</table>
In this, the 53rd National Annual Report, it is pleasing to advise that our Leader numbers continue to grow, and at 14,113 are at the highest level since 2005. What’s exciting is the 9% increase in Line Leaders over the past 12 months. Some of this growth may have been due to the lead up to the Australian Scout Jamboree (AJ2013) held at Maryborough, Queensland in January 2013; but in any case, it positions us well for further growth.

As expected in a Jamboree year, our Scout numbers increased significantly to 19,250, the highest since 2003. Also as expected, our Cub Scout numbers dropped by a similar amount, due to the focus on the Jamboree and the early going up of Cubs to Scouts, so they could attend the Jamboree. Overall, our total youth numbers grew slightly to 51,768.

It’s pleasing to note that we are holding at around 52,000 youth members, without significant expenditure on advertising, as we direct our available funds to strengthen our Leader skills through improved training and better program resources. The National Operations Committee has a clear focus on improving retention, which in turn will not only grow the Movement, but provide more opportunity to achieve our mission.

It was great to see our Rover Scout numbers steady at around 2,600 for the second year in a row. While not yet a trend, it’s significantly above the Sectional low point of five years ago. This is a strong indicator that the recent Rover Scout Sectional Review and the work to increase pathways for Venturer Scouts and Rover Scouts, is having a positive impact.

**Adults In Scouting**

I’m delighted to report that our e-Learning based Leader Training program continues to grow in both quality and quantity and has become the cornerstone for our improvement in the delivery of the Youth Program. A total of $137,000 was invested in developing 16 new training modules in 2012/13 with a further $112,000 committed next year.

Our Leaders have been impressed by the design and ease of operation of the e-Learning program with one Leader making the following comment to her Training team:

> Just thought I would make a comment on how excellent the training modules are. I wasn’t looking forward to completing all of this but I find the e-Learning to be highly effective, well targeted and useful. The technology and user interface are great and all the PDF downloads are really good. As a Leader I have often turned things into electronic forms for ease of use and having access to many of these in a pre-made electronic format is like finding treasure. I have taken part in a number of e-Learning systems including Blackboard and find myself admiring the design of the Scouts Australia modules. Well done guys.

During the past year many of the existing e-Learning modules were updated to reflect recent changes to the manner in which we use Areas of Personal Growth (AoPG) in the delivery of the Youth Program. Accreditation documentation was also integrated and embedded in the all of the applicable modules. The former action was to align training to conform with the World Scout Bureau’s latest education policy; while the latter, was to enable Leaders undertaking Basic or Advanced Training to download and print appropriate pages from their e-Learning modules, presenting them as evidence for the award of their Certificate III or Certificate IV qualifications in leadership and/or business. Although many of our older Leaders don’t appreciate the value of obtaining these VET qualifications, in addition to their Woggle or Wood Badge, an increasing number of our younger Leaders are realising its significance. The nine South Australian Rover Scouts I observed at Woodhouse undertaking their Wood Badge Training in late 2012 certainly did. They were very aware of the value of the Certificate IV in leadership and were very appreciative of the opportunity to undertake it in a Scouting environment, at practically no cost.

Significant process has also been achieved in developing and mapping units of the nationally accredited Outdoor Recreation package (SIS10) to meet our Adventurous Activity requirements for canoeing, kayaking, caving, bushwalking and abseiling. As a Registered Training Organisation (RTO) we are authorised to deliver this package; and by adopting the Outdoor Recreation Package as our standard, we not only meet community expectations, but our Adventurous Activities Leaders will have qualifications which are transportable across State borders and apply both within Scouting and externally.

Many of our Senior Activity Leaders have already been upgraded with Assessor qualifications in Outdoor Recreation, in preparation for the drive to double the number of Activity Leaders supporting the Youth Program over the next two years. Phil Harrison, Deputy Principal – Adventurous Activity, SAIT, took the initiative during AJ2013 to provide on-the-job training and assessment for Leaders involved in the conduct of abseiling and flying fox activities, to qualify them in the
practical components of their respective activities. Phil had already been involved in a similar exercise in the boating/yachting area and is actively supporting Branch Activity Leaders in seeking out opportunities to qualify/requalify Leaders during the delivery of Youth Program or Leader Training activities and hence reduce the requirement for special training/courses.

Planning is well underway for the conduct of a National Adventurous Activity School for over 200 youth and Leaders at Cataract Park and the Blue Mountains in January 2014. The focus will be on canoeing/kayaking and bushwalking/abseiling with the aim to qualify Leaders and Rover Scouts as Activity Guides in those disciplines. The secondary aim is to qualify participating Venturer Scouts and Rover Scouts in Certificate II in Outdoor Recreation. This will provide them with a sound base, from which to build to Guide or higher Certificate level during the following year or two.

With the retirement of Paul Parkinson, after two terms as National Commissioner, Adult Training and Development (NCATD), in November 2012; and recognising the huge and growing workload in the Adult Development area, I took the opportunity to strengthen the SAIT team by adding two Deputy Principals: one to support e-Learning and RTO accreditation; and the other, to support the Adventurous Activity area. I was pleased that Paul Parkinson was able to continue on the e-Learning journey by accepting the post of Deputy Principal (Academic) responsible for e-Learning, and was further pleased when Phil Harrison, a very experienced Scout and professional Outdoor Recreation Trainer, accepted the Adventurous Activity role.

Paul has done an outstanding job as NCATD over his six year tenure, not only as our Senior Trainer but also as an active member of both the National and International teams, frequently visiting Branches and nearby National Scout Organisations, as a Consultant or Training Specialist. His recent election as a member of the Asia-Pacific Region (APR) Scout Committee is testimony to the high regard in which he is held within the Region. My special thanks go to him and his very capable assistant Robyn Teufel, for the manner in which they have managed the Training and Development portfolio for the past six years.

I would also like to take this opportunity to welcome Elston Hynd from the New South Wales (NSW) Branch as our new NCATD. Elston has been a Leader in Scouting for over 30 years and a member of the National Training Team for over 25 years. Prior to taking up his new appointment, Elston was the Deputy Chief Commissioner for Strategy & Human Resources in Scouts NSW. This role saw him play a key role in the development of NSW Branch Strategic Plan and he was the driving force behind a number of support portfolios at a Branch Level. I have no doubt Elston will add tremendous value as our new NCATD and we look forward to seeing him implement the National Strategic vision of Scouts Australia, for ‘Scouting to be seen as the pre-eminent youth organisation in Australia,’ even further.

Youth Program

The highlight of the Youth Program portfolio was undoubtedly the resounding success of the 2013 Australian Jamboree held in Maryborough, Queensland. The people of Maryborough watched in amazement as this Jamboree city of 11 360 participants, including 335 personnel, grew from a concept to reality in four years. Scouts were impressed by the support from the local community; and the community was just as impressed by the model behaviour of the visiting Scouts and their Leaders. Chief Director, Pieter Van Der Kamp and his organising team deserve special mention: they not only delivered an outstanding program for the 8387 Scouts attending but they delivered within budget, on a community owned site some 300 kilometres from home base. Thank you to the AJ2013 Organising Committee, Queensland Branch Executive and Jamboree teams. They have clearly demonstrated how to plan and execute a major event, setting the bar very high for Branches conducting future events.

In parallel with AJ2013, we had 534 Venturer Scouts and their Leaders on expedition in quite different climatic conditions, in the South Island of New Zealand. After pre-tour excursions in the North Island, the Australian Venturer Scouts headed to Queenstown in the South Island. There, they entertained themselves in activities like white water rafting, paragliding, parasailing, jet boating and luge, before being transported to the campsite at Riverton Racecourse to marry up with the New Zealanders for the 12th New Zealand Venture. Participants then spent the next nine days rotating through a series of expeditions ranging from hiking, scuba diving, survival, through to paint ball, live DJ’s and cinema. This was the largest Contingent that Scouts Australia has ever raised to attend an overseas event. The people of Maryborough watched in amazement as this Jamboree city of 11 360 participants, including 335 personnel, grew from a concept to reality in four years.

Participants then spent the next nine days rotating through a series of expeditions ranging from hiking, scuba diving, survival, through to paint ball, live DJ’s and cinema. This was the largest Contingent that Scouts Australia has ever raised to attend an overseas event. The people of Maryborough watched in amazement as this Jamboree city of 11 360 participants, including 335 personnel, grew from a concept to reality in four years.
year we covered Disability Awareness and this year, International Scouting. The programs were developed by John’s small specialist team and placed on a website for access via the internet. Participants were rewarded by the issue of a special badge.

During the 2012 Scouts in Action Week program, 30,419 members of Scouting participated in a variety of International activities. This included 700 overseas participants from ten other National Scout Organisations and more than 1000 members from Guides Australia. Over the three years of operation, the Scouts in Action Week program has involved 100,000 members, demonstrating that well-designed youth activities can be successfully delivered via the internet.

Congratulations to John Parr and his supporters at the Gumdale Scout Group. They should be proud of their contribution to National Scouting.

