10 Cartridge A3+ Fine Art Printer

**Sleek, Compact and Professional
Bring your photos to life!**

[Printer Friendly Specs](#)

[Where to Buy](#)

Overview

Epson raises the bar again with its cutting-edge design of the new high quality A3+ photo printer, the Epson SureColor SC-P706™, which delivers professional features including high-capacity cartridges with an expanded colour range, new printing modes, networking and wireless connectivity, large touchscreen display, plus advanced media handling. UltraChrome® PRO10 pigment ink, combined with Epson's innovative MicroPiezo® print head, enables the SC-P706 to produce gallery-quality black & white output, plus improved vivid colour prints with breathtaking blues and violets thanks to the new Violet ink that is now on board. The Epson SureColor P706 also has dedicated lines for all colours so now you do not have to wait to switch between the Photo / Matte Black ink carts saving you time and keeps you printing more efficiently. The Epson SureColor P706 is setting new benchmarks in A3+ professional photographic printing, delivering the highest D-max to date and unsurpassed black and white photography along with outstanding colour exhibition quality prints. The SC-P706 is 30% smaller than its predecessor and is ideal for amateur and semi-professional photographers and for any business that has a regular requirement for high-quality colour presentations.

KEY FEATURES & BENEFITS

A3+ size printing – Exhibition Quality prints up to A3+ size but in an A4 sized footprint.

Superb print quality and colour – Epson UltraChrome Pro10 Ink with Violet, is a new industry-leading ink technology, delivering an extended colour gamut producing vibrant and rich prints.

Black Enhance Overcoat – Our new technology provides richer blacks, better contrast and better tonality, all while reducing gloss differential in dark areas on glossy medias.

Dedicated black inks – No more automatic switching of the Photo / Matte Black inks with both inks having their own channel in the print head that means you will be printing straight away rather than waiting for ink cartridges to switch over. Photo Black Ink produces rich, deep blacks on traditional photographic papers; while Matte Black Ink produces exceptional results on matte surface media.

Advanced Black & White Photo Mode – Professionals can choose from pre-set modes – neutral, warm, cool, or sepia – for stunning neutral or toned black-and-white prints. This feature provides intuitive and consistent control through custom slider bars and a colour tone wheel for advanced tone adjustment. In addition, customised settings can be saved and recalled to achieve consistent prints, and using the optional downloadable Epson Print Layout software, users can automatically preview

personal images with the selected settings. Epson Print Layout is now available on Apple mobile devices so you can print from anywhere.

UltraChrome Pro10 ink cartridges – These new ink cartridges come in 10 different colours including 4 types of black and 6 colours including Violet ink which helps to expand the colour gamut on these new models. These inks also offer great lightfastness and if displayed properly will last a lifetime*.

Advanced, simple media handling – An Improved design allows precise top feeding of fine art paper - a definite advantage that not only simplifies a delicate task, but reduces installation space.

Built in roll paper support – The Epson SureColor SC-P706 has a new built in roll paper unit making continuous, high quality photograph printing absolutely straightforward. This feature makes the printer ideal for photographers looking for simple yet high quality panoramic prints with edge-to-edge BorderFree photo printing on sizes up to A3+.

CD/ DVD Printing – In keeping with Epson's precision CD/DVD surface printing tradition, the Epson SureColor SC-P706 supports high quality printing directly on to the surface of compatible inkjet printable 8cm and 12cm CD-Rs and DVDs.

Wired or wireless connectivity – The SC-P706 can connect via Ethernet sharing the printer on your network or by the latest wireless standard, WiFi 5, 802.11 ac 5 GHz. Wi-Fi Direct® means no router is required enabling users to easily connect to wireless networks in seconds, allowing printing from virtually any room in the office.

Customisable 4.3" touchscreen with gesture control – The SureColor SC-P706 has a built-in 4.3" touchscreen with a keypad and gesture navigation that features an impressive touch sensitive customisable LCD display panel which allows you to check the printer status, ink levels and perform routine maintenance tasks along with a variety of other tasks all with a swipe of the screen. You can even set the background to be the print you are printing for an added look.

Reliable service cover – The SureColor P706 ships with a 1 year return to base warranty but can be extended to a 3 years on-site service which includes parts, labour and print heads**

* Accelerated testing of prints on specialty photo & fine art media displayed indoors under glass indicates light stability of up to 200 years for colour and 400 years for B&W. IMPORTANT: Actual stability will vary according to the media, image, surface treatment, display conditions, light intensity, humidity and atmospheric conditions. Epson does not provide any warranty or guarantee on the longevity of prints. For further details on light stability and image preservation please visit www.wilhelm-research.com

** Service and support is provided for product supplied through Epson Australia or Epson New Zealand. This facility is provided via the Epson Authorised Large Format Reseller network. Limitations apply to the provision of on-site service. Regional locations and certain installation situations may attract additional charges. Service may be restricted or limited when equipment is not properly maintained, is used outside of specification &/or with non-Epson consumables. Limitations apply to the number of Service Packs that can be purchased for particular printer models and the time frame during which they must be ordered. For further details on coverage, terms and conditions please review the [warranty terms](#) listed on this web-site and contact Epson or one of our Authorised Large Format Resellers if you have questions or concerns.

