## Congratulations Lyndon Matthews!

Lyndon Matthews has just successfully obtained an apprenticeship in Plumbing through PEER VEET and he answered a few quick questions before embarking on what we are confident will be a great new chapter in his life.

### When did you decide that you wanted to do Plumbing?

At the start of 2015. I was originally interested in doing Construction through the school VET program but then thought that I would get a greater range of skills and exposure to more variety through a plumbing pathway. I was keen to learn about tiling, plastering as well as the plumbing side of things.

### What are your goals, hopes and dreams for the future?

To complete my plumbing apprenticeship successfully. One day I would like to own my own business and specialise in designing kitchens and bathrooms.

### Which is better The Block or House Rules?

Definitely The Block!

### What would you like to say to all of your teachers over your time at SHC?

Many of my teachers have guided me through my schooling life and helped me to achieve this goal and I thank them for that. A special shout out to Mr Dighton, Mr Finamore, Mrs O'Grady and Mr Lynch.

We wish Lyndon all the best and if you are looking for your next bathroom or kitchen makeover in 5 or so years perhaps look out for his business.

Lyndon on his last day at school

## Where are they now?

Update on Natasha Henderson (left SHC 2012), Brad Jolly (2012), Hannah Ryall (2011), David Wohlgemuth (2013) and Jacob Pearce (2012)

We have recently heard from old scholar Natasha Henderson who is in her 4th year of Electrical Engineering completing the honours year as a Pilot Officer at the Australian Defence Force Academy. Tash has graduated from the military side of training as a cadet last year. She was also able to catch us up on what other old scholars are doing. Brad Jolly is in his 3rd year as a cadet and will go on to Air Combat Officer training down at the School of Air Warfare after he commissions at the end of this year. Hannah Ryall has completed her 3 years at ADFA and is now at the Royal Military College for 12 months of Army Officer training, David Wohlgemuth is in his 3rd year at ADFA as an Army General Service Officer, and Jacob Pearce is also a 4th year doing Electrical Engineering with Tash.

Natasha front left

On the left Brad

Natasha on parade and out in the field

## Things I have learnt from a Year 12 Research Project.....

As a follow up to the previous article Stress or Stretch in the last newsletter, we look at how pressure, stress and expectation might impact on student performance. This really came about after a discussion with one of our current Year 12 students, Nicole Kraemer, (who also happens to be an elite tennis player).

I was talking to a few year 12's (including Nicole) about their year and talk came around to the pressures and stress of the year..... this led us onto what sports people do when they perceive that they are failing or feel under pressure. Nicole quickly replied that you reset and try to focus very much on the moment without being distracted by the past or the future. Nicole then went on to say that her Research Project topic was looking at similar themes from a sporting performance perspective (*How does an elite tennis player's confidence level and mental state affect their performance and can it be enhanced?*) and she had just finished off her findings and outcomes. It was pretty apparent that much of what she had found, even though, it was targeted at improving tennis performance had parallels with maximising performance in other areas including academic performance.

As Nicole found and as I often hear, pressure, stress and expectations can all affect both physical and mental performance. The brain can set in motion a number of responses to external and internal stimuli which may not always be helpful and may also be duplicated each time the stimuli presents. If the responses tend to be negative, over time this can adversely affect performance, attitude, motivation and the list goes on. After speaking with different sports people and sports psychologists Nicole found that there are mental strategies that can assist with limiting negative responses and improving positive responses.

So let's look at what she found and in Nicole's words (*with mine bracketed and in italics*) .....” Through regular psychological training, such as goal setting (*identifying what you hope to achieve short term to start with e.g. each study session*) recording strengths (*formally identifying and acknowledging by writing down or other means individual personal strengths and don't be modest*) and training under pressure (*exam and test practice if relevant otherwise trying to as closely as possible replicate performance conditions for your subject*), a player (*student*) can begin to counteract competition (*test, exam, performance*) anxiety. By shifting from a negative mindset to **an optimistic, productive outlook**, a player (*student*) will grow resilience; improving their mental toughness.”