The Rover Review Implementation under the Guidance of National Rover Adviser, Leah Bach, is progressing well, with completion of most of the recommendations emanating from the Review. The team has redesigned the Baden-Powell Scout Award and presented a proposal to the National Operations Committee for approval. The new Award is more aligned to normal Rover Scout operations and only provides one pathway with the addition of an intermediate St George Award. Its logical Award achievement process, with activities well within the scope of the average Rover Scout, has already received positive feedback from Rover Scouts and Advisers, who have been briefed on the proposal. Implementation is expected to commence in January 2014 with a launch at the Western Australia Moot (WAM).

John Clarke, National Commissioner, Youth Program, has been working steadily on building the capability of Scout Central to provide a useful program source for Leaders and to find a better way of linking the various Sectional Programs, particularly with regard to leadership development and Areas of Personal Growth, appropriate to the age range. He has created a National Program Committee, mainly consisting of Deputy or Assistant Chief Commissioners responsible for the Youth Program within their respective Branches. This single point of contact per Branch, with authority to make decisions regarding program issues, has been very successful. It has significantly improved our capability to implement changes and improvements to the Youth Program. John is also the sponsor of our youth development programs and deserves a special mention for his work in supporting the Mawson Leadership Course for Venturer Scouts and operation of the National Youth Council.

The National Youth Council (NYC), under the leadership of Chair, Christina (Chris) Neilsen and supported by National Youth Council Adviser, Steve Tyas, has successfully completed the restructure which commenced three years ago. The Council is now meeting face to face, twice a year and each Branch now has one appointed representative on the Council. The additional face to face meeting has enabled the NYC to engage in a lot more personal skills development while the Branch nominated representatives have fitted in well, creating practical links with the Branch Youth Forums, where they exist.

International

It appeared that 2012/13 might be a relatively quiet year for international activities until, Neville Tomkins OAM JP, John Ravenhall AM and I attended the Council for South Pacific Scout Associations at Nouméa in June 2012. While learning about the great support for Scouting in Noumea and to some extent French Polynesia, by the French Government, we discovered that nearly all of the other South Pacific National Scout Organisations (NSOs) are struggling, with the Papua New Guinea (PNG) Scout Association in urgent need of assistance. As a consequence, Neville, Kirsty Brown OAM Chief Commissioner Queensland Branch and I visited Port Moresby in October 2012, to get a clearer picture of the assistance needed in PNG – one of our Constituent Branches at the formation of Scouts Australia in 1958. As a consequence, National and Queensland Branch, in partnership, have agreed to review the PNG Youth Program, train the Leader Trainers necessary to implement the new Program and assist in the refurbishment of the Training Centre.

While it was pleasing to see Government support for the growing Scout Movement in Fiji, this Association needed practical support to operate a National Headquarters (HQ) and set up a National Training Centre which could serve as a hub for training South Pacific Scout Leaders. Neville Tomkins was successful in developing and submitting a proposal for an Australian Youth Ambassador for Development (AYAD) to assist the Fiji Scout Association to develop its National HQ. It’s a delight to announce that Libby Davison, recent Chair of the National Rover Council, was successful in winning the AYAD position.

Libby commenced in Fiji in early May 2013. Because of our focus on Timor-Leste and more recently PNG, I asked the South Australia (SA) Branch to review the situation in Fiji and to determine what they could do to assist. I am pleased to advise that the SA Branch has undertaken to assist in the refurbishment of facilities at the Training Centre and to partner with National in reviewing the Youth Program.

The highlight of the Youth Program portfolio was undoubtedly the resounding success of the 2013 Australian Jamboree held in Maryborough, Queensland. The people of Maryborough watched in amazement as this Jamboree city of 11,360 participants, including 355 personnel, grew from a concept to reality in four years.
Meanwhile, in Timor-Leste, development of the operational and administrative functions necessary for a functional National Scout Association have slowed to ‘island pace’ despite the positioning of a second AYAD and a full time Project Officer, Chris Doidge, in their National Office in late 2012. I invited Abdullah Rasheed, Asia-Pacific Regional Director of the World Organization of the Scout Movement (WOSM) to join me and Richard Miller on a delegation to Dili, in May 2013, to confirm the commitment of the elected UNE-TL Executive Committee to becoming a member of WOSM. However, the Leader training has run to plan with two successful programs conducted in Dili during 2012 with the first attempt to run their own basic training course in late April 2013.

Our International Commissioner, Neville Tomkins is to be commended for his fundraising efforts in the ‘Dollars for Dili’ partnership between the ACT Government, Rotary and Scouts Australia. Neville has raised the ‘lion’s share’ of over $30 000 currently sitting in the account, waiting for a parcel of land to be allocated for the UNE-TL National Training/Activity Centre. Despite personal intervention by Mrs. Kirsty Sword-Gusmão, wife of the Prime Minister of Timor-Leste, the process of obtaining a suitable piece of land has been prolonged and frustrating. Neville has personally inspected a number of prospective sites over the last couple of years and has doggedly driven this initiative, conscious that we could lose some of the promised donations should it drag on too long. However, I’m pleased to advise that there is ‘light at the end of the tunnel’, and we anticipate completing this project in 2013/14.

We were unable to undertake the building of the second sanitary facility in Dili during 2012/13 because of insufficient funds on hand at the time. However with the Centenary of Canberra in 2013 and a resurgence in donations through the ‘Dollars for Dili’ campaign, we are now on target to complete the upgrade and refurbishment of the Fatuhada Primary School, including providing an additional eight toilets, in May 2013.

Perhaps the highlight of the year was the visit to Bangladesh in November 2012 to attend the 24th Asia-Pacific Region Scout Conference. Steve Tyas, NYC Adviser; Chris Neilson, NYC Chair; and Shaun Sandilands, NRC Chair; featured in the organisation and/or conduct of the preceding Youth Forum. In addition, Graham Coates and his wife Jill, representing MindVision Interactive, showcased our e-Learning program. Graham’s presentation to the Conference resulted in 19 NSOs seeking further information about the program. SA Rover and Branch Commissioner SA Youth Council, Nick Banks attended the Conference as Australia’s Top Scout and during the Conference was interviewed and selected as one of the three successful nominees for the APR Top Scout Award – congratulations to Nick. The Conference of over 800 delegates and observers was well organised and a great deal of interest was shown by the Prime Minister of Bangladesh and her Cabinet members.

I have already mentioned a number of my National Commissioners and Advisers; and while I haven’t the space to mention them all by name, I would like to acknowledge my hardworking National team – they have all done a magnificent job. The extended National team includes my colleagues, the Branch Chief Commissioners and I would like to extend my personal thanks to this great group of people, all of whom are dedicated to delivering the best Scouting experience they can to our youth members. Last but not least, I must thank the National Office staff, especially Norma Cooper, who has had to pick up the role of Office Manager very quickly, and Natasha Omar, our National Marketing Communications Manager. Natasha also attended AJ2013 and with this experience learnt so much about Scouting. Every member of the office team is a pleasure to work with and is always prepared to go the ‘extra mile’.

Thank you all. It is indeed a pleasure to serve as your Chief Commissioner.

Reg Williams RFD
Chief Commissioner
It is with great pleasure that I present to you the Annual Report for the year ending 31 March 2013 on National Scouting from the layside perspective.

This year, the Executive, National Team and Branch Chairmen have had quite a few items of concern such as the new Harmonised Work Health and Safety (WH&S) rules; and of course the recently announced Federal Government Royal Commission into Institutional Responses to Child Sexual Abuse.

A Risk Management Committee consisting of members from each Branch has been formed to look at how they can deal with the requirements of the WH&S laws and their effect, particularly on our Scout Groups and properties.

In the case of the Royal Commission, a National Advisory Committee has been formed. The Committee includes three legal people and other Scouting personnel to look at how to deal with the Commission’s requirements regarding the reporting procedures that various Scout Branches have in place and the provision of any files within their possession.

As you may know, Scouts Australia has a zero tolerance and a mandatory reporting policy in relation to these situations. The Association has made a public commitment to cooperating fully with the Royal Commission in the production of any requested files or information.

With regard to the finances of the National Association, the Finance Committee and National Executive are responsible for the overall finances. Last year I reported that due to changing our investment policy, our budgeted deficit resulted in a surplus.

This year I am very happy to report that we have actually done better than last year with the budgeted surplus of $2819 resulting in an actual surplus of $208,066 – a great result I am sure you will agree.

Furthermore, across our various fund accounts, the return has averaged 22.45% for the year. This compares with the ASX 200 Accumulation Index return of 19.98% – an outstanding performance!

Based on the value of our portfolio as at 31 March 2013, our value has increased by well over $1.5 million since the start of the year. This has meant that we have been able to replace the funds used previously for our various projects such as e-Learning, the Timor-Leste project and support for our other Youth Programs.

The Executive continued with the National Strategic Plan and the following objectives for 2012/13 year were agreed by the National Executive Committee, with most Branches subsequently integrating the National objectives with their own:

- Identify best practice program delivery framework and promote Nationally.
- Every Branch to fully implement the adult development plan (Adults in Scouting policy).
- Identify and promulgate specialist Activity Leaders and promote significant Adventurous Activity events within Branches and Nationally.
- Secure Memorandums of Understanding (MOU) with critical partners, eg. Government, Red Cross, Duke of Edinburgh and Rotary, to fund/support key programs.
- Develop a National information management and business process collaboration strategy.
- Develop a National digital media strategy and commence implementation in 2012/13.

