

GENERAL SAFETY

MOST IMPORTANT –RISK ASSESS

Before you commence any work at your chosen work area, you should undertake some preliminary hazard identification and risk control precautions. Ideally more than one person should do this.

This is undertaken by:

- Physically inspecting the work site.
- Reviewing the best way / job steps required to complete the task.
- Reviewing the Safe Work information supplied with the equipment.
- Reviewing other reference documentation and expert advice.

The hazard identification and control process steps are defined as:

Identify the hazards (e.g. 240v power drill use around wet areas)
 Assess the Risk (multiple earth paths – possible electrocution)
 Select the control measure (e.g. dry the area, use an RCD, use a cordless drill etc)
 Re-assess the risk. (risk of electrocution now negligible) This is undertaken to ensure that the risk control measures adopted have not introduced any new risks to the work area.

HELP

If the unit does not operate or you are unhappy with its performance, return it to our Hire depot for exchange or call for assistance. Do not attempt repairs yourself. Refer to your hire contract for contact information.

SAFETY DO'S

- DO** take the time to read this User Guide and any other safety information provided (e.g. Decals, manufacturers instruction booklets), completely before operating any equipment.
- DO** satisfy yourself that you have the correct machine for the job and that you are aware how to safely operate it.
- DO** ensure you fully understand and are familiar with its operation including emergency shut off procedures.
- DO** ensure that the equipment is assembled and used according to the manufactures and hires instruction.
- DO** check controls and any other safety devises.
- DO** make sure you hold a posses a Certificate of Competency issued by the Regulatory Authority where required by particular equipment.
- DO** where possible operate in a clear work space free from non essential persons.
- DO** ensure that you have secure footing and clear access to the work area.
- DO** ensure that the work area is well lit with all aspects of the job easily seen.
- DO** ensure correct lifting techniques are used when using or transporting any machine or equipment.

SAFETY DONT'S

Height (min)	W.L.L.* (max)	Size at max. ext.	Height
1.83m	23kN	No.0	1.05m
2.82m	13kN	No.1	1.65m
3.35m	11kN	No.2	1.97m
3.96m	8kN	No.3	2.58m
4.87m	7kN	No.4	3.20m

*Working live load is the design limit for direct in-line force.

Safety Equipment

The following protective equipment **MUST** be worn when using this equipment:

- Safety glasses and/or goggles.
- Ear muffs or ear plugs
- Dust mask if operation produces dust.
- Leather boots preferably with steel caps.
- Close fitting clothing.

General Safety

- Do not use machinery if you feel tired or under the influence of alcohol or drugs.
- Check controls for proper response. Shut down the machine if a fault is detected.
- Do not wipe plastic parts with solvents, such as petrol, thinner, alcohol and ammonia, as they will damage and crack plastic parts.
- Wipe parts with a soft cloth lightly dampened with soapy water.
- Always use the right tools. Never force a tool or attachment to do a job for which it was not designed. When using attachments, ensure they are fitted correctly and practice the operation before beginning work. Always use recommended accessories only.
- Always keep guards in place and in working order.
- Do not wear loose clothing, gloves, neckties, rings, bracelets or other jewellery which may get caught in the moving parts.
- Do not overreach. Ensure proper footing and balance when working with the tool.
- Always keep the work area well lighted.
- Never permit children, other people or animals to loiter near the work area.

- Do not fool around while operating, always keep the machine under control.
- Never leave a machine running while unattended.
- Do not use or continue to use faulty or damaged equipment.
- Check the condition of the machine at the end of each day and report any damage or defects.
- REMEMBER: In the event of death, serious injury or a dangerous occurrence you must notify WorkCover on 1800 136 089**

For further information or if in doubt over the use of this equipment, contact the supplier and ask for instructions.