Specification

SIZE

Max Print Width	13 inch (330.2mm)
Max Sheet Size	A3+

PRINT TECHNOLOGY

Print Head	Epson Micro Piezo™
Print Modes	Uni & Bi-directional
Features	Variable Sized Droplet Technology (VSDT) Advanced Epson LUT Enhanced Colour Density Enhanced Print Durability Black enhance overcoat
Nozzle Configuration	180 per colour

Double Sided Printing	Supported via manual loading however please refer to the user guide, and contact Epson or your authorised dealer before selecting any media for this purpose in order to check suitability.
OPERATION	
Control Panel	4.3" Touchscreen Colour LCD
Interface	High Speed USB 3.0 Ethernet 10Base-T / 100Base-TX Wi-Fi 5 (IEEE802.11 b/g/n/ac)
Included Software (Windows)	Printer Driver, Print CD, EpsonNet Config, EpsonNet Setup, EpsonNet Print, Software Updater and Firmware updater on CD
Web Downloads (Windows)	Printer Driver, Epson Print Layout, ColorBase2, Epson Media Installer, Photo+, E-Web Print, Firmware Updater & software uninstaller
Web Downloads (Mac)	Printer Driver, Epson Print Layout, ColorBase2, Epson Media Installer, Photo+, EpsonNet Config, EpsonNet Setup, Software Updater, Firmware updater & software uninstaller
OS Compatibility	Mac OS X 10.6.8 or later Windows 10, 8/8.1, 7,
3rd Party S/W Compatibility	Compatible with a wide range of design, production, workflow management, and RIP software
Memory	256MB
Language	ESC/P Raster
ENVIRONMENT	
Operational Temp	10° to 35° C (15-25° C recommended)
Operational Humidity	20 to 80% with no condensation (40-60% recommended)
Power Supply	220 – 240V, 50 – 60Hz AC, 0.3A
Power Consumption	22W Operating / 1.1W Sleep / 0.18W Off
Operating Noise	39dB
Operational Space (W x D x H)	515mm x 769mm x 420mm recommended (Additional space will be required at rear when using the straight through paper path or roll paper unit)
PHYSICAL	
Dimensions (W x D x H)	515 x 368 x 185mm (sheet feeder & output tray closed)
Weight	12.7kg (excludes consumables)
WHAT'S IN THE BOX	
Printer, power cord, Set of 25ml inks (a significant amount of ink will be used to charge the machine during initialization, we suggest an extra set be purchased with the printer), 1 x Maintenance tank, Set-up guide, User Manual/driver/utility software CD.	

Packaging (W x D x H)	648 x 483 x 337mm, 16Kg
CONFIGURATION OPTIONS	
C11CH38501	Printer with 1 Year Return To Base Warranty**
SCP7063YR	Printer with 3 Year On-Site CoverPlus**
** The printer comes with a comprehensive warranty that includes cover for the Print Head. Optional CoverPlus packages enable cover to be extended with an enhanced service level. CoverPlus can be purchased concurrently with the printer or ordered separately up to 365 days after the original product invoice date. Cover can be extended by 2 years (maximum 3 years).	
Limitations apply to the provision of Warranty and CoverPlus Service. Support is only provided for product supplied through Epson Australia or Epson New Zealand. The facility is provided in conjunction with the Authorised Large Format Reseller through which the product is ordered. Regional locations and installations with difficult access may attract additional charges. Service may be restricted or limited when equipment is modified, used outside of specification, &/or with non-Epson consumables. For full details on coverage, terms and limitations please review the warranty terms listed on this web-site and contact Epson or one of our Authorised Large Format Resellers if you have questions or concerns.	
OPTIONS & ACCESSORIES	
2YWSCP706	2 Year CoverPlus On-Site Service Pack**
Usage Conditions	
Epson products are designed and made to give highly reliable use and long life when used according to its specifications. With any system, product or device used in situations where human life may be involved or at risk, Epson advises that you should take all necessary steps to ensure the suitability of your Epson product for inclusion in your system, and recommends that you include fail-safe procedures and redundancy support or backup equipment in your system, to maintain the maximum safety margin and optimum system reliability. Examples include but are not limited to – do not interfere with any electrical components within the device, do not use items supplied with the product for purposes other than as intended by Epson (ie mains cords, inks, CDs, plastic wrapping) and do not make modifications to the product.	
This printer is designed to function only with genuine Epson ink cartridges and not with third party ink cartridges. The printer may not function properly or at all if you use third party ink cartridges.	

Consumables

Warning to Epson printer owners. Many well known third party companies claim their inkjet printing papers are compatible with all Epson inkjet printers. Epson has reports from many customers who have used third party paper and have been very disappointed with the results. When the same customers have changed to genuine Epson paper, they have been amazed and pleased with the colour and quality of their prints. Epson recommends that you do not use any non genuine printing papers if you want to get the best results from your Epson printer. Epson printers are very carefully tuned to ensure Epson inks and Epson's patented MicroPiezo™ printhead produce the best quality prints using carefully selected Epson paper.

This printer is designed to function only with genuine Epson ink cartridges and not with third party ink cartridges. The printer may not function properly or at all if you use third party ink cartridges.

Equipment supplied by Epson Australia is designed to function in conjunction with genuine Epson consumables and accessories specifically configured for it.

Because of differences between specifications of products sold in different countries Epson Australia does not warrant that this product will have the same specifications as a similar Epson product sold in other countries.
