COMD. 2 AUST MOT DIV.

SERIAL NO 17

Nos A75 - ~~80~~ 186

GENERAL STAFF

G175. UNIT GAS OFFRS AND N C Os. All units will take immediate steps to appoint Gas Offrs and N C Os in accordance with GRO 525 bases on W E strengths. Such Offrs and N C Os will have qualified as instructors at L H Q or Army Gas Schools. If no qualified personnel are available nominations of suitable Offrs and N C Os interested in gas trg will be submitted to enable trg to be provided.
A return showing No, Rank, Name, Posting on W E, Courses attended, Classification of Unit Gas Offrs and N C Os and those nominated for trg will be forwarded to reach Div H Q by 1200 hrs on 16 Nov 42.

G176. L H Q SCHOOLS - RETURN OF UNSUITABLE STUDENTS TO UNITS. C Is of Schools are authorised to return to his unit any student considered by C I to be unsuitable or unlikely to benefit by the course he has been nominated to attend.

G177. DRIVERS ROUTINE MAINTENANCE. Attention of all ranks is directed to the publication of Mechanical Vehicle Training Pamphlet No 1, copies of which are now available from Stationery Depot on the following basis of distribution:-

1 per vehicle (including Motor Cycles) on War Establishment.
PLUS 5 per cent reserve for library and Unit Courses and wastage.
20 per cent for Offrs and N C Os as per allotment by C O.

Minimum number for any unit or establishment having vehicles or motor-cycles - 5 copies.

Lt-Col.
G S 2 Aust Mot Div.

ADMINISTRATION.

A178. PROCEDURE FOR DISPOSAL OF MEDICALLY UNFIT PERSONNEL. After approval has been given for disposal of personnel vide Div R O A172 the following instruction is to be implemented:-

Personnel to be marched out to O D D CAULFIELD in possession of the following documents - A A Fs I 5033, F 200, WP 140, A 240, Pay Book, Army Ration Book. It is essential that the medical classification of the soldier be shown on A A F MCB 3 and that a statement be made to the effect that due to medical classification the member cannot be employed in the unit.

A179. MAINTENANCE OF RECORDS. Casualty returns A F W 3010 - W 3011 - W 3012 and Offence Reports S 2069 will be rendered immediately a Casualty occurs. The practice of accumulating data of Casualties in order to make a weekly return will be discontinued.

A180. WEEK END TRAIN TRAVEL. Excessive travelling at weekends by unauthorised Military Personnel has reached a stage where it is impossible for the Railways to cope with it.
2. Some parties are NOT under control of Officers or N C Os when they arrive at the Railway Station. 3 Comd R O Pt I No 9 of 16 Dec 43 lays down the correct procedure.
3. Personnel with local leave passes very often purchase tickets for travelling to Melbourne.
Soldiers have been noticed boarding trains from the fit side and members of the Provost Coy have had to accompany the train to Melbourne in an effort to detect the offenders.
Also several soldiers have been seen leaving the train between North Melbourne and Spencer Street by jumping on to the permanent way and running through the Railway Yards. It is needless to emphasise the danger of this practice.
4. In consequence of the unauthorised weekend travelling the train from Spencer Street on Sunday nights is hopelessly overcrowded. This chaos can only be prevented by close co-operation of Units with the R T O and strict compliance of Orders.
5. Figures submitted to the R T O by units, over a period of two days, were 1246 and the actual number that travelled was 1890, an excess of 644, thus it can be readily seen that units who submit regular and accurate leave returns and report to the R T O on arrival at the station, are being penalised by these uncontrolled leave parties.
6. Units will submit a Leave Return, in accordance with the pro Forma as set out hereunder, to the R T O, SEYMOUR, for weekend travel, by midday Wednesday of each week. For travel other than weekends, a similar return will be submitted at least 72 hours prior to date of travel.
7. NO ACCOMMODATION is available for troops to travel from Seymour to Melbourne on SUNDAYS.

PRO FORMA.

