JACQUINOT BAY	1 Feb 45.		The activities of the Coy since arrival at JACQUINOT BAY have been confined mainly to the provision of various working parties to the DID, barge points (unloading or loading parties), and for ~~building up the camp area.~~ Transport of supplies and personnel is carried out by an AMERICAN BARGE COY attached to the Division, and roads which have been constructed by the Engineers cannot be made full use of until bridges have been built to connect them up. It is estimated that it will require several weeks before the bridges are completed, and the roads are open for MT use on any scale. ~~'C' TPT PL, 158 AUST GEN TPT COY (AIF) is under command of this HQ.~~ 1 3-ton Truck GS reported to ~~5 AUST DIV RECEPTION CAMP~~ for duty. A working party of 3 ORs reported to BONDI beach-head, and a further party was provided for cutting and loading bush timber as required per HQ COMD 5 AUST DIV ASC instruction. A further 8 ORs reported for duty to HQ COMD ASC.	
"	~~2 Feb 45~~		~~On instructions from HQ COMD 5 AUST DIV ASC, arrangements were made to detach 4 trucks 3-ton GS and certain Wkshops personnel to 6 AUST INF BDE at KIEP (WIDE BAY AREA). This is the most~~ forward area in which Divisional troops are operating on this side of the island. The instruction also authorised detachment of 4 trucks 3-ton GS from this Coy to 1 AUST SUP DEP PL, at DID BONDI. One truck 3-ton GS reported to 5 AUST RECEPTION CAMP for duty.	from Pl under comd
"	3 Feb 45		Detachments referred to on 2 Feb were effected. A quantity of ~~sporting equipment was received from Amenities.~~	
"	4 Feb 45		One truck 3-ton GS reported to MISSION DID. This will be a daily duty. One NCO and 10 ORs were detailed for a working party on the barge. Detachments of personnel were made as follows:- 1 AUST SUP DEP PL: 5 ORs 52 AUST TPT PL (AIF): 3 ORs

JACQUINOT BAY	5 Feb 45.		A high percentage of personnel continue to report for treatment at the R.A.P. Percentage is now 45%, and the big majority of cases are skin complaints of various types.	
			Weather remains fine except for occasional light showers of short duration. As a result of comparatively dry spell, there ~~are indications of a shortage of water, and some Divisional~~ Water Points have already been closed.	
"	6 Feb 45		Owing to water shortage, Water Points have been placed under Provost control. The following working parties were supplied by the Coy.	
			10 ORs reported to Lieut. NICHOLAS at ASC HQ.	
			~~6 ORs reported to DID MISSION to unload barges.~~	
"	7 Feb 45		A working party of 1 NCO and 10 ORs reported to ASC HQ for duty. ~~Apart from detachments of vehicles, MT activity remains very restricted. Engineers anticipate opening the bridge linking this area with JACQUINOT BAY BASE area by 11 Feb.~~ This will extend scope of MT tpt.	
"	8 Feb 45		Working party of 1 Sgt and 15 ORs reported to HQ ASC as a P.O.L maintenance party.	
"	9 Feb 45	0345	~~Air raid RED Alert notified. Aircraft heard in distance but~~ no A.A. activity or positive identification received to date.

31. CORRECT CHANNEL OF COMPLAINTS AND COMMUNICATIONS ON SERVICE MATTERS.

1. The use of the correct channels of complaints, as prescribed by AMF & C, is to member's advantage, as those channels ensure that complaints are investigated, and are referred to the authority who has power to grant any necessary redress, by the most direct means. Complaints through other than the prescribed channels, on the other hand, start at the "wrong end" of the correct channel, so that they have to be referred down to units for investigation and then back to the appropriate authority for consideration as to whether any remedial action on the complaint is necessary. The result is that, in addition to the use of incorrect channels being prejudicial to discipline, a member using these channels causes unnecessary correspondence and delay in the consideration of complaint.

2. COs will ensure that the provisions of AMF & C 289, together with the advantage of using the correct channel of complaints thereby prescribed, are explained to the members of all units on parade at frequent intervals. The attention of members will be drawn at the same time to the provisions of AMF & C 293 and 307 (1) and they will be warned that any member failing to to observe these provisions will be liable to disciplinary action.

3. Any communications on service made by a member through channels other than those prescribed and received at a HQ will be forwarded to the member's unit for appropriate action by the CO.

4. GRO A.108/1942 is cancelled.

32. TRANSPORT OF NATIVES:

1. Natives will NOT be transported in MT unless such transport is officially arranged by representative of ANGAU or unless the natives are being transported to and from native labour camps by th unit to which native labour has been allotted.

2. The practice of giving "lifts" is prohibited. In no cases will natives be permitted to ride in the front seat of vehicles.

17. MAIL CLEARANCE:

1. Full advantage is not being taken of daily mail clearances. The practice of leaving mail until the last clearance throws unnecessarily heavy work on the Postal Services.