A highlight in the partnership objective was the recent agreement forged with Canoeing Australia for the Scouts Australia Institute of Training (SAIT) to be their Registered Training Organisation (RTO) for the issue of VET qualifications associated with canoeing activities.

While Canoeing Australia trains people in canoeing activities and issues their own qualifications, they require an RTO to assess the training achievement and issue a statement of attainment for those clients.
This year I am very happy to report that we have actually done better than last year with the budgeted surplus of $2819 resulting in an actual surplus of $208,066 - a great result I am sure you will agree.

who also want to obtain a VET qualification in Outdoor Recreation. Canoeing Australia is the peak body in Australia for canoeing activities and our partnership with them will be extremely beneficial to both parties.

As a result of the financial loss incurred by the New South Wales Branch in hosting the 2010 Jamboree, a Committee represented by most Branches was established to compile a manual which would set out the recommended procedures for all future major events including Jamborees, Ventures and Rover Moots.

This Committee has been meeting over the past year or so and has just finalised the Jamboree Section of the manual. Queensland Branch largely followed the manual procedures along with some of its own improvements and ran a highly successful Jamboree at Maryborough in January 2013. Our congratulations go the Pieter Van Der Kamp, his team and the Queensland Branch for running such a great event.

E-Learning has continued to be refined and improved to the stage that it is now fully operational; and I am told by most Branches that they are now saving training costs by the implementation of the e-Learning training modules.

Our thanks go to Paul Parkinson, former National Commissioner for Adult Training and Development, and Graham Coates of Mindvision Interactive for all the hard work they have put into developing the program.

The Lord Baden-Powell Society also continued to grow during the year with the introduction of an Honours Circle at various levels to promote the Society. This was due to the wonderful effort of Maggie Burke, Manager of the Society.

During the year, the Society also assisted a record number of youth members to attend the Jamboree in Queensland.

Finally in closing, I would like to thank all members of the National Executive Committee, the Branch CEO’s and of course the Chief Commissioner, Mr Reg William RFD and his team, together with Richard Miller, Luke O’Brien, Ross Waldron and all the staff members in the National Office.

Thank you for your help and support during 2012-13.

David W. Jones AM FCA
Chairman, National Executive Committee
AJ2013 – The 23rd Australian Jamboree

The year drew to a close with a resounding success as 11,360 participants from Australia and overseas converged on the highly anticipated 23rd AJ2013 to Dream It! Live It! in Maryborough, Queensland. This triennial Jamboree, the largest Scouting event in Australia, ran for ten days from 2-12 January 2013. Scouts, Venturers, Rovers, Leaders and other personnel congregated in 255 Troop sites spread over six camping grounds – four for Scouts, one for Venturer Scouts and one for Leaders and others.

In addition to the Australian Scouts and Leaders, the Jamboree was attended by 225 Scouting members from 13 countries – New Zealand, Indonesia, Timor-Leste, Japan, Papua New Guinea, Tonga, New Caledonia, United Kingdom, United States of America, Canada, Netherlands, Switzerland and Hong Kong.

AJ2013 is a prime example of what Scouting is truly about, with youth not only proving their Scouting skills by earning a Badge, but also learning life skills and growing through adventure. Participants cooked for themselves, kept their sleeping area and campsite clean, participated in

Highlights 2012-2013

Dream It! Live It!
2013 Australian Scout Jamboree
Pop sensation Jessica Mauboy was one of the many performers at AJ2013 allowing Scouts to develop entrepreneurial skills and creativity as they sold products for ‘SpendIts’ – the Jamboree currency – in an attempt to win a prize. In addition, there was a Jamboree Street party, allowing Scouts to socialise with their new friends.

AJ2013 gained international recognition. On Saturday, 5 January, the Jamboree was visited by His Excellency Mr. Nadjib Riphat Kesoema, Indonesian Ambassador to Australia, and Mr Junzo Fujita, the Japanese Consul-General to Queensland. They were able to visit Scouts from their respective countries in their Troop lines. That evening, an International Reception included cultural displays by Scouts from New Zealand, Japan, Australia, and Mr Junzo Fujita, the Japanese Consul-General to Queensland. They were able to visit Scouts from their respective countries in their Troop lines. That evening, an International Reception included cultural displays by Scouts from New Zealand, Japan, Australia, and Mr Junzo Fujita, the Japanese Consul-General to Queensland. They were able to visit Scouts from their respective countries in their Troop lines.

The logistics of hosting an event as large as AJ2013 were mind boggling, with numbers extending far beyond the people involved. For instance, the 11360 Scouts, Leaders and other personnel did not have to worry about getting hungry, with the vast amounts of food being supplied. With 114 000 eggs sent to the site, they enjoyed a lovely breakfast while toasting some of the 22 500 loaves of bread – for a traditional baker’s dozen, that’s 292 500 slices! Wash that down with a portion of the 48 900 litres of fruit juice and you’re ready for the day. During the day, Scouting members did not have a chance to get peckish, with approximately 340 000 snack bars and 340 000 juice poppers. Come dinner time, to refuel the participants for the night’s events, they had the option of 1400 kilograms of spiral pasta or over 6510 kilograms of baked beans. That involved a lot of gas – 9000 kilograms in 1000 gas bottles to be precise.

While most 18 year olds celebrate adulthood by buying their first beer and partying late into the night, Megan commemorated turning 18, by becoming Scouts Australia’s youngest Leader. She is currently the Group Leader of Erindale Scout Group (ACT). During the Jamboree, she again stepped up, choosing to take on the added responsibility of being a Line Leader for 36 young Scouts, rather than just being an Activity Leader, which is what many of the younger Leaders chose to do. When asked how she embarked upon this pathway of Leadership in Scouting, Megan said it was the Mawson Scholarship which inspired her to lead:

“I learnt through the Mawson Scholarship that to be a Leader you did not have to just direct and order people but lead by being a role model...my maturity grew – that’s what my mum says anyway! It allowed me to believe I could actually go out and do something to make a difference within kids.

Rosemary Hayes, Megan’s mother said their family had been in Scouting for 22 years and all her five children had achieved their Queen’s Scout Award. Rosemary agreed it was the Mawson Leadership Course which really changed her daughter:

After the Mawson Scholarship she had more confidence in herself and her leadership abilities and told me she wanted...
Scouts Australia have had qualifications in Certificate II, Certificate III and Certificate IV in scope since July 2011, and Peter was presented with the first Certificate issued by SAIT. It’s pretty significant because this is an area we are trying to focus on at the moment and develop our capacity and skills of our leaders to provide a better Youth Program. Peter is the first of what will be many Certificates issued to Venturer Scouts, Rover Scouts and Leaders in Outdoor Recreation Leadership Skills.

Peter was really proud to be the first person to receive an award in Outdoor Recreation from Scouts Australia:

It’s been a lot of work and it’s all finally paid off. I’m glad I’ve done it. It took me two to three years of hard work to achieve this Certificate.

Peter, who is a Regional Commissioner in the far north region of Queensland, said his qualifications would really help him to involve more Scouts, Venturer Scouts and Rover Scouts in outdoor recreation.

Scouts Australia will also be opening its first National School in Adventurous Activities at Cataract Scout Park in January 2014. According to Phil Harrison, the first National Adventurous Activity School would see up to 150 Venturer Scouts working towards their Certificate II in Outdoor Recreation over the two weeks. There would also be an opportunity for Rover Scouts and leaders to work towards their Certificate III in Outdoor Recreation; or if they had some skills and experience, the option to work towards their Certificate IV in Outdoor Recreation.

Peter’s comment on this Scots Australia’s initiative:

This is very cool. I’m actually going to book up myself and go and do more training as well as have three to four Leaders from my Region attending.
All the recommendations have been disseminated to the appropriate Teams, ensuring they are ‘acted upon’ as soon as possible. Youth Forums are a key component of all major Scouting events in Australia, to facilitate the largest possible youth voice.

Congratulations to Steve Tyas, our retiring National Youth Forums Adviser, for his dynamic approach to empowering our youth members and ensuring their engagement at all National events.

12th New Zealand Venture

January 2013 was also the month for another exciting adventure, Venture South, the 12th New Zealand Venture, held from 5-14 January in Invercargill, Lower South Island. Scouts Australia sent 534 participants to the Venture, making this the largest Scouting Group to ever leave Australian shores (even exceeding Australia’s 2012 Olympic Contingent).

Venture South, designed around the motto ‘XCITE, XTREME, XPAND, XPERIENCE’, far exceeded the expectations of all, according to Contingent Leader, Gary Steinhardt, who had nothing but praise for the exciting event:

The monster trip included a nine night pre-tour, which left on 27 December and covered both the North and South Islands. The North Island activities included a traditional Maori Cultural experience, Hell’s Gate Thermal Pools and Baths and even private use of an entire adventure theme park for two nights! We finished in Auckland with a massive New Year’s Eve party led by New Zealand’s premier DJ, before flying to Queenstown for five days of non-stop adrenaline paced activities in the adventure capital of the world. Participants had the chance to go jet boating, white water rafting, mountain biking, parasailing and even experience the world’s biggest swing (over 350 metres)! The pre-tour was a fantastic chance to make new friends and challenge oneself with some of the most unique activities and scenery in the world.

It was then onto the Venture itself – the main event and centrepiece of the trip. The Contingent met with the Kiwis, and quickly formed into Expedition Groups.

