495. CONSERVATION OF RUBBER - SYNTHETIC TYRES.

The critical rubber situation and the necessity for obtaining the maximum service from tyres has been stressed from time to time. The further deterioration of the situation, necessitating the introduction of tyres of synthetic construction, renders it imperative that greater care than ever be exercised in the use and maintenance of all tyres, whether of synthetic or natural rubber construction.

2. Synthetic tyres are far more susceptible to failure through abuse than tyres constructed from natural rubber. All concerned will, therefore:-

(a) exercise the utmost care to avoid -
overloading
underinflation
hard braking and fierce acceleration
high speed
bumps and other causes of severe impact.
(b) check wheel alignment frequently and correct irregularities promptly,
(c) rotate tyres regularly
(d) remove stones and flint from tyres during unit maintenance,
(e) submit tyres for replacement at the correct stages for re-capping, and
(f) submit damaged tyres for repair without delay.

3. Prompt disciplinary action will be taken where breaches of this order occured.

484. EXTRACT FROM G.R.O. A.330 15/9/44.- NEXT OF KIN.

A member of the AMF may nominate any person as his next of kin for army purposes, although that person is not his legal next of kin.
It is the function of the 2nd Echelon organisation to notify fatal and certain other casualities sustained by a member to the person recorded in army records as the member's next of kin to receive casualty advices. Failure by a member to report promptly particulars of a change of next of kin or a change of address of next of kin, in order that the appropiate 2nd Echelon component may be advised, causes considerable administrative work to the Army and may delay or prevent notification of a casualty being given to the proper person., thereby causing distress to the members relatives.
Each member will, therefore, be instructed that, on the occurrence of any event (such as his marriage or the death of his next of kin) which renders a change of the record of his next of kin desirable or necessary, he will promptly notify his unit of the change he desires to make. Similar prompt notification should be given of any change of address of his next of kin.
Each member will be advised that, on his marriage, any will or codicil previously made by him, save in exceptional circumstances, becomes of no effect and, under Australian Military Regulations, he is bound, upon marriage, to make a new will.
On marriage, a member will make another will immediately, either on an AAF A130 or by a separate document, and will submit the AAF A130 in an envelope (AAF A130), duly completed, to his u nit HQ for transmission to the appropriate 2nd Echelon component.
A member may obtain the assistance of an officer of the AALC in the preparation of a will.

483. INCLUSION OF CENSORABLE MATTER IN CORRESPONDENCE.

It is an offence against the Defence Act ,Section 73A, to communicate Naval, Military or Air Force information to,any person otherwise than in the course of official duty.

The Judge Advocate General has ruled that the submission to a franking officer or a censorship authority of a letter containing Naval, Military or Air Force information is an offence against this section.

All ranks are, therefore, forbidden to include in their correspondence information classed as censorable matter under current Field Censorship Instructions, notwithstanding that such correspondence is to be submitted to a franking officer or a censorship authority.

Where a letter submitted to a franking officer or other censorship authority contains any Naval, Military or Air Force information which isclassed as censorable matter under the then current Field Censorship Instructions the commanding officer of the soldier may, if in his opinion the case is sufficiently serious to warrant it, take steps to have the soldier charged with a breach of the Defence Act, Section 73A.

If the case is disposed of summarily, the CO may award any punishment or punishments which he could have awarded if the offence had been an offence against the AA. If the member is tried by Court-Martial, only those punishments referred to in AMR & O 349 may be awarded.

Certain restrictions concerning censorship of mail have been lifted. Unit censorship is applied only to communications from a member of the unit who is -

(a) writing to an addressee outside Australia,
(b) under order to move to an operational area.

All mail matter will still be handed in to the Orderly Room so that Unit Censorship may be applied, if required, and so that the member may obtain the Army Concession Postage Rate.

Letters addressed overseas, letters written by any member who has been warned for draft, and letters where addressee's Unit is "AUSTRALIA", will be handed in unsealed to facilitate franking, but other mail will be sealed.

It is emphasised that the removal of Unit Censorship does not release members from their obligations to observe strict security principles in their correspondence.

472. ACCIDENTS M.T. VEHICLES

The increasing number of accidents involving M.T. vehicles is causing grave concern; particularly as in the recent few weeks accidents of a serious nature have occurred.

2. It is necessary to stress on all personnel the importance and responsibility which evolves on drivers, and emphasise the fact that vehicles must not operate at speeds in excess of those laid down.

