2. ENGINEERING CADETSHIPS.

(1) The provision of engineering cadetships (both Civil Engineering and Electrical and Mechanical Engineering) for a limited number of cadets, who may be drawn either from serving personnel or from civilian sources, is under consideration.

(2) Although the scheme has not yet been finally settled or approved, applications will be invited forthwith for cadetship on the following basis:-

(a) Cadets will be selected only from candidates between the ages of 17 years and 20 years, who are medically Class A1, who are or become members of the AIF, and who have reached Leaving Certificate standard in English, Mathematics and Science or have equivalent qualifications. AUSTRALIAN MILITARY FORCES.

SECURITY STANDING ORDERS.

by

Lt.Col. H.J. Brigden.

Commanding Officer.,
Supply Reserve Depot.,
STRATHFIELD. N.S.W.

10 February., 43.

SECURITY.

N.278315. Lt. J.A.W. Nelson has been appointed Security Officer of this Unit.

All Officers and O/Ranks should carefully observe the necessity of unremitting attention to safeguarding information likely to be of value to the enemy.

Attention is again drawn to the appropriate paras. published in the Unit R.O's from time to time under this heading. All ranks should make themselves fully conversant with these.

Under no circumstances must any rank discuss with anyone the contents of Army Stores under this command. Any member of this Unit who is found guilty of a breach of this instruction will be most severely disciplined.

SECURITY OF INFORMATION.

Many army personnel are making a practice of writing their numbers name of Units and in some cases, their location in visitors books of hotels, boarding houses, etc., when registering.

This practice must cease as valuable information is being conveyed by its continuance.

There is an increasing tendency for civilians to interrogate members of the Allied armed forces when the latter are on leave travelling on duty, etc.

If not checked, this practice, although generally inspired by idle curiosity may lead to the disclosure of much information of value to the enemy, and will facilitate the task of enemy spies.

All ranks will be instructed that, in addition to refusing to disclose information to civilians, they should endeavour to obtain the names and addresses of any questioners and report same to the appropriate Officer of their Unit.

Security services have undertaken to investigate immediately the bona fides of any inquisitive civilians whose names and addresses are supplied.

PRIVATE COMMUNICATIONS CONCERNING CASUALTIES.

Private cables and telegrams reporting battle or other casualties are prohibited. In letters, no reference is to be made to any such casualty until after a period of one month from the date of its occurence.

AUSTRALIAN WAR MEMORIAL AWM2022.5.2614

The prohibition and restriction imposed by para. 1. hereof are not applicable to communications sent by a member relative to a casualty sustained by himself.

This order has been dictated by motives of consideration for the feelings of relatives of members of the Forces, who in many instances have been caused unnecessary suffering and suspense through information contained in private correspondence from operational areas and which, in some cases has proved to be inaccurate.

CENSORSHIP.

Unit personnel must include their regimental number, name and unit on the right hand top corner of all letters. Failure to do this will cause a holdup in the posting and delivery of letters. All ranks will in future pay stricter attention to this matter.

TELEGRAMS.

The conditions governing the acceptance of concession rate tele grams from military personnel have, for security reasons been modified.
In future the senders unit must not appear in the endorsement on telegrams lodged by military personnel.
The Director-General of Posts and Telegraphs is instructing all his departmental officers accordingly.

TELEPHONES.

Personnel booking concession rate trunk line calls are not to disclose the names of their units. They will supply the postal official with personal number, rank and name only. The P.M.G's Department is instructing Postal Officials accordingly.
Any instance where Postal Officials demand the name of the unit of a member of the Forces who is booking a Trunk Line Telephone Call will be reported through the usual channels to H.Qs. N.S.W L of C. Area. in order that the matter may be taken up with the P.M.G's Department.

SECRECY DISCIPLINE.