The next five days were spent in units of nine youth and a Leader, all spending time on a whole host of journeys, challenges and experiences.

The range of expeditions included Scuba Diving, Sailing, Hiking, Mountain Biking, Adventure Tours, Rural Living, Survivor, Kayaking, Photography and an Amazing Race. All Expedition Groups experienced a range of different activities and plenty of chances to try new things and push personal boundaries.

The excitement of Phase One expeditions flowed into Phase Two, with everyone arriving back at the Venture site brimming with stories, memories and photos to share. Friendship groups merged and so the network of mates grew, often stretching between nations. A host of on and off-site activities was available, some relaxing and some more intense. There were themed nights and dress-up parties, a Region vs. Region Tournament and even an on-site radio station broadcasting around New Zealand and Australia online! The City Tour was a...
welcome chance to check out the local town of Invercargill and to restock on essentials, as well as pick up some souvenirs.

Credit must go to all involved in organising and executing such an incredible trip. Pulling together a Contingent so large from all corners of Australia is a remarkable feat and required many long days and late nights that were, without question, totally worthwhile. Thanks must also go to our Kiwi counterparts, the Australian Leaders who accompanied us and of course the Venturer Scouts themselves – the reason this is all put together. Without exception, all the youth and Leaders alike have raved about the whole trip, with different people picking different parts as their highlight. Set in a country renowned for its rich Maori culture, extreme adrenaline stunts, incredible adventure activities and unique and breathtaking scenery, the New Zealand Venture 2013 – Venture South – was exactly what it was promised to be: the absolute trip of a lifetime for all those involved.

Australian Venturer Scout, Mel Varco, found Venture South, a trip he will never forget. The highlight of his pre-tour activity adventure was getting muddy at the famous Rotorua Mud Baths:

The constant smell of Sulphur Dioxide (rotten egg gas) made the mud baths so much more inviting. What we didn’t know though, was that as soon as you step out of the baths you smell disgusting and ALL of your clothing would smell and it would last a lifetime. This terrible smell would seep into all of your clean clothing and render them dirty. Even washing them with other Sulphur smelling clothing could cause a never ending cycle.

After the pre-tour activities, Mel greatly enjoyed meeting new people and bonding with other Venturer Scouts from Australia and New Zealand during all the exciting Expeditions, which included Southland Adventure tours, Sea Kayaking tours, Rock climbing Tours, Rural Living and Photography. He said:

Expedition is a time on Venture where you have the opportunity to form friendships that will last a lifetime, along with having the chance to participate in some wonderful and challenging activities.

On returning to the Venture site, Mel continued to be entertained by the huge variety of on-site activities like Challenge Valley, Car Wreckers, The Jelly Pit, Arts and Crafts and nightly parties, which included fun themes like Under the Sea, Onesies and even a Beach Party. Mel added:

With the close of the Venture it was with great sadness and tears that we all left the site, saying our final goodbyes to all of our lovely new Zealand friends. This trip was really the trip of a lifetime and something that I will never ever forget. However, it would not be possible without the help of the very dedicated team of people, all of whom organised the entire Aussie Pre-tour and Aussie Contingent.

On the behalf of all of the members of the 2013 Australian Contingent, I would like to thank Gary and Phillip, Fiona, Sharon, Rob and Kusi and the rest of the entire team of Leaders for all of their hard work and dedication over the past few years. Their hard work paid off and a great time was had by all!

Scouts Australia Goes Digital

The year has been a great one for Leaders and youth around Australia, with Scouts Australia releasing exciting new digital products like Scout Central, new Digital Media Guidelines, the Scouts Oz App and e-Books, to make Scouting easier, more accessible and fun.

Scout Central for Leaders

To kick things off, in 2012 Scouts Australia launched Scout Central, Scouts Australia’s new digital portal for Leaders, created to provide them with the best possible resources by helping them to save time, become more efficient, effective and better informed in delivering great Scouting!
Scout Central has become the ultimate online destination for Leaders, giving them the latest Scouting resources and information at their finger tips. In 2013, Scout Central will also have a Program Builder to assist Leaders with putting together complete programs of their Section, be accessible via Smart phones and much more.

**National Digital Guidelines**

In addition to Scout Central, Scouts Australia also developed Nationally ratified Digital Media Guidelines to protect its youth and adult members; and ensure they play the game of Scouting safely online and via their mobile phones.

**Scouts Australia Launches Scouts Oz at AJ2013**

During AJ2013, Scout Australia launched its second digital product, an app called Scouts Oz. This App, developed for both Android and iOs devices, has been created for its youth and Adult members to revolutionise Scouting, helping members to Be Prepared for New Adventure in the digital age. It not only has features like a National Scouting news feed, Award Scheme Section and some highly entertaining videos, but for the first time also has a National Scout Venue Locator, which lists Scout Halls, Activity Centres and Campsites across the country.

Scouts Australia held a Competition to promote the launch of the App. Five iPad Minis were won by five winners who best described what they most liked about the Scouts Oz App and how it would help them. The competition proved to be highly successful, with almost 1000 responses from across Australia and over 3000 downloads of the Scouts Oz App on Android and iOS phones during this time. Judged by Scouts Australia’s Ambassador and Australia’s most accomplished mountaineer, Andrew Lock OAM, the five winners were announced on 22 February 2013, Founders Day.

**More Digital Products to Come**

Scouts Australia is currently developing a National e-Store and has already started releasing some of its exciting e-Publications and e-Song Books along with other resources and tools for Leaders, youth and parents. It is also developing an interactive Record Book App, another digital portal for youth similar to Scout Central and an array of other exciting digital products.

So Be Prepared for New Adventure as Scouts Australia revolutionises Scouting for Leaders and youth around Australia.

**International Scouting**

Maintaining the new approach adopted to International Scouting in 2010, the past 12 months have seen new opportunities actively pursued, and existing programs expanded. All efforts have been aligned with Scouts Australia’s vision that ‘every youth member of Scouts Australia has an International Scouting experience’ regardless of its shape or form.

**Timor-Leste Scouting**

Support for the growth and development of Scouting in Timor-Leste remains Scouts Australia’s highest priority International development project. Scouts Australia now has a multi-faceted program in place to assist the Timor-Leste Scout Association (União Nacional dos Escuteiros de Timor-Leste – UNE-TL) to enhance its capacity. This is in response to a request from the Asia-Pacific office of World Organization of the Scout Movement (WOSM) to help UNE-TL seek WOSM membership.

Over the past 12 months, Scouts Australia has continued to support Leader training. Funded by the Messengers of Peace (MoP) initiative, work to date has seen 30 Leaders complete their Advanced Leader Training, and ten Leaders complete the ‘Training of Trainers’ Program. The remaining two activities will see about 60 Leaders complete their Basic Level Training, positioning UNE-TL to deliver their own training in the future.

Scouts Australia has also been successful in obtaining a second Australian Youth Ambassador for Development (AYAD) for UNE-TL. Michela Renders started in July 2012. Her assignment has been to develop and implement a National Youth Program, and help to develop the National organisation (incorporating Regional structures).

Through financial support from Scouts Australia, the 1st Haberfield Scout Group and external sources, seven youth members and one Leader attended AJ2013. Chris Doidge (former Chief Commissioner, Northern Territory Branch) has been filling the role of Project Officer for UNE-TL since November 2012. His position supports the Timor-Leste National Scout Council with implementing its priorities, including strengthening its National Office.

Under the banner of ‘Dollars for Dili’, Scouts Australia continues to work hard to attract funds which will assist with the construction of an Activity Centre and a sanitation and health block in a second Dili primary school.
Asia-Pacific Region (APR)

The 24th Asia-Pacific Region Scout Conference, 7th Youth Forum and APR Course for Leader Trainers were held in Bangladesh in November 2012. Of the 31 million Scouts worldwide, about 18 Million are located in the Asia-Pacific Region, including Scouts Australia. As a result, these three Regional events were a huge undertaking and the Bangladesh Scout Association is to be congratulated for how well they hosted these events.

With the theme of ‘Scouting: Bridging the Gap,’ the Youth Forum was attended by 71 youth members from 24 countries and was the first of these events. Led by Shaun Sandilands (QLD), Australia’s Contingent comprised of Chris Neilsen (VIC), Kathy Radoslovich (SA), Nick Banks (SA) and Tahlia Siddall (TAS).

This was followed by the APR Scout Conference, held in Dhaka. The Conference was extremely successful, offering valuable experiences for Australia’s Contingent.

Particular highlights included the presentation of the APR Distinguished Service Award to John Ravenhall and the APR Chairman’s Award to Peter Blatch. In addition:

- Nick Banks (young Leader and Branch Commissioner, South Australia Scouts) was announced as one of the three winners of the APR Outstanding Scout Award;
- Paul Parkinson was elected as a Member of the Regional Scout Committee;
- Richard Miller was appointed as Chair of the APR Profile Sub-Committee;
- Reg Williams, David Jones and Neville Tomkins were appointed as members of the Management, Finance, and Adult Support Sub-Committees respectively;
- Dr William Wells was appointed as Vice President of the APR Foundation Management Committee; and
- John Ravenhall was appointed as a Member of the APR Awards Committee.

Scouts Australia is proud of the contribution it has made, and continues to make, to Scouting across the Asia-Pacific Region.