3. Investigation of accident reports prove that only a very small percentage of accidents are due to mechanical defects, and, in very few cases only, can the Army driver be exonerated from blame.

4. It is, therefore, apparent that gross carelessness on the part of drivers is the cause of many accidents.

5. Personnel must be made to realise that they are liable not only for disciplinary punishment, but also for the cost of repairs to Army vehicles as well as any civilian claim which may be lodged against the Army.

6. The chief causes of accidents are set out hereunder:-

(a) Excessive speed;
(b) Inattentive driving;
(c) Not giving right of way;
(d) Not keeping to the left;
(e) Inexperience;
(f) Intoxicated drivers.

473. CAMP SPEED LIMIT

No officer W.O., N.C.O. or other rank driving or in charge of any vehicle within the Camp Area will be permitted to proceed at a pace of more than 5 MPH. Disciplinary action will be taken against personnel failing to comply with this instruction.

"Para. 22 (a) A member will take every possible care to prevent the loss, destruction or defacement of his AAB.83. Failure to take such care will be regarded as a serious offence and punished accordingly.

"(b) Any member losing his AAB.83 will (unless the CO is satisfied that the loss was not due to any negligence on the part of the member) be charged under AA 24 (2) (or, in the case of officers, under AA 40), the fact of loss being sufficient to found a charge of "losing by neglect public property issued to him for his use" (or of "neglect to the prejudice", as the case may be) and to justify a conviction on such charge in the absence of a satisfactory explanation.

"22A. Destruction or defacement of an AAB.83 by a wilful act or by negligence or the unauthorised alteration of any information contained therein is also an offence in respect of which a charge will be laid under AA 24, AA 25 or AA 40, whichever is appropriate, the advice of a legal officer being sought if necessary.

"24. No entry will be made in an AAB.83 of the name of the unit or formation of either -

510. CONSERVATION OF RUBBER - SYNTHETIC TYRES.

The critical rubber situation and the necessity for obtaining the maximum service from tyres has been stressed from time to time. The further deterioration of the situation, necessitating the introduction of tyres of synthetic construction, renders it imperative that greater care than ever be exercised in the use and maintenance of all tyres, whether of synthetic or natural rubber construction.

2. Synthetic tyres are far more susceptible to failure through abuse than tyres constructed from natural rubber. All concerned will, therefore :-

(a) exercise the utmost care to avoid -
overloading,
underinflation,
hard braking and fierce acceleration,
high speeds,
bumps and other causes of severe impact;

(b) check wheel alignment frequently and correct irregularities promptly;

(c) rotate tyres regularly;

(d) remove stones and flint from tyres during Unit maintenance;

(e) submit tyres for replacement at the correct stages for recapping;

and (f) submit damaged tyres for repair without delay.

3. Prompt disciplinary action will be taken where breaches of this order occured.

517. UNIT CENSORSHIP.

Certain restrictions concerning censorship of mail have been lifted, Unit censorship is applied only to communications from a member of the Unit who is -

(a) writing to an addressee outside Australia,
(b) under order to move to an operational area.

All mail matter will still be handed in to the Orderly Room so that Unit Censorship may be applied, if required, and so that the member may obtain the Army Concession Postage Rate.

Letters addressed overseas, letters written by any member who has been warned for draft, and letters where addressee's Unit is "AUSTRALIA", will be handed in unsealed to facilitate franking, but other mail will be sealed.

It is emphasised that the removal of Unit censorship does not release members from their obligations to observe strict security principles in their correspondence.

526. THEFTS FROM WELFARE ESTABLISHMENTS:
Complaints have been received from Welfare Organizations that quantities of cutlery, glasses and other articles are taken without authority by personnel who frequent the refreshment, rest rooms and other facilities provided for their benifit. In addition to the expense involved, considerable difficulty is experienced by above Organisations in replacing these articles, which are almost unprocurable; and as a result of the thefts, not only is the functioning of the Welfare organisations hampered, but their continuance is threatened.
Whilst the unauthorised removal of such articles is no doubt often regarded by the personnel responsible as no more than souveniring, such can, in fact, only be described as mean theft; and it is the duty of all personnel who use welfare establishments to frown on such a practice, and to advise immediately the management of the Hostel of any cases which come to their notice, reporting the name, number, Unit and any other details of the person responsible for the theft.
