Building classification under the Building Code of Australia, as identified by the development consent

Existing classification

New classification (if changed)

SECTION D. Attachments relating to the proposed development

1. Applicants must provide the documents listed below that are relevant to the type of development that is proposed. Please confirm that documents relating to the requirements below have been attached by placing a cross in the appropriate box(s).

Development consent

Fire safety certificate

Each BASIX certificate for the development.

Construction certificate

Compliance certificate

2. Does the development involve an alternative solution under the Building Code of Australia ("BCA") in respect of a fire safety requirement?

If YES, provide either or both of the following from a "fire safety engineer" (a private accredited certifier holding Category C10 accreditation):

- A compliance certificate (as referred to in s.109C(1)(a)(v) EP&A Act) that certifies that building work relating to an alternative solution that was the subject of a compliance certificate or report under clause or 144A(a) EP&A Regulation – (the first certificate or report) has been completed and complies with that alternative solution.
- A written report that includes a statement that the building work relating to the alternative solution that was the subject of the first certificate or report has been completed and is consistent with that alternative solution.

Note: The above requirement only applies to building work in respect of:

- a class 9a building that is proposed to have a total floor area of 2000 square metres or more
- any building (other than a class 9a building) that is proposed to have:
 - a fire compartment with a total floor area of more than 2000 square metres or
 - a total floor area of more than 6000 square metres

that involves an alternative solution under the BCA in respect of the requirements set out in EP1.4, EP2.1, EP2.2, DP4 and DP5 in Volume 1 of the BCA.

3. Does the application relate to a residential flat development for which the development application was required under Clause 50(1A) of the EP&A Regulation to be accompanied by a design verification from a qualified designer?

If YES, provide a statement from a qualified designer which verifies that the residential flat development achieves the design quality of the development as shown in the plans and specifications on which the construction certificate was issued, having regard to the design quality principles set out in Part 2 of State Environmental Planning Policy No. 65-Design Quality of Residential Flat Development (SEPP No. 65)

Note: If the development application was also required to be accompanied by a BASIX certificate with respect to any building, the statement need not verify the design quality principles set out in SEPP No. 65 to the extent to which they aim to

- reduce consumption of mains-supplied potable water, or reduce emissions of greenhouse gases, in the use of the building or in the use of the land on which the building is situated, or
- improve the thermal performance of the building.

SECTION E. List of documents

Prepare and attach a list of all of the documents provided under SECTION D.

SECTION F. Delivery of the application

Applications for occupation certificates must be delivered by hand, by post or transmitted electronically to the principal office of the certifying authority. Applications MAY NOT be sent by fax.

SECTION G. Signature of applicant(s)

Signature of applicant(s)

Name(s)

Date

SECTION H. Date of receipt of application

To be completed by the certifying authority **immediately** after receiving this Application.

This Application was received on (insert date).