A recent speaker on Positive Psychology spoke about the fact that our negative thoughts and impressions always “scream” more loudly than our positive ones so we need to find strategies to amplify the positives and diminish the negatives.

Further to this Nicole looked at developing more long-term strategies to enhance performance, such as visualisation and performance routines, which she found most effective for her performance. Visualisation, relaxation and meditation are just some of the tools that can be used to centre oneself and become more mindful of the present trying to disregard past and future distraction to stay in the moment and maximise performance at that time.

*With thanks to Nicole Kraemer for her thoughts, insight and sharing her Research Project.*

## Well done to the Year 10 Leaders who collected for the Royal Flying Doctor Service

A generous group of our Year 10 leadership candidates recently donated their time and effort to collect for the Royal Flying Doctor Service. They were able to raise \$177 for this very worthwhile charity. They are all to be commended on the excellent way that they represented Sacred Heart College and raised awareness for the RFDS.

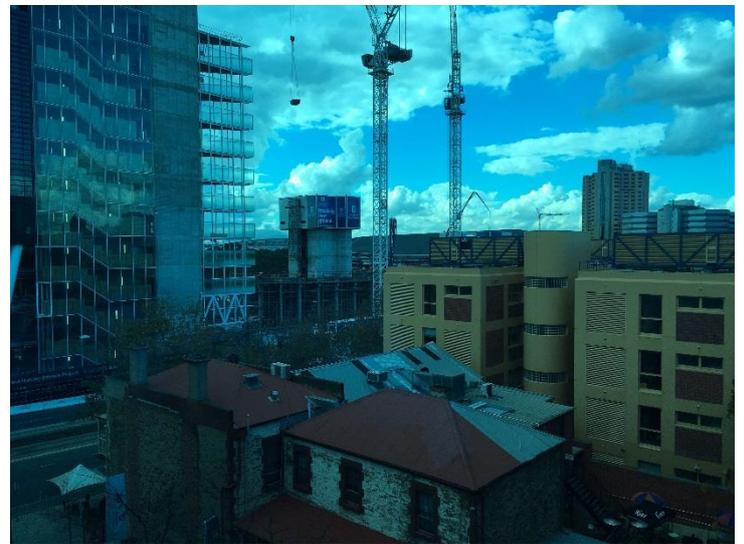

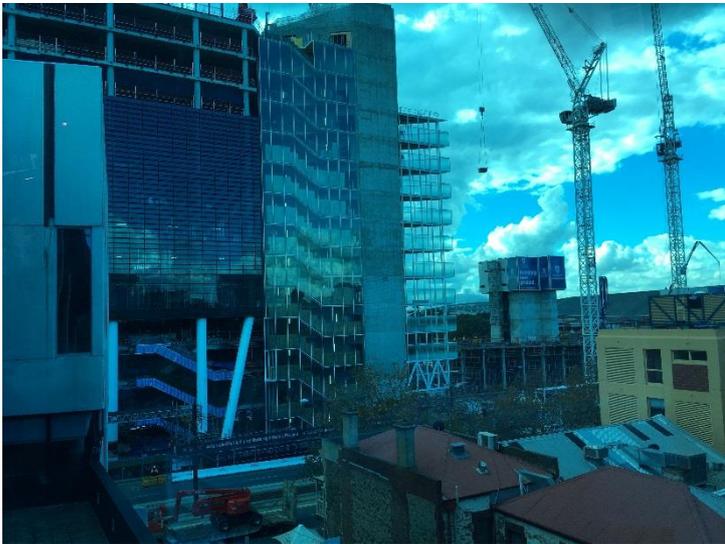

## What's new at UniSA

I recently attended a UniSA update on the latest developments and program additions and changes for the university. We looked out over the ever-changing skyline along North Terrace and here you can see their new Health Innovation building that will include a science creativity space which will be free to the public. This space is aimed at showing an interface between Science, Art and Innovation, a fly through the new space is available [here](#). It will also house the Uni's community health clinics used for hands on experience by their allied health students and a centre for Cancer Research. The University is also building a Great Hall adjacent to its buildings in Hindley Street from where our future UniSA students will graduate. This space will also house an indoor pool and a number of other sporting and student facilities. <http://www.unisa.edu.au/campus-facilities/maps-tours/great-hall/>