"Without derogating from or restricting the existing powers and rights of sentries or guards, any sentry or guard who is a Commonwealth officer, a constable or a member of the Naval, Military or Air Forces of any part of the King's dominions or of any Power allied or associated with His Majesty in any war in which His Majesty is engaged, stationed or posted at, on, in, or in the neighbourhood or vicinity of, any prohibited place, protected area, controlled area, premises, vehicle, vessel, aircraft, enclosed wharf, picking-up place, road, pathway, or waterway to which the provisions of this Part of these Regulations, apply, may be armed, and may :-

(a) use his weapons against, or otherwise attack, any person who, in disregard of a warning given by a sentry or guard, approaches, enters, leaves, or passes over or in the

2. The powers set out in the above N S Regulation do NOT apply to the apprehension or guarding of members of the Forces who are escaping from custody or detention.
3. In regard to members of the Forces escaping from custody or detention, firearms may be used only as a last resort to repel attack by a member on a sentry or guard if no other force is sufficient to stop him.
4. In all cases set out in the paragraph (3) where firing is justified, a clear warning of "Halt or I fire" must be given. This must be followed by a warning shot NOT directed at the offender. A shot directed at the offender must be designed to maim and NOT to kill unless the sentry is likely to be overwhelmed by force.
5. C Os are to instruct sentries and guards in the above matters and warn them against indiscriminate shooting, endangering civilians or other innocent persons.

(a) procures or persuades any member of the Defence Force to desert; or
(b) aids or assists any member of the Defence Force in deserting; or
(c) knowing any person to be a deserter from the Defence Force, conceals him or aids or assists him in concealing himself,

On Indictment - unlimited."

2. All members of the Forces are required to co-operate in detecting offences. Any known or suspected case of assisting or harbouring illegal absentees is to be reported to the A P M and local police.
3. Prosecutions will be instituted through the Commonwealth Crown Solicitor against employers and other civilians (including relatives of absentees) found offending against the above provisions.

To be promulgated to All ranks.

A185. COURTS MARTIAL - PUBLICATION OF RESULTS. The result of trials by Court Martial Convened and confirmed by the G O C 2 Aust Mot Div are published as Appx I to this issue of these orders.

2. A person, who with lawful authority enters, passes over, or is in the neighbourhood of any prohibited place shall comply with directions of the Officer in Charge of the prohibited place. Any person who fails to comply may be removed from the place or neighbourhood and may be proceeded against.

3. Attention is also drawn to D A 82 (3) (4) which provides, inter alia- "Any person who trespasses on any land set apart for administration or accommodation of any part of the Defence Force is liable to a penalty up to £20. In addition to the expense involved, considerable difficulty is experienced by above organisations in replacing these articles which are almost irreplaceable; and as a result of the thefts, not only is the functioning of the welfare organisations hampered, but their continuance is threatened.
Whilst the unauthorised removal of such articles is no doubt often regarded by the personnel responsible as no more than souveniring such can, in fact, only be described as theft and it is the duty of all personnel who use Welfare Establishments to frown on such a practice, and to immediately advise the Management of the hostel of any cases which come to their notice, reporting the name, number, unit and any other details of the person responsible for the theft.

As Flys are invariably rope-marked and thereby rendered prematurely unserviceable by the crossing of storm guys, this method will be avoided and guy ropes will be fastened approximately parallel to leading and trailing edges of fly.

PROMOTION

VX84334 Tpr O'Donnell P J to A/Corporal 28 Nov 42

POSTING OF MAIL AT CIVILIAN POST OFFICES

In view of the number of tps intercepted posting letters at civilian Post Offices it appears that pers are not sufficiently enlightened as to disastrous results of their action.

The following points are brought to notice of all ranks.

(a) In posting letters at a civilian Post Office the postmark gives away the unit location-Valuable information to the enemy.

(b) The soldier avoids the censorship and may inadvertantly discloses valuable infm. If censored an Officer would have erased the censorable matter.

(c) All letters censored are treated impersonally by Offers. If a member does not wish his letters to be franked by an Offr from his home town or where similar circumstances exist he may apply to hhve them franked by another Offr.

(d) Green Envelopes are available to pers for strictly private or confidential matters.

In fact, there is NO excuse for posting letters in a civilian Post Office and exemplary disciplinary action will be applied in all cases of personnel doing so.

SALUTING

Throughout the Div. Saluting is much below the required standard.

(1) NCO's, NCO & Privates Soldiers in Uniform shall salute an officer at all times except when passing or being passed by him.
(I) In a crowded thoroughfare or assembly; or
(II) During an exercise in the field; or
(III) When on parade under the immediate control of a superior; or
(IV) When precluded by the nature of their duties from doing so.

