

• Easier • Faster • Safer

Get an immediate ROI with simultaneous improvement in both productivity and safety.

## Rotatruck<sup>®</sup> vs. Handtruck

### Leverage Plus<sup>™</sup>

The smaller Rotacaster wheel at the front gives the Rotatruck greater leverage than traditional 2-wheelers, making it easier to pull back, park, lever and balance loads.

**More leverage, less effort**

**32% less pull-back effort**  
**55% less general handling effort**

**Easier pull-back effort**  
& no need to park at waypoints.

Parking and pulling back loads at waypoints increases strain on musculoskeletal structure.

### Hands Free Balance<sup>™</sup>

The Rotatruck's compact, multi-directional wheel base fully supports loads without operator input. No need to park or pull back loads as frequently.

**Just push, don't carry**

**0kg load to carry**

The Rotatruck carries the load, not the operator.

Constant operator input to maintain load balance exerting strain and effort.

### Magic Step Up<sup>™</sup>

The fixed orientation of the Rotacaster wheel allows you to step and lever loads instead of turning and reversing (over obstacles), with 78% less effort and 63% faster.

**Lever, don't lift**

**78% less lifting effort**  
**63% faster negotiating kerbs**

Up kerbs or over obstructions without reversing.

Maximum effort required to reverse and pull load up a kerb.

# Monster Rotatruck™

The Monster Rotatruck™ is the easiest, quickest and safest way to handle large heavy items. Its ergonomic design minimises repetitive pull back and user effort.

## Self Supporting Wheel Base

Self-supporting **multi-directional** Rotatrucks are based on a **highly manoeuvrable** four wheeled base that increases productivity.

## 350kg Safe Working Load

350kg safe working load with an **extra large steel nose** (550mm x 225mm)

## Puncture Rear Wheel

The **Microcell foam rear wheels** navigate with ease through rough surfaces.

## Optional Ratchet Strap

The **Ratchet Strap** ensures that the load does not become dislodged when being transported and can be adjusted vertically.

## Heavy Duty Steel Fabrication

**Heavy duty** yellow powder coated steel fabrication with a **5 year frame warranty**.

## PRODUCT CODE: 11-2480

- Load Capacity: **350kg**
- Dimensions: 1600 x 660mm
- Weight: 27.6kg

## COMPONENTS

- 4x 125mm R2 Rotacaster wheels
- 250mm foam filled rear wheels
- 550x225mm steel toe
- optional 50m ratchet safety strap