Prue Wilkosz  
Pathway's Co-ordinator

## Diary Date: Careers Expo Wednesday 6<sup>th</sup> July, 6.00 – 7.30 pm

This is a fantastic opportunity for students to speak to representatives about further study and career pathways:

- Tertiary Study
- Traineeship and Apprenticeship Information
- Gap Year and Exchange Information
- Industry Information
- SHC VET Programs
- Coffee tastings accompanied by savoury and sweet treats prepared by Year 10 and 11 Food and Hospitality students

*Follow Kevin our Careers Emoji to see who will be involved in our Careers Expo for 2016*

# SACRED HEART COLLEGE

# Careers Expo

## 2016

**WHEN:**  
Wednesday 6<sup>th</sup> July  
6.00 pm - 7.30 pm

**VENUE:**  
The Performing Arts Centre  
Sacred Heart College Senior

**Come along and speak to representatives  
about further study and career pathways**

Parents and students from the middle and senior campuses are most welcome.

**SHC Careers Expo Wednesday 6<sup>th</sup> July 2016  
6.00 – 7.30 pm**

## The NDIS is still creating jobs

Written by Melanie Burgess (*Taken from Careerone Saturday May 12<sup>th</sup>, 2016*)

Double the number of jobs in the disability sector is forecast by 2020 because of the National Disability Insurance Scheme.

The NDIS, is a government initiative for individualised support for people with permanent and significant disability, launched in July, 2013, with eventual trial sites in every state. The rollout is scheduled to be complete by the end of the decade.

In SA, it is available for children aged 13 and younger and is progressively being rolled out for all ages.

By July, 2018, it is estimated that about 26,000 people will access the scheme, including about 17,000 from the state's existing system.

The NDIS: Integrated Market, Sector, Workforce Strategy 2015 report projects the disability care workforce will need to grow from about 73,600 full time equivalent workers in 2015 to about 162,000 in 2019 – 20.

Disability care is forecast to make up almost a third (30 per cent) of the social assistance and residential care services workforce by 2018, up from 17 per cent five years earlier, with allied health occupations such as physiotherapy set to grow at the fastest rate.

The scheme is not only likely to increase existing roles but also create new ones.

## Top Five Jobs in Disability Care

(*Taken from Careerone Saturday May 12<sup>th</sup>, 2016*)

### 1. Personal Carer

Based in the client's home or at a facility, the role involves general household assistance, emotional support, care and/or companionship. Workers must complete a Certificate III in

Individual Support, which takes on average six months, costs on average \$2,900 and includes 120 hours of work placement.

### 2. Care Manager

The Business Confidence Survey conducted in 2012 – 13 by NDIS reveals two in three disability care employers were having trouble finding competent leaders and managers. About 350 jobs in this category are listed on careerone.com.au this week.

### 3. Physiotherapist

Physiotherapists assess, treat and prevent disorders in human movement caused by injury or disease. About 5000 more physiotherapists are forecast to be employed in the five years to November, 2019.

### 4. Speech Pathologist

Allied Health occupations, such as speech pathologists and audiologists, are projected to increase as the number of people with a disability grows. The sector, which now employs 178,900 people, is expected to provide 41,500 new jobs in the five years to November, 2020.

### 5. Project and Policy Officer

A new role created as a result of the NDIS. It requires a deep understanding of the policy and an ability to communicate changes to other workers in the sector. Policy officers across all industries earn on average \$69,000 a year.

## Cracking the gender gap code

There's a great future for women in ICT, writes Melanie Burgess (Taken from Careerone Saturday May 12<sup>th</sup>, 2016)

About 100,000 extra workers are forecast to be needed in Information and Communications Technology (ICT) roles by 2020 – and women are currently woefully under-represented.

