

MINIBOND 380 Laminator

The MINIBOND 380 celloglazing machine is a proven solution, allowing easy lamination for digitally and offset printed applications up to 350mm wide. This compact machine has a convenient one person operation with an accurate belt fed system and built in rewind. This machine has the flexibility to laminate offset and digital print both single and double sided and makes a perfect addition to any print room.

Ideal for short run laminating, the Minibond 380 will save on time and money and allows in-house quality control.

Other features

- Large diameter chrome hot roller with smooth and efficient heating
- Designed to laminate SRA3 sheets
- Built in rewind unit for single person operation
- Perforation wheel for ease of separating laminated sheets
- Open and close rollers
- Belt feed system for easy overlap and sheet guide
- Single and double sided laminating
- Remote foot control
- Mini commercial features
- Variable temperature control
