POSCA is a creative tool providing permanent or temporary results

POSCA drives artistic expression in all users on most surfaces

WATER-BASED PAINT MARKER FOR MOST SURFACES

PAINT: THE HEART OF POSCA

Rich in pigments, POSCA paint provides results of incomparable density. Its unique water-based formulation delivers bright, opaque colours that withstands the passage of time. It has no odour, water-soluble, can be blended and layered to offer endless creative possibilities.

TIP: THE LINK BETWEEN THE ARTIST AND THE WORK

The POSCA range includes eight sizes and five different tip shapes. Made either of acrylic or plastic, they are durable and perfectly suited to their respective uses. Only the highest quality of materials are used to guarantee every stroke is perfectly smooth.

BALL: THE SIGNATURE SOUND OF POSCA

To ensure a consistent texture from beginning to end, a small ball is placed inside the marker to mix the ingredients of the POSCA paint. Just shake the marker vigorously (with the cap on).

STEP ONE **SHAKE**

Shake the marker vigorously, with the cap securely attached.

STEP TWO **PUMP**

On a sheet, press down the tip several times to start the paint flowing.

STEP THREE **DRAW**

Replace the cap tightly after use.

*The ball inside the barrel mixes the paint, giving an even consistency.
The cap provides a perfect seal ensuring protection and longevity of the tip.
Store in horizontal position.*

Water-soluble

Can be layered

Mix to create custom colours

Tips can be removed and washed