Australia's Digital Pulse, a report by Deloitte and the Australian Computer Society, finds female workers make up just 28 per cent of the sector compared to 43 per cent of professionals more broadly.

"ICT suffers from a terrible reputation of pizza, coke, middle-of-the-night coding, working in dark spaces and smelling," says ACS immediate past president Brenda Aynsley.

"You only have to watch NCIS to see the two nerds that aren't your regular NCIS agents.

There was an institute in California that changed their Computer Science 101 course to be called The Joy and Beauty of Computing and their female enrolment was fantastic. Those who teach STEM (science, technology, engineering, mathematics) have to think about how to market courses."

She says the changes need to start from primary school.

"We need to break down the barriers that little girls in silly pink things can also write code, they don't have to be a geek," she says.

"Girls and women are natural problem-solvers and ICT is a perfect career where they can solve problems across the whole economy, not just in IT – in health, in education, in the services.

It's a really good career and can last a woman their whole life as it will match their lifestyle and responsibilities.

It's so flexible."

She says coding is a good basic skill as it teaches computational thinking and data science and analytics are increasingly prevalent, with roles currently paying about \$200,000 a year.

Aynsley says the main goal is for women to study an ICT degree or diploma.

"There are not enough graduates coming out to fill the shortages," she says. "It's the perfect time in 2016."

Pixar Animation Studios director of photography – lighting Danielle Feinberg studied computer science before beginning a career in the film industry. She says one of the biggest appeals of the ICT sector is the variety of jobs.

"There are so many things you can do with it," she says.

Feinberg, who landed a job on *A Bug's Life* when she was just 22, says many ICT jobs are very social, despite stereotypes.

"One of the problems has been there is a stereotype of what a programmer is and what a tech job is and that's done a disservice (to encouraging female participation)," she says.

"You don't have to be a genius to code, you just have to work at it."

## Code Like a Girl

Code Like a Girl brings together girls who are passionate about coding and technology to learn from each other and connect with each other. You can also check out their blog for tips and inspiration.

### Flinders Pathways

Check out Flinders University's website about pathways to university.

<http://midyear.flinders.edu.au/pathways-to-university/>

### Adelaide College of the Arts Open Day

Sunday 14<sup>th</sup> August, 10:30am – 2:30pm

<http://www.tafesa.edu.au/adelaide-college-of-the-arts/ac-arts-events/2016/08/14/default-calendar/open-day>

## CG Spectrum

CG Spectrum is a college of digital art and animation. They offer online courses taught by top industry artists.

<http://www.cgspectrum.edu.au/>

## International College of Hotel Management Open Day

Sunday 14<sup>th</sup> August, 2:30pm

<http://www.ichm.edu.au/>

## SAE Open Night

Wednesday 3<sup>rd</sup> August, 6pm – 8pm at Adelaide campus

<https://sae.edu.au/news-and-events/events/adelaide-campus-open-night-3-august-2016/>

## Au Pair in America Competition

The winner of this competition will be able to au pair in the USA. This will provide a range of professional and personal skills and a chance to travel the USA.

<http://www.aifs.com.au/aupair-america/competition/>

## Science Alive!

Saturday 6<sup>th</sup> & Sunday 7<sup>th</sup> August

Science Alive! is a science and technology expo held during National Science Week.

<http://sciencealivesa.org.au/>

**All kinds of awesome.**

## ANU: Degrees for High Achievers Roadshow

Monday 1st August 2016 – Online

Speak to staff, current students, and learn about the opportunity to undertake research as part of an undergraduate degree at ANU.

<http://science.anu.edu.au/whats-on/all-events/degrees-high-achievers-roadshow-2016>

## WorldSkills: Dylan's Story

Hear the story of Dylan Di Martino, who received a bronze medal in the International WorldSkills competition.

<http://www.worldskills.org.au/champion-dylans-story/>

## Ask Brian Cox

Australian school students can enter this competition to ask Professor Brian Cox any burning science questions. Winning questions will be answered live on stage during Brian Cox's Australian tour, and winning students will receive a double pass to the show in their nearest capital city.

Entries close Monday 18<sup>th</sup> July.