Australia-Japan Foundation Grant

Scouts Australia was pleased to be advised by the Australia-Japan Foundation that its application for a grant of $28 271 had been successful. That grant enabled Scouts Australia to bring four Scouts and one Leader from the earthquake and tsunami devastated region of north east Japan, to AJ2013; and to have a Japanese Scout participate in our Scouts International Student Exchange Program. The grant will also promote friendship between Scouts Australia and Scouts of Japan through the Pen-Pal Program. Sponsorship was also received from Snowgum Australia to assist the Japanese Scouts and Leader with clothing and camping equipment.

Council of South Pacific Scout Associations Forum

The Council of South Pacific Scout Associations (CSPSA) Forum and Workshop was held in Nouméa, New Caledonia from 16 to 20 July 2012. The Forum and Workshop were attended by Reg Williams, Chief Commissioner; John Ravenhall, former Chief Commissioner; Neville Tomkins, International Commissioner; and Stuart Sandell, a NSW Leader who worked for nine months with the Vanuatu Scout Association, under an AusAID Program. The Forum provided opportunities for networking and fostering closer relationships with countries in the Pacific region.

Fiji Scouting

Following the CSPSA Forum, Scouts Australia and the Fiji Scout Association applied to the Australian Government for an AYAD to volunteer with the Fiji Scout Association for 12 months. Former National Rover Council Chair and Victorian Fellowship member, Libby Davison was appointed to this position and commenced her assignment in May 2013.

Scouts Australia is currently developing a National e-Store and has already started releasing some of its exciting e-Publications and e-Song Books...
Papua New Guinea (PNG) Scouting

A further outcome of the CSPSA Forum was a fresh look at ways Scouts Australia could support the development of Scouting in PNG. Reg Williams, National Chief Commissioner; Kirsty Brown, Chief Commissioner, Queensland Branch; and Neville Tomkins, International Commissioner; visited PNG Scouts in October to discuss ways Australia can support PNG.

At the request of PNG Scouts, specific initiatives will be pursued over the coming years.

Major International Events

29th APR Jamboree

The 29th APR Jamboree in Sri Lanka was attended by 32 youth members and Leaders during April 2012. Australian Leaders hosted over 5000 Scouts in their APR Village display and activity, illustrating Scouting in Australia and Aboriginal culture.

70th New Zealand Rover Moot

Over the 2012 Easter weekend, 24 Rover Scouts from around Australia participated in the 70th New Zealand Rover Moot (5-9 April 2012). New Zealand Moots incorporate the three foundations of Rovering: Service, Self development and Social. Over the long weekend, events and activities built on these three Scouting tenets, culminating in a host of exciting things to do and see. Activities ranged from a Service Activity at a small school, a day tour, a healthy competition of tug-of-war, cross country activities, shooting, paintball and a scavenger hunt. As part of the post-event tour, 11 Contingent members visited Kerikeri in the Bay of Islands, Rotorua and Auckland.

Commonwealth Youth Forum

Following a nationwide advertisement and assessment by an independent panel, Chris Neilson, NYC Chair, and Katy Tomkins, ACT Rover, attended the first Commonwealth Scout Youth Forum in London from 27 to 30 April, 2012. It included a one-day youth forum, and one day of networking in London including a reception at Marlborough House, headquarters of the Commonwealth Secretariat. Our delegates also attended the United Kingdom Scout Association’s annual Scout Parade at Windsor Castle. As 2012 was the Queen’s Jubilee year, the Queen herself attended the parade along with the UK’s Chief Scout, Bear Grylls.

Rajan’s International Scout Gathering of Centennial (RISGO) Jamboree, Sri Lanka

Scholarships were awarded to three Venturer Scouts – Liam Furchow (WA), Rebecca Parish (VIC) and Kate Broekman (NSW); and one Leader, Vicki Knopke (QLD), to attend the Rajans International Scout Gathering of Centennial (RISGO) in February 2013 at Lake View Park International Scout Centre, Kandy, Sri Lanka. The trip concluded with a reception at the Australian High Commission, Colombo.

This rounded off the incredible experience, giving our youth a better understanding of Scouting in Sri Lanka.

International Scout Peace Camp, Indonesia

Three Rovers – Laura Powe (QLD), Tegan Cree (NSW) and Andre Selton (VIC), attended an International Scout Peace Camp, from 25-31 March 2013 in Jakarta, Indonesia.

The event was hosted by Gerakan Pramuka and partly funded through the Messengers of Peace initiative.

Kandersteg International Scout Centre

The past year saw several Scouts Australia youth members and young Leaders volunteer at the Kandersteg International Scout Centre. Two Rover Scouts, David Langron (NSW) and Lisa Picking (VIC), were appointed to long term positions. In addition, Sarah Jane Petts (NSW) and Dylan Hunt (SA) spent three months donating their time to manage and maintain the Centre and to run activities.

This is Lord Baden-Powell’s vision of a permanent Jamboree, where Scouts from all over the world come together. Our young people are well regarded at the Centre and return with unique experiences.

Scholarships to Australian Events

Scouts Australia’s sponsorship of youth from neighbouring Scout Associations to attend key Australian Scouting events continued during the year. These scholarships are crucial to capacity building in the Asia-Pacific Region and extending the Scouting hand of friendship to our nearest neighbours.
Through its own funds and external donations, Scouts Australia supported seven Scouts and one Leader from Timor-Leste, two Scouts from PNG and two Scouts from Indonesia, to attend AJ2013.

During this time, the sponsored overseas Scouts camped with Australians in their Troops, ensuring that opportunities arose for a two-way of exchange of language, culture and Scouting ideas. Before and after events, scholarship holders were hosted by Australian Scouting families.

International Programs

Pen-Pal Program

2012/2013 was a very busy year for the Pen-Pal Program with Scouts in Action Week increasing registrations from Branches that had not regularly participated in the Program. The Pen-Pal Program has linked Scouts with 26 countries. A record 690 Australians registered for the Program during the year.

The four Japanese Scouts funded through the Australia-Japan Foundation grant were linked at AJ2013 with Australian Scouts who speak Japanese. The eight youth members met regularly during Jamboree, getting to know each other.

Opportunities for the use of SKYPE, JOTA-JOTI and other technological media have continued to be popular ways of communicating with Pen-Pals throughout the year. The Pen-Pal Program facilitated a SKYPE link at the Australian Jamboree with a South Australian Scout Troop and their Canadian Pen-Pal Link.

Scout International Student Exchange Program (SISEP)

Through the Scout International Student Exchange Program (SISEP), Scouts Australia families hosted for a two month period, 15 Venturer Scouts from Denmark, England and Japan. The Program also saw 17 Australian youth members live in those countries for the same period of time, enjoying home hosting, school and Scouting.

2012 Jamboree of the Air and Jamboree of the Internet (JOTA-JOTI)

The 2012 Jamboree of the Air (JOTA) and Jamboree of the Internet (JOTI) was held on the weekend of 20-21 October and attracted interest from all States and Territories of Australia and from most countries around the world.

Through JOTA-JOTI, every member of Scouts Australia can make friends, exchange stories, experience different cultures and have fun as part of the largest activity in World Scouting. JOTA-JOTI also gives youth members an awareness of belonging to a worldwide Movement.

Messengers of Peace

The International Commissioner attended the Asia-Pacific Region Messengers of Peace Coordinators gathering in Manila, Philippines, during February.

Branch Activities

New South Wales (NSW) Branch held their Annual Showcase and supported National Programs and Contingents. Program support was provided to Vanuatu Scouting and New Caledonian Scouts. A visit from Mr. Yannia Melahrinoudis, Commissioner for Greek Scouts Abroad, who was here to promote the Centenary of Greek Scouting, presented Scout Groups from both NSW and Victoria (VIC) with Recognition Awards from his Association.

A group of 18 Victorian youth and carers attended the Japanese Agoonoree in July. Another Victorian Scout Group visited Nauru during the year and hosted the Tongan Contingent to AJ2013. The South Australian Branch Senior Leadership team embarked on an Ambassadorial visit to Fiji, to evaluate how our two Scout Associations may be able to work together for the benefit of youth in both Fiji and South Australia.

Queensland (QLD) Branch hosted several Contingents and individuals attending AJ2013. The Branch International Commissioner provided dental treatment to Timor-Leste and PNG youth members at the Jamboree and they returned home with full dental health.

The Western Australia (WA) Branch formed the largest part of Australia’s Contingent to the 29th APR Jamboree in April 2012. In November 2012, some 30 youth and adult members of the Yuan Ching Cougar Scout Group (Singapore) visited Perth and were hosted by the Joondalup Scout Group. This was followed in January 2013 by a small but dedicated Contingent of two WA Rovers and one VIC Rover, accompanied by the WA Branch Commissioner International, to fulfill their mission of visiting India and delivering a Scouting Skills workshop to the young Scouts of Troop 1992, located
in the Chandrabhaga slum in Ahmadabad. A highly successful adventure camp at the Mt Abu Scout facility in Rajasthan followed. Troop 1992 was founded in 2010: a collaboration between the Bharat Scouts and Guides, Scouts WA and Taj Global Understanding, an American based non-governmental organisation (NGO). WA members continue to provide financial and material support to this project, which is broadly based on the WOSM ‘Ticket to Life’ Street Kid Program.

