

KP20 - Lightweight Knee Pad

Collection: Kneepads

Range: Knee pads

Materials: Nylon, EVA Foam, Plastic

Box Quantity: 48

Product information

So lightweight, you won't even know you are wearing it. Designed to wrap around your knee, moulding to its shape using two lightweight well placed straps. A tough outer shell gives your knees protection against sharp objects and uneven surfaces. Its thick foam centre cushions your knee, while its breathable inner fabric allows air to circulate preventing any build up of moisture.

Kneepads

Portwest knee pads offer a range of knee protection to suit every situation, type 1 (strap on knee pads), type 2 (insert knee pads) and type 3 (kneeling pads). All Portwest knee pads use premium high density material to give the user the best protection possible for their knees no matter the hazard. Diverse materials such as EVA foam, neoprene rubber and silicone gel inserts are used to ensure maximum wearer comfort. Ergonomics is a key feature in our knee pads design and is backed up in the positive feedback we receive from our wearer trials.
