

Folk Dance Australia

Objectives:

- *to promote the development of folk dance in Australia;
- *to promote and understanding and mutual respect for the diverse community groups living in Australia;
- *To encourage and develop the skills of folk dance teachers by providing courses and workshops;
- *to serve as a folk dance information network.

Folk Dance Australia Background

Folk Dance Australia (FDA) was formed in 1990 and became incorporated in New South Wales in May, 1991

Based in Sydney, FDA is a national network, with members in all states of Australia and in New Zealand.

During the past 35 years, tours by visiting teachers from Europe, the United Kingdom, USA and Canada have given folk dancers in Australia the opportunity to network and to create a wider field of knowledge, ideas and communication.

The founding of FDA was the natural progression in the development of international folk dance in Australia

It was the vision of dedicated enthusiasts with the aims of raising the standard of teaching, giving international folk dance a higher profile and showing its value both as a recreational activity and as an educational tool, that is making international folk dancing more accessible to the broader community for their enjoyment.