Examples of lack of consideration to marching tps by occupants of motor vehicles noted on 27 Nov 42:-

(a) A HQ staff car passed a party marching to the railway station to catch a leave train. It was travelling at approximately 25 mph on a dusty road and the troops, who were well turned out, were covered in dust.

(b) A HQ staffcar passed the same leave party on a narrow bridge at a speed of 15-20 mph. The danger of this is obvious.

All drivers must be made to study the comfort of marching troops, who should be passed at a dead slow speed.
No attempt to pass should be made on a defile such as a narrow bridge ect.

2 Aust Mot Div.

2 Dec 42.

GENERAL STAFF.

G217. USE OF ABBREVIATIONS IN CORRESPONDENCE.
(a) In documents such as letters, reports and memoranda which are not usually written under conditions of great urgency, no abbreviations will be used except those recognised for the designations of appointments, headquarters of formations and units.
(b) The list of authorised abbreviations contained in Field Service Pocket Book Pamphlet 2 (1939) are issued for use in the field and during training to assist in the rapid writing of orders and messages and to reduce the number of letters contained in words to be telegraphed.

G218. WAR DIARIES. Attention is directed to G R O G601/42 regarding the disposal of War Diaries.

Lt-Col.
G S G Aust Mot Div.

ADMINISTRATION.

A219. MAINTENANCE OF RECORDS - P M F.
1. As all personnel of the Permanent Military Forces are now included in War Establishments, the preparation of separate Part II Orders in respect of such personnel will be discontinued forthwith.
2. All relevant entries are to be promulgated in Part II Orders for the unit with which they are serving.

A220. DEPENDANTS' ALLOWANCE - OFFICERS.
An instruction received from L H Q requires that attention of all Pay Personnel, and also orderly room personnel be directed towards ensuring that, where dependants allowance is payable to dependants of newly commissioned officers, the allotments must be increased, where necessary, to Standard Rate of 5/6 per day as from date of appointment to Commissioned Rank.
It is stated that there have been many instances of failure to increase allotments of such members with consequent disturbance to dependants and overdrawal of the officer's paybooks through necessity of back-dating allotment increase.

A221. SPORTING ACTIVITIES - SHOWGROUNDS, SEYMOUR. This ground is available for Sporting Activities for units in SEYMOUR Area and may be booked for days other than Wednesdays on application to Camp Staff H Q.

A221.(Contd)
The ground has been made available to 2 Aust Mot Div for use on Wednesday afternoon of each week and the Amenities Officer 2 Aust Mot Div will allocate it for use on that day.
Units wishing to play on the Turf Wicket must give at least 4 days notice and be prepared to provide a ground party of sufficient men to prepare the wicket or outfield under the supervision of the Ground Keeper, if called upon.
In wet weather a hard wicket is available and the decision of the groundsman must be accepted as to whether play will proceed on the turf or hard wicket.

Q222. MILK CANS - DIRTY CONDITION OF - RETURNED TO D I D. Attention is drawn to the fact by the Supply Office, Site 16, Seymour, that incidents are occuring where milk cans are being returned to that depot in a very unhygienic condition. It is the responsibility of all units to return cans washed.
Supply and Transport Instruction No 486/42 provides that a report of any such incident be forwarded to S & T HQ, reporting the unit even for a first offence.
In order to avoid any such report having to come from this Area, all unit O Cs are requested to keep a strict check on all cans.

Q223. PERSONAL KIT - PATIENTS ADMITTED TO HOSPITAL.
1. Attention is again directed to S C R O 232/42.
2. This order is NOT being given effect to and in future all C Os will ensure that it is strictly complied with.

Q224. MISSING RIFLE No 89190 BAYONET, SCABBARD AND FROG - SEARCH AND REPORT. 1. A check will be made by each unit of all rifles on charge or in possession with a view to recovery of this rifle.
2. Discovery is to be reported to HQ Vic L of C Area and rifle is to be returned to C O O, 1 Aust Base Ord Depot.