The following order by the Commander-in-Chief , South West Pacific Area is republished for information and appropriate action by commanders of Formations and units.
The attention of all Officers, enlisted men and civilian employees is invited to the necessity for maintenance of secrecy discipline The efficiency of the enemy espionage and information service has been a conspicuous factor of his general military success at this time.
There is evidence of leakage to the public of information regarding the disposition and movement of military units and material, presumably the result of careless talk at social gatherings, in hot el lobbies and on public conveyances. The tendency to talk in an atmosphere of conviviality requires no further comment. Officers, enlisted men and civilian employees are forbidden to discuss any military matters in the presence or hearing of any stranger, either military or civilian. They must understand that comments regarding military subjects in an unofficial setting and to unauthorized persons indicate lack of a proper sense of official responsibility.

NATIONAL SECURITY (GENERAL REGULATIONS) PROHIBITED PLACES.

Regulation 4 of National Security Regulations -
The following places have been declared by the Minister of State

AUSTRALIAN WAR MEMORIAL AWM2022.5.2614

for War Organization of Industry, acting for and on behalf of the Minister of State for Defence, to be prohibited places for the purpose of National Security (General Regulations)
All depots for the bulk storage of liquid fuel in quantities exceeding 10,000 gallons.
All areas used for the storage of drums containing liquid fuel belonging to the Government or to any power which is allied or associated with his Majesty in any war in which his Majesty is engaged -
For the purpose of the Order declaring " liquid fuel " shall be deemed to include motor or aviation spirit, petroleum, power kerosene, lighting kerosene, mineral oil, fuel distilled from coal tar, power alcohol and any other liquid suitable for use as fuel for internal combustion engines.
C.Os and O.Cs Units controlling any of the abovementioned prohibited places will take the necessary steps immediately to have exhibited in prominent positions on the boundaries thereof, notices in the following form -

" THIS AREA IS A PROHIBITED PLACE FOR THE PURPOSE OF THE NATIONAL SECURITY (GENERAL) REGULATIONS "

NAVAL MILITARY & AIR FORCE UNIFORMS GEN. REG. 31.A.

It has been brought to notice that " competent authorities " as defined by the above regulations are issuing forms of authority under that regulations authorising persons to supply naval, military or air force uniforms -

Any " competent authority " in the Military Forces will confine such authority issued by him to the supply of military uniform and action will be taken to ensure that all forms of authority issued in the future by Military Officers are limited in their scope accordingly, and that forms already issued which refer to the uniforms of other Services are cancelled or amended to comply with the above limitation.

GUARD COMMANDERS.

The Commanders of the Guard will post sentries in accordance with the Camp Standing Orders and be responsible for the security of the Depot during his period of duty. He will be responsible that the Camp Commander is advised in the event of fire or other dangerous disturbances.

TRANSPORT.

The Transport Officer will be responsible for the issue of Standing Orders covering the security, and if necessary, the disposal of the M.T. vehicles.

SECURITY OF IN FORMATION.

The attention of all ranks should be directed to the fact that, the communication to any person otherwise than in the course of official duty, of any naval military or air force information is an offence under the Defence Act punishable by fine or imprisonment or both.
An infringement of Army Field Censorship Instructions is an act of disloyalty which may incalculably harm the allied cause. This fact will be impressed on all ranks. Rigorous steps will be taken to punish every detected offender, irrespective of rank.
An Officer is responsible if a letter, after having been franked by him, contains military information. By aiding and abetting the committing of an offence, the Officer himself commits an offence.

AUSTRALIAN WAR MEMORIAL AWM2022.5.2614

This will not however, absolve the writer of the letter from responsibility for the breach.

Penalties imposed for the breaches of security will be notified in formation etc. Part 1. Routine Orders and where practicable such notifications will be read out on parade to troops within the formation etc.
Contravention of this order if committed by an Officer will be reported to L.H.Q. so that, if necessary, the individual concerned may be called upon to show cause why his commission should not be cancelled.

20. ACCIDENTS TO MECHANICAL VEHICLES:
A number of accidents have recently occurred in which drivers of Army Vehicles have offered the explanation that they have been dazzled by the lights of oncoming vehicles.

