

Easy transfer between iPhone, iPad and computers

Lightning and USB connectors make it a snap to move pictures and videos between devices.

Automatically sync photos and videos

Set the app to automatically copy photos and videos from your camera roll to the drive when the drive is connected.

The speedy way to move files from your iPhone or iPad

Fast transfer speeds make it easy to offload those large photo and video files from your iPhone or iPad onto your Flash Drive.

Free up iPhone/iPad memory

Offers 16GB, 32GB or 64GB*, so you never need to worry about being out of memory.

* 1GB = 1,000,000,000 bytes. Actual user storage less.

Play movies and music directly from the drive

Play all popular format videos* and music files from the drive, through the downloadable iXpand Sync app.

* Support for .WMV, .AVI, .MKV, .MP4, .MOV video formats.

Protect your private files

Password protect* your iPhone or iPad files with 128-bit AES encryption and easily unlock them on your computer.

* Password protection uses 128-bit AES encryption and is supported by Windows Vista*, Windows* 7, Windows 8, and Mac OS X v10.6+ (Software download required for Mac, see www.sandisk.com/ixpandflashdrive).