2. The time of departure of the FLYING BOAT is most uncertain at present and mail posted for the last clearance may be shut out.

18. DIVING INTO SHALLOW WATER:

Serious injuries have occurred recently from personnel diving into shallow water. Troops are warned against this practice.

19. OUT OF BOUNDS - US BARGE COY CAMP:

The camp area of US Coy B 594 EB & S Regt at JACQUINOT BAY is out of bounds to all ranks, except:-

(a) Personnel visiting the camp on duty;
(b) Personnel who desire to attend the screening of pictures in the camp. Such personnel will leave the camp area immediately upon conclusion of the screening and will NOT loiter in the camp lines;
(c) Personnel who visit the camp as guests at the specific invitation of a member of the Boat Coy.

20. CANTEEN:

An examination of Canteen Accounts reveals that some personnel have allowed their accounts to become substantial debits.
This practice is NOT necessary under present conditions and personnel should estimate their anticipated purchases before pay day and ensure that they are able to place a sufficient amount to the credit of their account to cover all purchases.
By complying with the above, personnel will lend greater purchasing power to the Canteen which in some cases will result in better stocks becoming available.

	10 Apr 45		Heavy rain began to fall at 1530 and continued throughout the night.	
	11 Apr 45		Light showers during the day. 5 3-ton vehicles from this Coy and 10 from 55 AUST TPT PL transported stores and personnel of 13 AUST INF BDE units to barges at BONDI and MISSION Beach Head, for movement to WIDE BAY. The large barge convoy began to assemble at approximately 2100 hrs and an hour later were moving out of the bay when an air raid red warning was received. An enemy plane was heard flying over JACQUINOT BAY and was engaged by ack-ack. The all clear was received at 2245 hrs.	
	12 Apr 45		Fine day. An in road to the unit area is being constructed. Owing to wet weather, the old road was badly cut up. The new road has been given corduroy foundation.	
	13 Apr 45		Fine day. 5x3-ton vehicles of this Coy and 5 similar vehicles from 55 AUST TPT PL were engaged in a troop lift for units of 6 AUST INF BDE who returned from WIDE BAY area.	
	14 Apr 45		Fine apart from light showers during the morning.

73. UNAUTHORISED SUPPLY OF ARMS, AMMUNITION OR EXPLOSIVES TO NATIVES:

1. A member will NOT supply or cause to be supplied, any arms, ammunition or explosives to a native other than a native who has been authorised in writing by an ANGAU District Officer acting on his instructions to be inpossession thereof.

2. Where a native has been so authorised, arms, ammunition or explosives will NOT be supplied to him for any purpose other than that set out in the authority.

3. Each Formation will ensure that injury to a native under that Formation's control resulting from the use of arms, ammunition or explosives is reported to the nearest ANGAU representative without delay.

74. DISCHARGE OF FIREARMS IN VICINITY OF NATIVE VILLAGES:

1. The indiscriminate use of firearms near native villages has an adverse effect on the morale of the natives and consequently on their utility to the armed services, and renders the task of native rehabilitation by ANGAU more difficult. No member will discharge a firearm near any native village except in the course of his duty.

76. WASHING OF ISSUE CLOTHING:

1. Due to the short supply of all raw materials involved, it is necessary that the maximum life be obtained from all items of clothing on issue to AMF personnel.

2. Incorrect methods of washing, exposure to strong sunlight, excessive sweating and using too much of certain soap powders, may seriously affect the dyes and weaken fibre of clothing material. Failure to remove completely all soap and perspiration by thoroughly rinsing after washing, is one of the reasons for the breakdown of fabrics.

3. Neglect to pay due attention to regular and efficient washing of garments has been responsible for many cases of dermatitis. Observance of the following instructions will assist in decreasing the incidence of all skin complaints.

4. Washing flannels and woollens -

(a) Worsted shirts, socks, woollen drawers, etc, should be washed in lukewarm water and never in boiling or hot water, as this shrinks the material. A tablespoonful of ammonia added to every two gallons of water will remove all grease and perspiration stains.
(b) Good quality yellow soap only should be used, and, after washing the garments should be well rinsed in clean, tepid water and stretched by hand before drying.

5. Washing of cottons -

(a) If cotton graments are boiled, the washing compound or soap will be added to the water prior to putting in the garments to be washed.
(b) If washing compounds, whichare generally sold in packets under well-known brands and frequently known as soap powders, are used, NOT more than one tablespoonful of the compound will be added to each gallon of water to be boiled.
(c) If ordinary soap is used, 1-oz (approx a 1-in cube) should be added to each gallon of water to be boiled.
(d) It is important that, after washing, the garments are thoroughly rinsed to remove all trace of soap.

6. It is realised that washing facilities and an adequate supply of water are not always available. Nevertheless, the hints and instructions contained in this order will be carried out whenever possible, especially in regrad to rinsing thoroughly after washing.
