#### CLASS DESCRIPTIONS

**Mini Gym:** This class is appropriate for Pre-Prep, Prep and Year 1 students. It focuses on the development of coordination and confidence. Children are introduced to the basics of gymnastics (jumping, landing, rolling, spacial awareness) in a fun and encouraging environment.

**GymFun:** Gymfun is a gymnastics program appropriate to children in primary school. It begins to focus on the use of apparatus and the development of more identifiable gymnastics elements (ie: handstands, rolls, cartwheels).

**Gym Extensions:** This class is for children who may have had some gymnastics experience before, or who show a higher skill level. The gym extensions program introduces the children to gymnastic routines and a more advanced skills program (1.5hr class).

#### CLASSES

Monday and Tuesday afternoons in the Somerset Sports Centre, Ormiston College.

## PARENT VIEWING

Parents are asked to refrain from sitting in on our gymnastics classes throughout the term, as it is found that the children are generally more attentive without distractions. However special viewing weeks are held during which time parents will be invited to come and see what has been achieved in the classes over the term.

## UNIFORM AND WHAT TO WEAR

Students should wear appropriate training gear for gymnastics such as shorts or bicycle pants and t-shirts, or leotards.

Students in the extension class should wear more tight fitted attire such as leotards and leggings as baggy clothes may hinder movement on apparatus such as bars.

**Water Bottles:** All students should bring a water bottle to each class, as it is preferable that students do not leave the gymnastics room for a drink.
