

# Upper Hume Primary Care Partnership Strategic Plan 2017-2020

## Enablers

## Key strategies

- Identify issues based on evidence and data
  - Facilitate joint response for emerging issue, particularly around vulnerability and disadvantage
  - Act as an independent reviewer of opportunities to enable joined up approaches for existing and emerging policy directives. .
  - Develop and implement an operating protocol for the identification of opportunities and connection
- 
- Enable participation of a broad range of stakeholders, including community, to support system improvement within a Social Determinants of Health framework
  - Enable planned approaches across the service system
  - Facilitate evidence based early intervention and coordination of care especially for those with, or at risk of, chronic disease conditions and those most disadvantaged.
  - Establish a robust governance framework and authorising environment for the PCP
- 
- Facilitate a social determinants and outcomes focused approach across the UHPCP catchment
  - Facilitate skills development and collaborative effort, reflective of the expectations of current relevant policy directives, in: outcome evaluation; Collective Impact; social determinants approaches/framework; community engagement and health literacy
  - Promote and build capacity in early intervention and prevention
  - Facilitate and support the development of an Integrated Prevention plan for UHPCP catchment inclusive of municipal health and wellbeing strategies around regional priorities(currently healthy eating, and active living).
  - Explore the potential of rural liveability audits to further influence action in a social determinants framework
- 
- Develop and implement a Communication Strategy including website and social media.
  - Communicate the role of UHPCP as a non-agency, unaligned, broker for advocacy and improvement in primary health system development
  - Develop an engagement strategy reflecting a broad membership base which is flexible and relevant

## Principles

- Access and equity
- Strong leadership and governance
- Accountability and transparency
- Collaboration and partnership
- Evidence based
- Person Centred
- Sustainability

Currently the state-wide direction identifies PCP as focusing on:

- Prevention
- System integration
- Family violence

**prevention, collaboration and people**
