Calls made R Coy H Q, Praed Point as and when required.

2. AIR MAIL LETTERS — Air Mail letters must be lodged at CAMP P O before 0900hrs each FRIDAY, otherwise they will be held over until the following week.

3. OVERLOADING M/T VEHICLES — Concern has been caused by the recent breakages to vehicles especially to springs. This is partly attributable to over-loading of trucks and to driving at speeds greater than the bad conditions of the roads warrant.
As continued breakages will result in the grounding of vehicles until spare parts are available, it is essential that Offrs and N C O's as well as the drivers themselves, MUST take a personal interest in the trucks allotted to them and ensure that all measures are taken to keep them in good condition. In future no truck will travel at a greater speed than 20 m p h on any road and on the PRAED POINT ROAD will be limited to 15 M P H as before.
It is the duty of all Offrs and N C O's to ensure that these instructions are carried out at all times and that trucks are always loaded WITHIN their capacity.

1. GREASETRAPS BOREHOLES — To save maintenance and secure a lengthy life of boreholes used for the disposal of drainage water in kitchen, ablution and latrine areas, the following instructions are suggested :-

1. Daily clearance of surface grease in greasetraps.
2. Completely empty greasetraps once a week and remove sludge
3. Clean drains daily and keep holes in plates over boreholes free of extraneous matter.
4. No water to be poured direct into boreholes, but into drain on kitchen side of grease trap.
5. Remove solids before pouring tea or vegetable water into drain.
6. Allow water to cool or add cold water before pouring into drain.

As grease and solid matters which are now going direct into the borehole, form an impervious skin on the side, it is essential that these instructions be adhered to.

SECURITY INSTRUCTION

1. Rules governing the censorship of military mail have already been issued in Administrative Circular C1 of 30/5/41 and have been frequently referred to in Routine Orders. In spite of this confusion still appears to exist and the following points are therefore brought to the notice of officers so that they may explain them in detail to men under their command.

GENERAL PRINCIPLES

2. (a) The primary object of all censorship is to deny to the enemy information which captured mail, photographs etc might convey. The time factor enters largely into this since it is obvious that however informative idle chatter is, the same will not interest the enemy unless it reaches him promptly. For that reason airmail - whether letters, parcels photographs - is always very carefully scrutinised before being dispatched.

(b) Examples of what is meant might be conveyed to the troops by explaining that, in several recorded instances, the Germans have attempted to bring down British mail planes with the avowed intention of rifling mail bags in order to learn the state of morale at home or at the front.

(c) An instance nearer to our own shores concerns the German raiders recently active in the Pacific. On the capture of a vessel the mail room was always raided and the mail bags taken aboard German ships to be perused at leisure. Bags of Australian mail addressed to Ocean Island were even dumped ashore at Emiru at the same time that survivors of the British ships sunk were landed there. Each letter had been opened and read.

CENSORSHIP OF MAILS

3. From the above it will be seen that mail censorship is not a routine job created for the annoyance of all, but a serious matter having considerable bearing upon the safety of those concerned.

Responsibility for the careful censorship of mail rests upon the officers of a unit who should be familiar with the regulations in force. It will entail tact and discretion at all times. In this connection two things might be emphasised once more:-

1. It is point of honour to preserve absolute secrecy concerning the contents of letters read.
2. The writing of facetious comments upon treated mail should in no circumstances be practised. Besides being an offence against good taste, the feeling that their confidence is being abused is likely to lead to dissatisfaction amongst the troops.

PHOTOGRAPHY PROHIBITED

4. (a) To simplify the position regarding the taking of photographs, a copy of the National Security Regulations concerning prohibited areas etc was published in "L" Force Routine Order No 72.

(b) In effect, this means that photographs, sketches, plans, etc (either in part or whole) of the following objects is absolutely prohibited:-

Any reproduction showing Rabaul harbour, foreshore, or shipping.
Groups posed in, or against, tents, huts, military vehicles or in drill formation.
Individuals or groups wearing military equipment, or in the vicinity of such equipment.

IN FUTURE PRINTS AND NEGATIVES SHOWING THESE SUBJECTS WILL BE DESTROYED.

(c) Officers might explain that provisional permission to take photographs is confined to:-

Parties on leave away from localities mentioned in para 2.
Views of native villages, native life, missions and other non-military subjects.
Scenic views that do not infringe regulation in force.
