

# Sign Master Applicator

The Sign Master Applicator range has been designed to provide fast and efficient mounting of vinyls and prints to boards, foam, glass and other substrates commonly used within the Sign Industry.

The superior design of this unit makes it an ideal solution for greater productivity in saving time and handling when mounting to substrates.

Features include Australian Manufactured Chevron Glass, dual control adjustable roller pressure with self lubricating system, compact air compressor, fluro back-lit work bench, media trays and mandrel, self healing cutting mat and retractable castors for easy relocation.

With over 20 years of experience in building laminators, the Sign Master Applicator has been designed to our specification for the Australian signage market.