The Tasmanian (TAS) Branch actively promoted International Scouting throughout the year. Branch members participated in SISEP, Pen-pals, the New Zealand Venture as well as the APR Scout Youth Forum.

In the Australian Capital Territory (ACT), the Lake Ginninderra Sea Scouts conducted their third community service project in Lombok, Indonesia. They used a youth leadership model which meant that in addition to the community service, cultural experience and the international understanding which emerged from the project, young people also developed their leadership abilities. The Timor-Leste Project was another youth-led project from the ACT. This project was a partnership of members from three Venturer Units who travelled to Timor-Leste.

The seven Timor-Leste Scouts who were funded to attend AJ2013 received free dental treatment courtesy of the Queensland Branch

Australian Scouts assisted Indonesian Scouts through a community service project

Partnerships

Timor-Leste Partnership Project

The second project for the Timor-Leste Partnership Project is Fatuhada Public School in Dili, chosen through consultation with Dili Rotary and Scout members. Work on this project began in April/May 2013.

This continues the work of supporting students in primary schools in Dili by improving health and sanitation. It is structured to promote community capacity building by funding a local builder to construct a much-needed toilet block. Rover Scouts from Australia develop friendships with Rovers and Rotaractors from Dili by working on school improvement projects nominated by the school’s principal.

Funding support comes from Rotary Clubs, individual donations and Scouts Australia.

We continue to work in partnership with the ACT Government’s ‘Dollars for Dili’ campaign, which is part of the Canberra Centenary Celebrations in 2013, and with Rotary Clubs in NSW and Dili.

Red Cross Australia

Negotiations continue to build on the international partnership between WOSM, Red Cross and Red Crescent. Areas of interest to Scouts Australia and Red Cross include formalising and extending Scouts and Red Cross to work together at a local level in government-declared emergencies, including floods and bush fires and fundraising and blood donation services.

Scoutlink 4 Leadership

A pilot program is under way to support recruitment of younger Leaders through targeting Undergraduate University students and TAFE students.

The University of New England in Armidale, NSW, has facilitated local Scout Leaders and Group Committee members to become part of its Orientation Week.

Negotiations are proceeding around recognition of our Certificate IV and Diplomas in Leadership and Business to provide accreditation towards relevant Undergraduate Degrees and TAFE qualifications.

Reconciliation Australia and Australian Youth Affairs Coalition (AYAC)

Our involvement in the Australian Youth Affairs Coalition and Reconciliation Australia’s ‘Yarn About Youth Meeting’ in 2013 has further developed our relationship with Reconciliation Australia and AYAC.

A Reconciliation Action Plan is being investigated through a process of consultation and negotiation with stakeholders in Scouts and Reconciliation Australia. The Plan will support increased awareness for young people and Leaders, both in Scouts and among Aboriginal and Torres Strait Islanders, encouraging further inclusivity. This is a long-term process.

Chris Neilson, National Youth Council Chair, is a member of the Policy Advisory Council of AYAC, adding extra depth to a partnership with a leading youth policy organisation.
A Scout cares for the environment

Scouts Australia has had a fantastic year starting with the Scouts Australia Environment Conference and continuing with tremendous work by all involved.

Following some positive and meaningful discussions at the Conference between Gus Lloyd, National Adviser for Environment; and Reg Williams, Chief Commissioner of Australia; two people were approached to take on added responsibility for assisting with managing Scouts Australia’s environmental initiatives and partnerships.

Stephen Kingham and Patrick McCormick are the new Assistant National Advisers, with Stephen leading work on the ongoing resourcing and Patrick focussing on implementing sustainability programs and procedures.

Chris Malam (ACT) and Mel Nicholls (VIC) continue to work on the development of environmental resources for Scout Central. In 2012, Gus Lloyd dedicated his time to developing Memorandums of Understanding with Scouts Australia’s Environmental partners. He has also been busy preparing relevant paperwork and presentations for three possible Scout Centres with Excellence in Nature and Environment (SCENEs), with plans to complete their applications for mid 2014.

Our Environment team has also been working on the three Environment Training modules as part of the Scouts Australia Institute of Training (SAIT) scope. This work will lead to modules which will be both interesting and current, becoming available to all Leaders as part of their Scout Training and Development.

We have representatives at the Asia-Pacific Region Environment Conference in Taiwan this year in June and are hoping to host the 2014 Conference to showcase our resources.

Times are tough in all areas but this last year has been encouraging as we see Branches and ourselves become more resourceful in meeting our aims and plans, which naturally leads to the protection of our environment.

Scouts In Action Week – The numbers are adding up!

Three years ago John Parr (a Queensland Leader) suggested that Scouts Australia run a National activity to promote emergency First Aid training for youth members. From this initial idea, ‘Scouts in Action Week’ was born. Scouts Australia has now covered First Aid, Disability Awareness and in 2012, International Scouting.

The cumulative participation rate over the three years of the Scouts in Action Week Program has grown to 100 000 members. This is extremely impressive, considering the Program has been virtually run by just one person! In 2012, 30 419 members of Scouting participated in a variety of International activities. However, this year 700 overseas participants from ten other National Scout Organisations and over 1000 members of Guides Australia joined us. A small Australian Program is going global!

International Scouts in Action Week continued at AJ2013 with a variety of international displays and games at the National tent.

Well done to John Parr and his supporters at Gumdale Scout Group. They should be proud of their efforts to create this rapidly growing Scouting activity.

A New Team Drives The Development Of Our Youth Program

WOSM has an expectation that all National Scout Organisations have a National Program Committee. In Australia we previously accepted the five National Youth Program Meetings (meeting of the Branch Commissioners for each section) as our alternate Program Committee. Due to the changing development of Youth Program across Australia, a team needs to meet regularly, have ongoing communication and take on development tasks between meetings relating to the Scout Program. From this concept, the National Youth Program Team (NYPT) has evolved.

The NYPT consists of either the Deputy Chief Commissioner or Branch Commissioner Youth Program (for some Branches this was a new appointment), National Youth Council Chair, National Commissioner Youth Program and other key National team members.

During its first year, the NYPT has taken on responsibility for the development and implementation of the Areas of Personal Growth documents and tools, explored a variety of new events and activities and started to build a strong National identity which will ensure the growth of the Program provided to our youth members.

Every second year, a forum is held for Section Commissioners to meet, share and discuss common issues in collaboration with the NYPT.
Areas Of Personal Growth And The Scout Method

The Foundations of A Quality Youth Program

By ensuring the Areas of Personal Growth (AoPG) and our Method are the basis of everything we do in Scouting, we can guarantee a quality Program for our youth members across all Sections.

Scouts Australia has adopted the guidelines developed by the World Organization of the Scout Movement (WOSM).

To ensure quality Scouting, the Program must be implemented using our Scouting Method and cover all facets of the Areas of Personal Growth.

The areas of growth should not be considered separate elements, but as parts of a whole. They are all interrelated and form a whole – the human personality. Similarly, when the human personality is developing, the six areas of growth interact with each other. The character occupies a central position: it unifies a person and forms his or her identity.

In Aids to Scoutmastership, Baden-Powell wrote:
The aim of the Scout training is to improve the standard of our future citizenhood, especially in character and health, to replace self with service, to make the lads individually efficient, morally and physically, with the object of using that efficiency for service for their fellow-men.

The purpose of the Scout Movement is to contribute to the development of young people in achieving their full physical, intellectual, social and spiritual potentials as individuals, as responsible citizens and as members of their local, national and international communities.
• Learning by doing or, learning through play, which is attractive to young people, facilitates their integration into the Group, helps them to discover their abilities and encourages an interest in exploring and adventure.

Providing Support

To support the implementation of the AoPG and Method a number of strategies have been introduced including:

• Method Document – A detailed document for Leaders, Venturers and Rovers to outline why we have the AoPG and our Method. It includes links to the Program and an outline of where the Section fits within the developmental frameworks of young people. Effective icons have been produced to represent each AoPG and each part of our Method.

• Program Planning Templates – A new approach to programming has been created, taking youth and Leaders through a step by step approach to develop a balanced Program. The templates are available in a variety of formats and assist the Planning Team in ensuring youth members develop their Program.

• Scout Central Program Builder – All activities uploaded to the Program builder, break them down to highlight the AoPG and Methods covered; thereby assisting planning teams to develop a balanced Program.

• Information sessions – Across the country, a number of Training sessions have been provided for Leaders to introduce the new concepts.

• Leader Training – All Leader Training modules have been adapted to cover the new concepts. Planning tools can be downloaded during e-Learning sessions and Leaders also have access to the documents on Scout Central.

Enthusiasm for Scouting continues long after Mawson Course concludes

A fundamental goal of the Mawson Leadership Program is to develop future Leaders for Scouting and the wider community. In 2012, courses were run in Queensland and the Australian Capital Territory, where 41 participants attending from all corners of Australia, were challenged, provoked and pushed to achieve his or her best. The ACT Program even included the surprise challenge of having to complete the Australian Defence Force Academy (ADFA) obstacle course suspended above its swimming pool.

The Queen’s Scout Award has now been completed by 24 Mawson graduates, several of whom have already progressed to Rover Scouts, with a number of them having taken on a diverse range of Scouting Leadership responsibilities. This includes being a Line Leader, joining Adventurous Activities teams, running Branch Youth Councils, establishing Region Venturer Councils, roles on major Event Committees, Assistant Contingent Leaders and of course, leading their local Units.

