IRREGULAR COMMUNICATIONS BY MEMBERS OF THE FORCES.

Attention is again directed to the corr ect channel of communication to be used by members of the Forces in corresponding with Higher Authority. An increasing number of instances has recently been brought to notice in which personnel have made applications for transfers, leave, etc, other than through their C.O.

This matter has been brought before the notice of unit commds on numerous occasions with instructions that the relatave orders are to be read to all troops.

The proper procedure is clearly laid down in A.M.R. & O. 307 (I) which w as promulgated in Unit Routine Orders 11 7/42.

Communications of this nature made other than through COs are a breach of discipline and will cease forthwith. Any such irregular correspondence will not be given consideration, but will be dealt with as provided for in the above quoted B.R.O.

Disciplinary action will be taken against officers and other ranks for breaches of A.M.R. & O. 307 (I), and it is pointed out that the only effect of such breache s is to jeopardise any claims the applicant may have had for sympathetic consideration of his request.

This order will be repeated to all ranks on unit parades at least once each fortnight.

IGNITER SETS - GRENADES No. 3 6M. - SUSCEPTIBILITY TO MOISTURE. GRO. G342.

1. The .22 R.F. cartridge cap, as used in the igniter sets for grenades No. 36M, is highly susceptible to moisture.

2. Personnel handling igniter set containers will observe strictly the following procedure :-

(a) Igniter sets are always issued in soldered cylinders. Should a cylinder be opened and the whole of the contents not expended, the cylinder will be resealed by effective adhesive tape or shellac binding.

(b) Detonators which show visible signs of corrosion or verdigris on the caps will be treated as suspect, as these are liable to produce blinds. Units will refer such detonators to an inspecting officer for determination of condition.

3. Units will keep the number of "ready use" grenades to a minimum, consistent with operational needs, and in tropical areas this number will not exceed four days requirements in advance.

A.R.O.277. ENDORSEMENTS ON TELEGRAMS - CR 113/2/77

There appears to be a misunderstanding as to the endorsement to be placed on the back of telegrams by members of the Services in order to obtain reduced charges.

SA circular No 124 issued by the PMG Dept provides that for security reasons reference to the sender's unit on the endorsement, formerly required on such messages, should be omitted. The instructions to post offices have been amended to read -

(a) Telegrams may be lodged at any telegraph counter by a member of the Forces, provided he is in uniform and attends personally to lodge the message;
(b) An endorsement of the sender's name, number and rank must be made on the telegram form (not necessarily for transmission) for audit reasons.