<https://riaus.tv/USG/askbriancox>

## Yachtmaster Training and Gap Year Opportunities

The different opportunities available include becoming a water sports instructor, becoming a yacht skipper, adventure sailing, learning to sail in Sydney and more. For further information, follow the link.

CCUSA

## Daniel Cagney

### CCUSA Camp Counselors USA - Award

*In memory of Daniel Cagney;*

*Past student at Sacred Heart College*

*Participant on the Camp Counselors USA program*

*Camp Counselor at Camp Pinewood in North Carolina.*

*In recognition of Daniel's outstanding commitment to youth through his work as an American Camp Counselor, CCUSA is honoured to offer the:*

### *Daniel Cagney - CCUSA Camp Counselors USA - Award*

*Every year, from June graduating year 12 students from Sacred Heart College will be eligible to win this Award by applying and being accepted to the CCUSA Camp Counselors USA program for the following year.*

*All students who apply and are successfully accepted to the program by January 31st will go into the draw to win the Award.*

*The winner will be drawn at the "Formal Friday - Suit Up" event held the first Friday in February, which is run in conjunction with beyondblue by Daniel's Family.*

*The winner will receive a \$250 reimbursement from the CCUSA Camp Counselors USA program and the honour of continuing Daniel's legacy of his commitment to children at summer camps in the USA.*

**Attention Sacred Heart College Students:**

**CCUSA**

**Are you interested in going to work at an American summer camp in 2017?**

CCUSA's Camp Counselors USA program is now open to work in the USA from June – September 2017.

Since 1985, CCUSA has helped over 34,000 Aussies complete their dream to work, travel & play overseas. We provide fun, safe and rewarding overseas work programs.

**Find out more about CAMP COUNSELORS USA at Free Information Sessions held at Adelaide YHA Central, 135 Waymouth Street:**

- **August** Wednesday 3<sup>rd</sup>, 6:30pm - 7:30pm
- **September** Monday 12<sup>th</sup>, 6:30pm - 7:30pm
- **October** Wednesday 26<sup>th</sup>, 6:30pm - 7:30pm
- **November** Tuesday 29<sup>th</sup>, 6:30pm - 7:30pm
- **January - Camp Job Fair in Adelaide:** - Monday 9th January 2017.  
Interview with US Camps in person & possibly land a job on the spot!

**Website:** [www.ccusa.com.au/PROGRAMS/Camp-Counselors-USA](http://www.ccusa.com.au/PROGRAMS/Camp-Counselors-USA)

**Call:** 1300859040

**Apply:** <http://footprints.ccusa.com/>

**WHY CHOOSE CCUSA?**

- ✓ **Lowest fees in Australia.** CCUSA = \$499 if payment made before 1<sup>st</sup> Sept 2016, (\$549 between 1 Sept 2016 & 30 Nov 2016, then \$629 till March 1<sup>st</sup> 2017) **no hidden charges**
- ✓ **PLUS when you compare** to other companies who charge \$899\* you can save up to \$400.
- ✓ **Everyone gets a job!** For 28 years 100% of applicants go to camp
- ✓ **Guaranteed Placements** for all **Surf and Pool Lifeguards**, as well as **Waterskiers** with towing experience/boat license.
- ✓ **Highest earning potential** at a US summer camp by any J1 Visa Sponsor in Australia.
- ✓ CCUSA has **local Representatives and interviewers in Adelaide**, all of whom have been to camp before.
- ✓ We hold a **Camp Fair** in Adelaide.
- ✓ CCUSA **work with you** to ensure your application is the best it can be to get you a job at camp.
- ✓ CCUSA is **your J1 Visa Sponsor** and support you in Australia & the USA

**CCUSA other Available programs:**

- ✓ **Canadian Summer Camp Jobs** – 19 & over. From June - September
- ✓ **UK Work in English Pub program** – 18 & over. Year round minimum 4 months.
- ✓ **US Working Holidays USA program** – 19 & over. Work for up to 12 months. Note: this program is only for fulltime University Students (or recent Uni graduates)