Study is an important aspect of the lives of the graduates. The group includes a number of school Dux, University Award winners and a selection of School Captains and Prefects. Others are Award winners due to their community service and recreation awardees, a group participated in the Oaktree Foundation road trip in January and we even have a state wide top Army Cadet.

Feedback from a Mawson participant:

As soon as I returned to my Unit, I advertised the Mawson Scholarship as I truly believe in the Program.

At school, I am pleased to say I have flourished. At the end of Grade 12, I received an OP1 and was admitted to my preferred course of Engineering/Commerce at the University of Queensland and a scholarship. I was also awarded DUX of the School. I have become more social, more outgoing since Mawson, something I have never had the courage to do before.

I have striven for the best in both my Venturing and scholarly lives and I am pleased to say that the Mawson Scholarship certainly assisted me in doing that.

The Mawson Scholarship was a turning point in my life and I am still reaping the benefits of attending.

Geocaching – Why not try it today!

The Great Scouts Australia Geocaching Competition is another new National initiative. The concept was inspired by youth members and developed Nationally by a team of Scouts, Venturer Scouts and young Leaders, led by Alex Motyka.

Geocaching combines technology with outdoor adventure and is a great way to explore locations, near and far. Scouts Australia members have been challenged to find as many caches as possible, within a six month period. Packs, Mobs, Patrols, small teams or individuals have been able to participate, all having the chance to with a share of $10 000 in prizes provided by Magellan. A Scouts Australia Geocoin has been produced along with other support material to add to the fun and ensure the activity is a great success.
National Youth Council

The National Youth Council (NYC) has gone from strength to strength over the year. Two areas that the Executive Team focused on improving were increasing promotion and engagement with youth members, and completing a more diverse range of discussion topics. At the NYC’s two annual conferences, the Council worked on ensuring it followed the Scout Method, with more focus on learning by doing. This empowered the entire Executive Team to be involved in the Organisation, not just the Chair. The NYC was also lucky enough to be visited by Dan Ryan, Australia’s 2012 United Nations Youth Representative, at its September conference. Here members told him all about youth involvement in decision making!

The establishment of a NYC Facebook page has done wonders for engaging young and old alike. As a result, NYC online surveys are receiving ever increasing response rates. The NYC has also diversified the spaces available to members, empowering them to communicate more with the Executive Team. Many members have taken up this opportunity to discuss issues and their responses through the NYC Facebook Events Page.

The Council has also worked on completing a broader range of topics. Its inclusion in the National Youth Program Team has enabled it to gain incredible insight into its own research, along with developing important feedback. Focussing on short topics and providing a snapshot of youth ideas, rather than performing in-depth research, has allowed the NYC to become involved in decisions made at National level.

However at the same time, the NYC has remained dedicated to its key long term topics. Some of the topics the NYC completed in 2012 included reviewing the uniform; suggesting activities for the upcoming WWI Centenary; assisting the Rover Review and Implementation Team (RRIT); exit surveys for members; and the role of Venturers at Jamborees. The NYC has also developed innovative new ways of communicating results, using explanatory videos for the first time, for example, to deliver the uniform report. This was well received around Australia and the NYC continues to develop this idea even further in the future.

New features of the website include a strong emphasis being placed on developing successful partnerships and advanced connections with organisations like Reachout.com, Stay Smart Online and HelloSundayMorning. Additional features of the website include a National Calendar along with interactive and up-to-date news. The future development of the new website will include assessing the need for a webmaster.

National Rover Council

The last 12 months have seen the National Rover Council Executive Team and National Rover Council (NRC) achieve a majority of its goals, including the redevelopment and launch of the new Rover Australia website.

This would not have occurred without the tenacity, guidance and leadership of Shaun Sandilands, NRC Chair 2012. Shaun has done himself and the Rover Scouts Section proud and Scouts Australia is glad to see him achieve not only his Wood Badge in Rovers, but also a Rover Scout Service Award. Shaun is a great example of what Scouting development is all about. His dedicated work, not only to the Section, as Chair but also to the Scouting Movement, with the months of effort and energy he undertook during the 23rd Australian Jamboree, AJ2013, deserves tremendous praise.

New Rover Website – www.rovers.com.au

The much awaited Rover Scouts website was launched in November 2012. From all reports, it has been a successful venture, taking much of the Rover Scouts’ time over the last 12 months.

Nicole Strachan, current National Rover Council Chair 2013 said:

Through this website, we achieved our aim of producing an interactive site with a simple management system, allowing anyone without website experience to be able to keep the site up to date.
Rover Review Implementation Team

Keeping in line with the recommendations of the ‘Rovering Toward 2020’ report (The Rover Review), the National Operations Committee established a Rover Review Implementation Team (RRIT) in April 2012, to work on these recommendations. A new position was created to Chair the RRIT in April 2012, under the title of National Rover Council Adviser and Leah Bach was appointed to this role.

Though not even 12 months into her three year term, Leah has not only integrated well but set a good grounding for further development of this role and the future governance of the National Rover Council.

The RRIT meets on a regular basis to analyse work progress. The team consists of Shaun Sandilands (QLD), Matthew Ray (QLD), Ayden Mackenzie (WA), Mathew McKernan (VIC) and Andrew Tremain (SA). It is chaired by Leah Bach; while John Clarke, National Commissioner, Youth Program and Reg Williams, Chief Commissioner, are ex-officio members.

In particular the RRIT is tasked with:

• recommending a model and tools to deliver the Rover Program as outlined in the Rover Review;
• developing the details for a new Rover Scout Award Scheme, using the framework as outlined in the Review;
• developing clearer guidelines for Squire Training and the Knighthood theme;
• examining governance of the Rover Scout Section at National and Branch levels and recommending changes;
• developing and implementing effective communications within the Rover Scout Section, linked to Scouts Australia’s systems;
• developing and implementing strategies to attract new members to the Rover Scout Section; and
• recommending changes to all publications in hard and electronic copy.

The RRIT, in conjunction with work undertaken by the NRC, NYC, Branch Teams and Branch Rover Councils, completed 14 of the 19 recommendations.

Just some of the work rolled out in 2012 included:

• name of the Section changing to the Rover Scout Section and members of the Section now referred to as ‘young adults’;
• age range for the Section becoming 18-25 years (i.e. 26th birthday);
• NRC developing programming tools for the Rover Scout Section that promote flexible and affordable Programs;
• NRC undertaking a review of its governance arrangements and identifying areas for improvement; and
• NSW Branch undertaking a trial of the Rover Pathways Program to support those exiting the Section.

The RRIT also secured agreement of the National Operations Committee to a newly designed Rover Scout Award Scheme and continues to work towards a launch of the new Scheme at the National Rover Moot – Western Australia Moot in January 2014.

Special Needs

The last 12 months have seen exciting activities within the Special Needs area of Scouts Australia. Young people with special needs continue to be involved in Scouting activities, along with their peers in local Scout Groups as well as a small number of Specialised Troops.

Scouts Australia hosted a highly successful Asia-Pacific Workshop on Special Needs over the Easter 2012 period in Perth. It was attended by 34 representatives from all the Branches as well as from Bangladesh, Indonesia, Malaysia, Mongolia, Philippines, Singapore and Sri Lanka. The participants worked together to:

• explain terminologies and list new developments in working with young people with special needs;
• outline the benefits of including youth with special needs and disabilities in Scouting;
• share current practices for working with youth with special needs and disabilities in Scouting;
• contribute to a network among interested persons in National Scout Organisations to share experiences and promote the involvement of youth with special needs in Scouting; and
• develop an activity or project to be considered by NSOs to support Scouts and non-Scouts with disabilities.

At the end of the workshop, 13 recommendations arose under three areas – Training, Networking/Resources and Program/Activities. One of the recommendations is to organise a similar workshop in 2014. The workshop concluded well with the support of Reg Williams, National Chief Commissioner; Peter Blatch, National Adviser for Special Needs; John Clarke, National Commissioner Youth Program; and Sheridan Bunney of WA, who was Workshop Director; as well as Abdullah Rasheed and Farouk Bouraoui from the Asia-Pacific Regional office.
AJ2013 provided a great opportunity for Scouts with special needs to join in Scouting at the Jamboree. It is believed about 200 young people with special needs were at the Maryborough site. One of the activities at the Jamboree enabled youth to experience what it was like to have a special need, as they participated in specific recreational activities.

The Special Needs Network continues to operate across Australia and provides specialist expertise in the area of Scouting for people with special needs. It is currently working on Guidelines to assist with Award Scheme accommodations for individual Scouts; and the development of management plans for young people participating in specific events. A National survey is being conducted regarding support needed by Leaders who have Scouts with autism. Training of all Leaders about youth with special needs remains a priority.

Scouts Australia Institute of Training (SAIT)
The Scouts Australia Institute of Training (SAIT) is committed to growing and developing Program material and its personnel to ensure the services we provide is of the highest standard across Australia. In turbo-charging this development, during the year SAIT created two Deputy Principal positions, one for Academia to continue the build-out of our e-Learning offering and ensure our alignment with the VET sector remains a focus; and another, for Adventurous Activities to bring alive SAIT’s capability to deliver Certificates II, III and IV in Outdoor Recreation, while ensuring all of our Programs meet the needs of the Youth Program. Paul Parkinson and Phil Harrison have been appointed to these roles respectively.

