

# **SAFETY DATA SHEET**

**Product: POWER TACK (Adhesive Tack)**

**Revision Date: December 2017**

## **1. Supplier Details**

**Name:** ACCO Brands Australia Pty Ltd

**Address:** 2 Coronation Avenue, Kings Park, NSW 2148, Australia

**Telephone:** +61 2 9694 0900

**Fax:** +61 2 9674 0910

**Website:** www.accobrand.com.au

**Email:** sds.anz@acco.com

Please contact ACCO Brands Australia for any general enquiries 9am to 5pm (EST) Monday to Friday.

**Emergency Telephone Number: Poisons Information Hotline:** 13 11 26.

Telephone advice is available 24/7 from anywhere in Australia.

## **2. PRODUCT IDENTIFICATION: POLYMER TACK**

IDENTIFICATION OF THE SUBSTANCE

**Product Code:** 975475C POWER TACK (Adhesive Tack )

### **3. COMPOSITION / INFORMATION ON INGREDIENTS**

- Chemical Characterization Of The Substance / Reference Numbers:

		<u><b>CAS #</b></u>	<u><b>EINECS #</b></u>
Polymer Approx	:25%	9002-86-2	None
White Filler Approx	:50%	1317-65-3	None
Softening Oil Approx	:22%	8042-47-2	232-455-8
Tioxide Tr.	:3%	13463-67-7	236-675-5

### **4. FIRST AID MEASURES**

- General First Aid : No procedures are expected to be required for this material.
- Inhalation : NE
- Skin Contact : NE
- Eye Contact : NE
- Ingestion : NE
- Note to Physician : NE

### **5. HAZARDS IDENTIFICATION**

- Most important hazards: POWER TACK is not hazardous product.

### **6. PHYSICAL AND CHEMICAL PROPERTIES**

- Product Appearance : Green color cutting in small square shape
- Texture : soft
- Odor : odorless
- Solubility : insoluble in water
- Other Properties : Not identified

### **7. HANDLING AND STORAGE**

- Handling : Safe Handling Advice
- Storage : Storage Condition and Packing
- Material : Incompatible Products
- No special measures.
- No restrictions.
- No restrictions.

## **8. FIRE FIGHTING MEASURES**

- Flash Point : NA
- Autoignition : NE
- Flammability : NE
- Extinguishing Media : Chemical, Water Spray and Foam.
- Special Expose Hazards : NE
- Fire Fighting : During emergency conditions, over exposure to thermal decomposition products may cause a health hazards. An approved self- contained breathing apparatus should be wore.

## **9. ACCIDENTAL RELEASE MEASURES**

- Personal Precautions : No further measures.
- Environment Precautions : No further measures.

## **10. TOXICOLOGICAL INFORMATION**

- Acute Toxicity: POWER TACK is not irritating to skin. Product comply with European Standard EN71 for heavy metal and phtalate content.

## **11. ECOLOGICAL INFORMATION**

- General Information: POWER TACK is practically insoluble in water.

## **12. DISPOSAL CONSIDERATION**

- Dispose in accordance with all applicate National Environment Laws and Regulations.
- Method References : USEPA 3570, 8270C

## **13. TRANSPORT INFORMATION**

- Freight Description :POWER TACK ( Adhesive Tack )
  - Primary Class :None
  - Subsidiary Hazard Class :None
  - Labels Required :None required
  - International Transport Regulation :The product is not defined under

national/international road, rail, sea and air transport regulations as a hazardous materials.

## **14. REGULATORY INFORMATION**

The product is classified as follows: POWER TACK is not a hazardous material according to the new regulations for the handling of dangerous goods