Q225. FUEL - CONSERVATION OF SUPPLIES.
1. In view of the necessity of building up stocks of fuel during the summer period, C Os and Os i/c units will take the following action :-
(a) Personally check all consumption and instruct QMs to underdraw fuel whenever possible.
(b) Hold regular inspection of cooking ranges and H W Services, etc, to ensure that they are being correctly used and regularly cleaned, so that the maximum heat may be obtained from the minimum quantity of fuel.
2. Special attention will be paid to the general upkeep of cooking ranges, etc. Any defects, e g burnt out back plates, will be reported immediately and action taken to have the unserviceable parts replaced. 3 Aust C E Works will pay particular attention to all demands for repairs and replacements of this kind.

Q226. REGISTRATION AND OPERATION OF PHILANTHROPIC SOCIETIES' M T VEHICLES.
1. Approval has been given for vehiclesowned and operated by the RED CROSS SOCIETY, the SALVATION ARMY, Y M C A and AUSTRALIAN COMFORTS FUND used in connection with philanthropic activities on behalf of the troops in operational areas, battle stations and such camps as may be approved by G O Cs L of C Areas, to be issued with petrol, oil and lubricants in accordance with instructions for Supply and Transport Services.
2. In the summary hereunder of vehicles owned by philanthropic bodies those shown as on full time Army work, will be issued with petrol, oil and lubricants all times; vehicles shown as on part time Army work will be issued with petrol, oil and lubricants only on production of a written authority by Head of Service, giving details of work and mileage.
3. Petrol, oil and lubricants will be drawn by vehicles on both full and part time Army work on AAF G2 (Work Tickets); and necessary AAF G5 and AAF G6 will be kept.

Q226.(Contd)

4. In addition to the abovementioned records, philanthropic bodies will submit to DDST a monthly statement showing consumption of petrol, oil and grease and the stocks on hand as per Vic L of C Area R O 407/42.

Q227. CASUALTIES EVACUATED TO HOSPITALS - DISPOSAL OF PERSONAL EQUIPMENT. 1. Helmets, Steel and Respirators on issue to, and which accompany personnel evacuated to Hospitals will be entered on the AA Form F200 of the individual concerned and written off unit charge.
2. (a) In cases where Arms and Accoutrements, other than items mentioned in para 1, are received at General Hospitals with personnel, the individual concerned will be issue with a receipt on AA Form F25.
(b) Such item will be returned to the nearest Ordnance Returned Stores Depot covered by a Return Voucher (G1033) in duplicate.
(c) The "Return" Voucher should bear a reference to the AA Form F25 relative thereto, to permit of Audit Clearance.
There will be no Ledger entry so far as Hospital Accounts are concerned.

Q228. VEHICLE LOG BOOKS (AA F20). It has been found that, in many instances, vehicle log books are not properly written up. This applies particularly to tyre pressures, oil grades, etc shown in the front of the book.
Units will inspect all Log Books and ensure that they are complete in all details.

Q228. REPORTING OF AND INSPECTION OF TANKS (TECHNICAL MATTERS ONLY). For the purpose of reporting to A D O S on any technical matter regarding tanks, and for the purpose of ensuring that any tank inspection or modification detailed by A D O S is carried out, the division of responsibility will be as follows :-
(a) Tanks on charge to regiments - the regimental L A D;
(b) Tanks on charge to HQ 6 Aust Armd Bde - 6 Aust Armd Bde Ord Wkshops;
(c) Tanks on charge to HQ 2 Aust Mot Div - DADOS(E) 2 Aust Mot Div.

Q230. PETROL DRUMS - PREVENTION OF ENTRY OF WATER. Many instances of roadside stoppages of M T have been reported as due to presence of water in petrol tanks.
Henceforth all filling of vehicle tanks will be carried out by means of funnels fitted with a wire mesh strainer sufficiently fine to prevent the passage of water.
In addition units will ensure that :-
(a) each petrol drum held, whether empty or full, has a bung fitted with an effective washer;
(b) all bungs are screwed tight at all times;
(c) drums are NOT to be stacked on end with bung uppermost unless under cover.
Ord Fd Pks hold supplies of bung washers which may be obtained on A B 106.

