UNIT TRAINING

1. The first courses for the trg of unit instrs will begin trg in their respective areas on Monday 24 Jan 44 at 0900 hrs. The second and third courses will begin on the subsequent Mondays. A final course will be held at a later date when pers now on leave have returned.

2. Units will send NCOs to attend the courses as per lists att.

3. The syllabus for the course will be issued to students by the instrs on arrival.

4. Each course will last 6 days. Students will remain with their units for gen adm and report daily to the instrs at the appointed RV. It is permissible however for units to make arrangements for the quartering of their students with other units if this is more convenient.

5. All students will bring rifles, eqpt, notebooks and pencils to the course

6. Places to report are as follows:

Units Trg at DARWIN	Gp D	HQ 3 Aust Fd Butchering Coy
	E	HQ MC DARWIN
	F	HQ 5 Aust Docks Opg Coy
BOOWMAN		Camp Comdt
ADELAIDE RIVER	Gp A	Exit rd from and South of Salv Depot

	C	HQ. 17 Aust L of C Sigs.
PINE CK		HQ. Area Camp Staff Det
KATHERINE		HQ. Area Camp Staff
MATARANKA		HQ. Area Camp Staff Det
LARRIMAN		HQ. Area Camp Staff

7. It will be noted from the att lists that vacancies have been allotted to units in accordance with the number of pers in various localities. If an NCO at, say, FIRE CK cannot be made available without replacement it is preferable that he be replaced from the present unit rather than that a substitute be sent to the course from another locality. Units should especially note that the allocation of the site of their HQ is NOT their total commitment. Each locality has its proportionate quota.

8. In selecting NCOs to attend these courses units should bear in mind that they will, on completion, be the instrs to carry out the trg of unit pers. It is therefore necessary to select an NCO who is:

(a) a good potential instr
(b) likely to be regularly available for unit trg.

9. It is particularly desired that units give implicit instns to the selected students to ensure that they arrive at the correct time and place for the courses.

10. Separate instns will be issued with regard to the trg of units and date at FIRE CK.

MOBILE GAS CHAMBER.

1. Att hereto copy of NT Force 147/G/C3 dated 19 Jan 44.
2. Units (incl AANC units) will be prepared to pass through all pers offrs and ORs who have NOT been through the DM gas test [illegible]. Pers who have been through the DM gas test will NOT repeat the DM test. They should, however, go through the CAP test.
3. Area Camp Staffs KATHERINE, LARRIMAH will arrange roster for units and dets at PINE CK, KATHERINE, KATARAMVA, LARRIMAH. 15 Aust Detn Barracks will make necessary arrangements at BROCKS CK, and 1 Aust Farm Coy at HAYES CK.
4. Units will arrange to send their pers to the nearest locality where the chamber is to be stationed.
5. To cause the minimum interference with normal routine, units should send a portion of their pers each half day proportionate to the number of half days the chamber is in the area, for example if the chamber is to be 2 days at a given location about a quarter of pers should attend each morning and afternoon. This is a general guide and may be varied at the discretion of units arranging the roster. It should be borne in mind that a man will require a couple of hrs to recover from the DM test.
6. Attention is drawn to the dates of return visits vide para 11. These periods are to be used solely for putting through pers who were absent from the unit or det when the gas chamber was first available. Units will ensure that pers who were unable to undergo the first [illegible] tests are available to go through the chamber on the return journey.
7. Units will keep a record of all pers who pass through the chamber.
8. 14 L of C Sub Area will appoint an instr to take charge of the chamber.
9. Units receiving gas chamber as listed on appx "A" will be responsible for taking delivery and transport of chamber to their area on date shown.

MOBILE GAS CHAMBER.

Under the terms of GROs F.660/1943 and G.769/1943 it is necessary for a man to pass his Ts.O.E.T. in gas. It has therefore been decided to send a gas chamber to ALICE SPRINGS in order to assist in anti-gas training. Time table for this gas chamber is set out in appendix 'A'.

