

WALKABOUT AWARD

Use the Hiking Record pages in this book to count how many kilometres you have hiked. At different distances of 10, 50, 100, 150, 200, 300, 400 or 500

kilometres, you can be awarded this badge. You may also earn the Walkabout Award through other methods, i.e. canoeing, bike riding, etc. Scouts are encouraged to go on various adventures, through different methods. They can all count towards the achievement of this Award. Troop Councils should consider the appropriate conversion rates for alternate methods i.e. a Scout would need to bike ride further to achieve the same number of hiked kilometres.

CAMPER AWARDS

Use the Camping Record pages in this book to count how many nights you have spent under canvas. This Award can be earned at 10, 25, 50, 75, and 100 nights under canvas. It is required that these nights be spent under canvas or under the stars. Any indoor camps, or non-scouting camps do not count towards achieving this Award.

Note:

For the two badges the tally is ongoing and records should be passed through each Section so it continues on and isn't started again Only one badge is to be worn at any time. Once a new badge has been earned it replaces the previous badge. The highest achievable badge is 100 Nights for the Camper Award and 200 Kilometres for the Walkabout Award. An individual will not be allowed to have two badges that represent a higher tally. (For example you cannot wear a 100 Nights badge and a 25 Nights badge to represent 125 nights.)

This badge is to be worn above the pocket.
