

HOW TO SET YOUR OPENING COMBINATION

You can set your own personal combination by following these instructions:

The opening combination is pre-set at 0-0-0-0

1. Turn the dials to the pre-set combination 0-0-0-0.
2. Move the reset button to position A as shown in picture 1.
The reset button is inside, on the back of the lock mechanism.
3. Turn the dials to set your desired combination.
4. Move the reset button to position B as shown in picture 2.

The lock will now open to your own combination.
Write down your code and store it in a safe place.