2. MOVEMENT OF GAS CHAMBER. The gas chamber will be delivered by N. T. Force to BROCK'S CREEK, movement from there to LARRIMAH will be the responsibility of 14 L of C.

Movement from LARRIMAH to ALICE SPRINGS and return to LARRIMAH will be the responsibility of 11 L of C.

Movement from LARRIMAH back to BROCK'S CREEK will be the responsibility of 14 L of C.

Hq. N. T. Force will take over the gas chamber from 14 L of C at BROCK'S CREEK on the morning of 1[illegible] May 44.

3. INSTRUCTORS. During the time that a gas chamber is under the control of an L of C that L of C will provide a qualified anti-gas instructor who will be in charge of the gas chamber and will travel with it. It is NOT necessary for the one instructor to stay with the gas chamber for the whole of the time that it is under the control of any one L of C but frequent changes of instructors will NOT be made. Instructors must not be under the rank of sergeant. A copy of these instructions will be given to each instructor before he takes charge of the gas chamber.

4. MAINTAINANCE. Maintainance will be carried out on the gas chamber at least once each week.

5. FIRE. Care will be taken to guard against fire and [illegible] buckets filled with water will be kept near the gas chamber at all times while gas is being generated.

6. CONDUCT OF TESTS AND PERSONNEL TO PASS THROUGH CHAMBER. Attention is directed to Gas Training (Aust) 194[illegible], section 17, page 30 and section 24, page 41. Instructors must read and thoroughly understand these sections before using the gas chamber.

7. SUPPLIES OF GAS. Ample supplies of CAP and DM will be handed over with the gas chamber to 14 L of C. Unused stocks will be handed over from one instructor to the next. Supplies of gas will be locked up at night and NOT left in the gas chamber.

8. MARKING OF RESPIRATORS. The instructor will examine the respirators of the personnel passing through the gas chamber to see that each respirator has a red identity disc attached. (See note 'd' to GRO C.84[illegible]/1943 of 31 Dec 43). Any respirator NOT so fitted is to have an identity disc attached to it as soon as possible.

9. PIECE, SUPPORTING, LINER SLOT. The instructor will inspect containers to see that this has been fitted. (See GRO 0.187/1943 of 26 Feb 43)

10. TIMES OF MOVES. The gas chamber will arrive at a unit location on the date shown opposite that unit in column 1 of appendix 'A' and will be available for the use of that unit until the evening of the date shown in column 2. On the following day, that is, on the date shown opposite the next unit in column 1, the gas chamber will be moved as soon as practicable after breakfast. It will, in most cases, arrive at the next unit and be ready for operation by 1400 hrs.

11. UNITS VISITED ON RETURN JOURNEY. In order to deal with personnel who were not available at the time of the first visit of the gas chamber a halt of 1 day will be made at certain centres on the return journey. The dates of these halts are shown in column 5 of appendix 'A'. At each halt the gas chamber will be available for 1 day. At TENNANT CREEK the gas chamber is expected to arrive late on the afternoon of 16 May 44, it will be available for the whole of 17 May and will move on immediately after breakfast on 18 May. At other halts on the return journey it will be ready to operate immediately after breakfast on the date shown in column 5 and will move on to the next location in the late afternoon.

12. RETURNS. Immediately after the personnel of a unit have passed through the gas chamber that unit will complete appendix 'B' and forward it direct to GSO III (O.), Adv. HQ. N. T. Force. A carbon copy will be forwarded by the unit to the [illegible] of the relevant L of C.

13. CANCELLATION OF RECORD OF ANTI-GAS TRAINING. The following paragraph is repeated from LHQ Notes for GSOs (O.), No. 9.

"The form "Record of Anti-gas Training" which was authorised for insertion in [illegible] by LHQ 34077 of 6 Apr 41 will be discontinued. This instruction will be cancelled in due course. The classification of the recruit as DP 1 and notation to this effect in the soldier's Personal Record Book - which implies that he has passed his TOET in Gas - renders the above form superfluous."