First figure is Frontline Management and the figure in brackets is Leadership.
Additionally, a complete analysis of current training topics into common headings as well as a check of all materials was completed. This was to ensure consistency across Sections. To this effect, amendments were made to various modules relating to the incorporation of materials for the new Scout Method and the Areas of Personal Growth. Certificate IV attachments required for completion by Leaders in Advanced Training have been embedded in all modules necessary, which added to the bank of material immediately accessible by new Leaders.

This followed on from the incorporation of the attachments relating to the Certificate III qualifications, which were added earlier in the period of review. Both of these inclusions were created to reduce direct printing costs to Branches where attachment booklets were printed; provide immediate access and connection to Leaders working their way through the training material; and have ‘value added’ greatly to our overall Wood Badge Training Program.

A number of new Electives have also been in development, but were put on hold due to various development demands and budget considerations. Action required of training from the implementation of the Rover Review recommendations has been addressed, and the Session Leader Handbook material required to support the new ‘Growing Your Group’ DVD expected to be released by June 2013, has also been actioned.

With the increased emphasis being placed on Adventurous Activities and our capacity to be able to deliver the full qualifications at Certificate II, III and IV level in Outdoor Recreation, ten e-Learning modules are in development, related to the theory components of various areas. More work will occur in this area with the current ten modules under final development to be released in May 2013.

Overall, it has been a very active year for the continued development of our e-Learning platform, which will continue to grow and develop in the many years to come. This platform, which provides flexibility, consistency and currency of learning, is now the core of our Adult Training and Development Program. This is because it delivers the benefits of a reduction in the time taken for new Leaders to gain base competency and provides simple pathways for experienced Leaders to further develop their skills through our Advanced Programs.

National Training Committee

Two meetings of the National Training Committee were held in May and September 2012. Both meetings were extremely valuable in maintaining our targeted focus on many issues. These include the SAIT Annual Business Plan, e-Learning and RTO responsibilities, including our accountability reporting for compliance issues to the new National regulator the Australian Skills Quality Authority (ASQA).

These meetings are SAIT’s Curriculum Development Advisory Committee (CDAC), a necessary body required to meet regularly under the conditions of being a Registered Training Organisation (RTO). Various aspects of compliance related to all Branches were also topics for discussion and action.

Training of Trainers

As in recent years, SAIT continues to improve on the capabilities of its Trainers across Australia. It is a requirement that all Trainers hold a Certificate IV in Training and Assessment as a minimum; our partnership with St. John Ambulance Australia is an enabler for this qualification.

As we finalise this minimum requirement across the National Training Team, this critical standard now allows our higher level Trainer Programs (e.g. Course for Potential Leader Trainers) to focus on more advanced learning theories, course design principles, leadership etc.

Adventurous Activities

During the year, SIS10 (the Sports, Fitness and Recreation Training Package) has continued to be embedded into our Adult Training & Development Program. As reported earlier, our ability to offer Certificate II, III and IV in Outdoor Recreation as part of our training offering, not only provides external recognition for the material we deliver in our Youth Program, but is providing employment opportunities for our Scouting members.

Although the variety of offerings under this Training Package is vast, Scouts is focussing on ensuring the Programs we offer and deliver are aligned to our Youth Program needs, as a priority.

Although the variety of offerings under this Training Package is vast, Scouts is focussing on ensuring the Programs we offer and deliver are aligned to our Youth Program needs, as a priority.
Lord Baden-Powell Society

For over 25 years, Members of the Lord Baden-Powell Society have helped young Australians to experience the benefits and joy of Scouting, by providing private financial support to Scouting across Australia.

In 2012, the Society contributed over $287,195 to Branches and Scouting Members. Included in this figure was $151,195 which was provided as financial assistance to over 300 youth members to attend the 23rd Australian Jamboree and other international events.

The Society has four levels of membership – Members, Leaders, Ambassadors and Patrons, who contribute from $175 to $1200 annually. The annual membership income is distributed each June to the State branches at the Annual General Meeting. The distribution to each branch is calculated according to the proportion of Society members in each State.

To show its appreciation to its truly loyal and committed supporter base, the Society launched its Honours Recognition Program in 2011.

The Program recognises those members, both current and past, whose cumulative financial contributions total in excess of $15,000, including membership gifts, Jamboree Fund support, general donations and bequests to The Scout Association of Australia.

We are pleased to announce that an additional five members reached Honours Recognition Status in the last 12 months.
The Honour Board is located at the National Office of The Scout Association of Australia in Sydney. Updates can be viewed on the Scout Association of Australia website.

The Lord Baden-Powell Society Committee wishes to thank all its members and the Movement for their continued support.
Scouts Australia is the largest youth Movement in Australia. There are around 66,000 members, joining over 30 million Scouts in 161 countries.

The Mission of Scouts
To contribute to the education of young people, through a value system based on the Promise and Law, to help build a better world, where people are self-fulfilled as individuals and play a constructive role in society.

We achieve this by:
- Involving young people through their formative years in a non-formal education process.
- Using a specific method that makes each individual the principal agent in his or her development as a self-reliant, supportive and committed person.
- Assisting them to establish a value system based upon spiritual, social and personal principles as expressed in the Promise and Law.

Aim
The Aim of Scouting is to encourage the physical, intellectual, emotional, social and spiritual development of young people so that they take a constructive place in society as a member of their local, national and international community.

Principles
The Principles of Scouting, as identified by the founder, Lord Baden-Powell, are that Scouts serve their God, act in consideration of the needs of others and develop and use their abilities to the betterment of themselves, their families and the community in which they live.

Methods
The principal methods used by the Association to achieve its aims are:
- Voluntary membership of a uniformed Group which, guided by adults, is increasingly self-governing in its successive age groups.
- Commitment to a code of living as expressed in the Promise and Law, the meaning of which is expanded as the member grows towards maturity.
- The provision of a wide range of attractive, constructive and challenging activities, including opportunities for adventure and exploration, both indoors and outdoors.
- The provision of opportunities for leadership and responsibility.
- Learning by doing.
- Encouragement of activities in small Groups.
- An Award Scheme that encourages participation in the full range of activities and provides recognition of individual achievements.

The Scouting Sections
Joey Scouts (Ages 6 to 7)
Joey Scout activities develop children’s sense of sharing and personal identity, as well as teach them about nature. Joey Scouts work together as a Mob under the theme HOP (Helping Other People). The Program emphasises cooperative, participatory learning, through a wide range of fun activities.

Cub Scouts (Ages 8 to 10)
Cub Scouting gives boys and girls adventure, achievement and a chance to grow their character. Cub Scouts develop their skills by working for Achievement Badges in their favourite areas such as sport, environment and art. Cubs Scouts operate in a Pack, with the emphasis on fun activity.

Scouts (Ages: 11 to 14 years)
Boys and girls of Scout age are looking for a sense of achievement. Scouts gives young people the opportunity to follow their special interests closely, develop personally and learn special skills in fields such as campcraft, air and water activities and the environment.

Venturer Scouts (Ages: 15 to 17 years)
Young people in Venturer Scouts develop their sense of maturity and responsibility through the chance to be self-governing and to choose their own activities. Venturer Scouts expand on their Scouting knowledge, learning more about leadership, initiative and personal skills.

Rover Scouts (Ages: 18 to 25 years)
A Rover Scout is a young adult dedicated to fun and adventure, while serving the community in the Scouting way. As young adults, Rover Scouts can apply to their lives the principles of Scouting they have learned, while still enjoying challenge and adventure.

*The commencement for advancement in Sections may vary up to six months.
Scout Promise

There are two versions of the Scout Promise. Individuals taking the Promise may choose to use either of the Promises.

On my honour
I promise that
I will do my best
To do my duty to my God
And to Australia
To help other people and
To live by the Scout Law.

or

On my honour
I promise that
I will do my best
To do my duty to my God
And to the Queen of Australia
To help other people and
To live by the Scout Law.

Scout Law

A Scout is trustworthy
A Scout is loyal
A Scout is helpful
A Scout is friendly
A Scout is cheerful
A Scout is considerate
A Scout is thrifty
A Scout is courageous
A Scout is respectful
A Scout cares for the environment
Scouts Australia is managed by a National Executive Committee. A body of volunteers, the Committee is made up of Chief Commissioners and Chairpersons from each State Branch as well as the Chief Commissioner of Australia, National Chairman and Hon. Treasurer.

Other members of the National Executive Committee are the International Commissioner, National Commissioner for Youth Program, National Commissioner for Adult Training and Development as well as two young people under 26 years of age, currently the Chair National Youth Council and Chair National Rover Council.

Scouts Australia’s National Office has five full-time and five part-time professional staff members providing support to the positions above.

The most significant part of the team, however, is the tens of thousands of volunteers who act as Branch and Section Commissioners, Leaders and Supporters within the State Branches. They work at the ground level, directly with the Scout Sections, building Scouting in Australia every day.

These volunteers have the support of full-time and part-time staff members at each Branch. Scouts Australia is a member of the World Organization of the Scout Movement (WOSM).
