"Missing 11.4.17"

I knew above quite well. Pte.Sherwill's description of him is about right. I saw him go over the parapet on the morning of 11th April with the rest of the platoon. He was about ten yards from me as we left the parapet and was all right then, but I never saw him again, either in No Man's Land or the Germah trenches. I think he must have been hit almost at once, but cannot suggest anyone who actua lly saw him later than I did. My name is Power not Bower as in your letter.