Drivers are apparently ignorant of the law on this matter, and, accordingly, it is set out hereunder:-

"If a driver is dazzled by the lights of an approaching vehicle, his duty is to slow down to such a speed that he can stop within his lessened limits of vision. If the dazzle is such that he cannot see al all, he should stop at once. If he fails either to slow down or stop as the case may be, he is guilty of negligence. c. He will halt all strangers or unauthorised persons and take them in custody to the Sgt. of the Guard who will make the necessary arrangements for disposal, after notifying the Orderly Officer.

d. He will be responsible for the safeguarding of plant, building, and contents etc. against sabotage, fire, theft etc. and for seeing that all points of entry to the building are secure.

13. In addition to the above duties, the following extracts from GRO 682/42 set out the powers of sentries and guards and are applicable to HQ 1 Aust. S.R.D. Strathfield, White Bay, and all other Stores.

"A military sentry or guard stationed or posted at or in the vicinity of any prohibited place, protected area, controlled area or any premises used by the Commonwealth or used for defence purposes or for essential service or any vehicle, vessel or aircraft used by the Commonwealth or any enclosed wharf or picking-up place, or any merchant vessel lying in port or any road, pathway or waterway, specified in an order by the Minister which passes through or near a prohibited place or work of defence, may be armed, and may -

(I) Huse his weapons against, or otherwise attack, any person who, in disregard of a warning given by a sentry or guard, approaches, enters, leaves or passes over or in the vicinity or neighbourhood of or attempts to approach, enter leave, or pass over or in the vicinity of the neighbourhood of the place, area, premises, vehicle, vessel, aircraft, wharf, picking-up place, road, pathway, or waterway or who, after being arrested for so doing escapes and

(II) Use his weapon against or otherwise attack, any person attacking him or who is reasonably suspected of being about to attack him."

There are, however, certain principles which must guide all sentries and guards in the execution of their duty as such, and in the exercise of the right to resort to arms.

Thes principles are:-

(a) Sentries and guards will be ordered to take action required to ensure the safety of their posts or to defeat the activities of enemy or suspected enemy agents.

(b) If necessary, they will fire upon, or otherwise attack any persons threatening the safety of their posts or engaging in hostile actions.

AUSTRALIAN WAR MEMORIAL AWM2022.5.2614

(c) Before firing upon any person, the sentry or guard will, except in an urgent case of self-defence, challenge that person to "Halt". If that person does not halt, the sentry should challenge him again with "Halt or I Fire". If he does not halt and no ther means are available for stopping him - AS FOR EXAMPLE BY CALLING OUT THE REST OF THE GUARD - it is the duty of the sentry to shoot.

(d) The sentry will use his intelligence and sense of responsibility in choosing whether he will shoot or not, and he must be careful not to allow any suspected person to approach so close that he can be rushed and overpowered.

GUARDS AND MEMBERS OF THE FORCES IN CUSTODY.
The use of weapons to prevent the escape of a prisoner (other than an enemy and except as provided in para I (i) is unlawful unless -

(1) The prisoner HAS COMMITTED A FELONY AND CANNOT OTHERWISE BE RE-ARRESTED: or

(II) IT IS NECESSARY FOR SELF-DEFENCE, AND NO MORE FORCE IS USED THAN IS REASONABLE IN THE CIRCUMSTANCES.

If a prisoner resorts to violence, force may be met by force, to the extent reasonably necessary and the escort may call for help from passers-by".

14. Sentries will not load live ammunition into the magazine or chamber of the rifle unless an emergency as above arises.

15. FIRE: In the event of fire, the sentry will turn out the Guard. The Comdr. of the Guard will warn the Fire Brigade and in turn, will notify the Orderly Officer, his unit orderly room and Commandant of the District.

16. FIRE PICQUETS: Will assemble rapidly at alarm posts under senior officer or N.C.O. and will proceed to extinguish the fire prior to arrival of the Fire Brigade, vide Fire Standing Orders.
