed to the following Special Order issued by the C in C, AMF :-

"It is the primary duty of every member of the AMF to ensure that there is no avoidable waste in the use of the material provided by the Australian Government for the armed forces.
Severe demands are, of urgent necessity, being made by the Govt upon the financial resources of the nation by both taxation and loan. The people who provide that money are entitled to be fully assured that so far as the AMF are concerned, it is used with the greatest possible economy commensurate with the prosecution of the war to ultimate victory.
This economy involves the most careful examination of every item of expenditure and and meticulous care in the employment of available manpower.
Any idea which may exist that unlimited funds are available for any and every purpose must be rigorously suppressed. Funds are available for any project that will contribute toward victory. None are available for unwarranted extravagance.
Care must be exercised in the expenditure of small accounts as well as for the large outlays inseparable from national defence and the preparation of an offensive campaign.
Manpower must be conserved most carefully. Men should not be employed on duties for which women are suitable, if women can be made available for such duties. Two men must not be employed on any duty which can be fullfilled by one. There is no "overtime" in the AMF. Offrs and other ranks in non-operational areas must be prepared to complete a task efficiently when circumstances demand it, as much as if the presence of the enemy forces it upon them in the field of active operations.
A particular responsibility devolves upon all offrs to ensure that facilities provided for war purposes are not diverted to the personal comfort and convenience of individuals.
Many inconveniences have been imposed upon the nation in order that resources shall be available to provide the fighting services with the men , material and munitions necessary to prosecute the war, not to enable members of the services to enjoy non-essential facilities denied to the civilian.

AUSTRALIAN WAR MEMORIAL AWM2020.71.696

All members of the AMF must be ready , if the necessity arises, to adopt the spartan conditions of existence which circumstances have enforced upon the fighting soldier in the areas of actual battle.
It is the special and immediate duty of every offr and sildier to take what ever action is within his authority to prevent wasteful diversion of nation resources, to avoid any extravagance in the expenditure of public funds, and to establish the Australian Army as a national model in wartime economy as well as in the already proven qualities of service and sacrifice.