Q231. FILLING OF VEHICLE PETROL TANKS - FIRE RISK. Information has been received concerning the fire risks involved when fuelling from petrol pumps, tanks fitted with rubber tracks. This is apparently due to ignition of petrol vapour caused by static discharges.
To eliminate any risk, if tanks are filled from pumps or trailers, the tanks will be "Earthed" to the pump or trailer by means of the wire tow rope or other suitable conductor. It is to be ensured that the conductor is a good electrical conductor and that it makes a good electrical contact with both the metal hull of the tank and the metal container supplying the petrol. As static electrical charges are produced by the flow of petrol from one container to another, a conductor separated slightly from the metal of either the tank or the petrol container (by a thin film of grease or paint for instance) constitutes a greater danger than if no earthing conductor were provided at all.

Q232. M T - I H C - OVERHEATING DUE TO FAULTY RADIATORS. A number of International vehicles K1 to K5 series have been causing trouble by overheating. This has been found to be due to the fact that a number of faulty radiators has been accepted into service.
Units having these vehicles on charge will carry out inspect-

C232.(Contd)
ion of radiators forthwith. Any vehicle fitted with a radiator not marked as in (a) or (b)below will be forwarded immediately to L A D or Ord Wkshops for further examination.
(a) The word "Modine" stamped on a brass plate fastened on the right hand corner of the top tank of the radiator.
(b) Part numbers stamped on a brass plate on the centre of the top tank.

Similarly any vehicle of this type showing tendency to overheat even though the radiator may be marked as in (a) or (b) above will be forwarded to L A D or Ord Wkshops for examination.

C233. MECHANIZATION CIRCULARS. The following is a list of mechanization circulars that are current, excluding those covering tables of tools and equipment and provisional G 12s both of which are being replaced by printed AAFs G 12.

Attention is directed to Vic L of C Routine Order 253/42 and Appdx III of that issue of Vic L of C Routine Orders.
Proceedings of Regimental Audit Boards will be forwarded on A A F A 2 to reach this H Q on 23 Jan 43.

A 288. COURT MARTIAL - PUBLICATION OF RESULT OF TRIAL.

The result of trial by Court Martial Convened and Confirmed by G O C 2 Aust Mot Div is published as Appendix I to this issue of these orders.

Q 289. CORRIGENDUM

Para 2 of Div R O Q 282/42 will be amended to read "It will be returned to the nearest Ordnance Return Store Depot".

O 290. INDENTING BY WORKSHOP UNITS.

1. Some confusion appears to exist relating to the method of indenting by workshop units for :-

(a) items for maintenance of stores appearing on the Wkshop War Equipment Tables.
(b) expense stores.
(c) replacement parts for stores being repaired or reconditioned.

Accordingly the following instructions are issued.

2. All wkshop units will indent for stores under para 1(a) in the normal manner by submitting indents to D A D O S, Formation, for approval.

0 290. (contd)

3. Wkshop units with field formations will indent similarly,

(a) for stores under para 1(b) through D A D O S Formation, to the nearest Ord Depot,
(b) for stores under para 1(c) direct on the accompanying Ord Fd Park,

without submitting the indent to D A D O S, Formation etc, for approval.

0291. EXPENDABLE STORES FOR WORKSHOP UNITS (INCLUDING L A Ds).

1. Expendable stores required by Workshop Units will not be limited by any entitlement shown on W E Ts.

2. W E Ts are to be regarded as an initial equipment scale only, and maintenance requirements must not be calculated on this basis.

3. Depots therefore will not reduce the quantities called for on indents to those as set out in the W E Ts.

0 292. INITIAL EQUIPT - INDENTS FOR NON-CONTROLLED ITEMS INCLUDED IN W E T.

Controlled stores are normally issued complete with associate stores as per W E T's.
Indents for such non-controlled items may only be submitted to complete weapons and equipts, etc, actually held. Indents will be endorsed "Required to compl te.....(denoting weapon or equipts) actually held".

0 293. INDENTS FOR CLOTHING.

It is necessary that future indents for clothing items show the individual sizes of those items on seperate lines on A F G 997 Column 5, the quantity required of each size being enumerated in Column 7.
The previous method of showing size and quantity on the one line of an indent as per S O C does not now apply.

0 294. OXYGEN AND ACETYLINE - HELD BY ORD FD PKS.

Stocks of oxygen and acetyline are now held by Ord Fd Pks. Wkshop units will satisfy requirements by exchanging empty cylinders for full.
