Why Digital Transfer Printing?

The quick, clean, compact, maintenance-free alternative with a fast ROI

Digital Transfer Printing delivers high quality, full color embellishments on the widest range of materials to complement your existing decorating methods or as a stand-alone money maker.

The ability to print brilliant white and full color graphics on the widest range of surfaces solves many challenges faced by business owners. OKI Digital Transfer Printers combined with digital transfer media gives users the power to print the most intricate, personalized designs

- super fast, clean and without hassle.

PDS solves long-standing printing challenges and complements all technologies for decorators

OKI Digital Transfer Printing

- Vibrant color graphics and images
- Has one of the lowest setup costs
- Low running costs
- No maintenance cycles
- Fast turnaround times
- Fulfill orders on demand, with no minimum order quantities
- Produce as little as one item, or many
- Profitable minimum order of one
- Decorate textiles and hard surfaces with unlimited color graphics, text and images
- Supports cotton, polyester, blends, sport apparel and more.

Why White Toner?

Unlock Full Color Potential

OKI Digital Transfer Printers apply white toner under color, which offers the versatility to print on a large variety of light, dark, colored and clear surfaces.

Sublimation Printing (Inkjet)

- Limited to white or light colored items
- Can only print on polyester and synthetic fabrics
- Slower production time
- Blanks are more expensive, due to necessary pre-treatment
- Requires regular maintenance and daily cleaning, which results in ink loss

Screen Printing

- Time consuming setup
- Laborious pre-production of multiple screens for full color
- Limited to single color per screen
- Requires minimum order quantity to make it profitable
- Special knowledge and skills required
- Messy, need to clean down post print
- Color inconsistencies and potential registration issues
- Requires drying time
- Lowest cost for long runs

Direct-to-Garment (Inkjet)

- High cost of entry
- Slow production time
- Requires regular maintenance and daily cleaning, which results in ink loss
- Limited to cotton that must be treated
- Requires drying post printing
- High-quality graphics and large color capabilities

Heat Transfer Vinyl (HTV)

- Weeding is time consuming
- Limited graphic capabilities and color selection
- Impossible to produce full color range graphics and photos
- Need to stock multiple base colors

Embroidery

- Often requires backing for materials
- Limited in the amount of detail, and areas of coverage
- Time consuming and expensive
- Long durability

Pro9541WT

- ▶ Standard five-color: CMYK+White toner allows users to print and press on to light, dark and colored items
- ▶ Supports sheets up to 13"x19" (Super-B) - largest available on the market
- ▶ Intelligent and automated application of white toner behind color graphics, as well as professional trapping features.
- ▶ Lowest running costs for LED Digital Transfer Printing
- ▶ High-capacity toners: 2-3x the size of others¹
- ▶ 2-year on-site limited warranty²

**CMY+
WHITE**

Production-Level Print Shop in a Box

The OKI Pro9541WT is everything you want in a digital transfer printer. And more.

This complete 5-color digital transfer system has a low total cost of ownership and enables you to print brilliant color, opaque white, and true black...all at the same time, all in a single pass! The Pro9541WT provides you additional cost savings with the ability to use true black (K) instead of composite black (CMY). A quick and easy alternative to screen and direct to garment printing, the Pro9541WT is perfect for small scale production of custom apparel and goods.

Optional EXOSTENCIL® Screen Prep Paper

OKI and Neenah® have worked together to provide a revolutionary and environmentally friendly solution for screen print shops.

Using the OKI Pro9541WT to print on the EXOSTENCIL Screen Prep Paper is a "Chemical Free" way to make and reclaim your screens. This simple, two step process eliminates the need for large investments, allowing you to quickly get into production in just minutes. This easy method for manufacturing screens is appropriate for mesh counts from 85–230.

Print on sheets up to 13"x19" (Super B).
Perfect for x-large garments, banners,
decorations and more.

Pro8432WT

- ▶ Now supporting black and white toner swapping - free upgrade for new and existing users³
- ▶ CMYK+White or Black toner allows users to print and press on to light, dark AND colored items
- ▶ Toner swapping allows ability to switch between printing with White to printing with True Black
- ▶ Supports sheets up to 11"x17" (Tabloid)
- ▶ Perfect for a start-up business
- ▶ 2-year on-site limited warranty²

CMY+
WHITE
or **BLACK**

More Info

Full Creative Potential with White Toner Printing

The **OKI Pro8432WT** now offers the ability to switch between printing with White to printing with True Black. The already remarkable Pro8432WT, with brilliant Color + White, can now use true black toner (K), allowing the same printer to cost effectively produce both dark and light transfers, and more!

With true black (K) installed in place of White, you can produce rich blacks (CMY+K) for transfers onto light materials or use true black to produce sharp text and graphics. Furthermore, using black toner provides cost savings compared to mixing cyan, magenta and yellow to represent black.

Benefits of Black/White Toner Swapping

- Black toner expands the use of the Pro8432WT
- One printer to cost effectively produce DARK and LIGHT shirts
- Cost savings: lower printing costs for both dark colors and black elements
 - Black toner delivers true black at lower costs
 - Use K in place of CMY (composite black)
 - Black (K) toner costs less than CMY toner

Composite Black - CMY Toner

True Black - Black (K) Toner

C711WT

- ▶ The OKI C711WT is a cost effective solution for those looking to enter the white toner transfer printing market
- ▶ White toner allows for larger variety of product applications compared to conventional four-color transfer printing
- ▶ CMY+White allows users to print and press on to light, dark AND colored items
- ▶ Supports sheets up to 8.5"x14" (Legal)
- ▶ Compact. desktop footprint
- ▶ 1-year on-site limited warranty²

**CMY+
WHITE**

White Toner Printing On-Demand

The **OKI C711WT** provides new opportunities for everyone from the novice to the experienced printer. White toner opens the door to new product applications, and offers the ability to press onto a multitude of colored surfaces. No more having to screen print or weed vinyl for hours to get white lettering or graphics.

With its low entry cost and vast set of capabilities, it has never been easier to start a profitable business decorating garments and creating personalized products, on-demand.

Print On-Demand, See the Potential

A customer requests twelve blue t-shirts with full color + white, needed as soon as possible. Below is a basic R.O.I. for a job run using two 8.5"x14" (Legal) sheets and the OKI C711WT.

Average toner and paper cost per logo: \$0.60
Average cost of high-quality blue cotton shirt: \$2.25
Total shirt cost: \$2.85

Average retail value: \$20
Average profit per shirt: \$17.15

Profit for this job: \$205.80⁴

The best part - the job can be delivered the same day!

The RIP Changes Everything!

The TransferRIP Software lets you run small productions at high resolution, efficiently and with a result that is even softer than screen printing on textiles. Even when producing single transfers.

The Forever Transfer RIP is a key element in achieving vibrant colours, soft feel and durability. Through features such as Color management, White Toner Controls and image Rasterization, you, the end user, can achieve retail quality garments.

- Color Management
- White Toner Control
- Image Rasterization

Big Time Colour Output for a Small Price

Did You Know?

Using True Black (K) instead of Composite Black (CMY) in your prints uses less toner, saves money and provides rich, sharp black graphics.

Heat Presses

DK20 SP Automatic Swing-A-Way

The DK20SP is an air-operated automatic table top swing-away heat transfer press. The DK20SP provides a production oriented heat press with the benefits of push button operation, fully digital temperature & time control, and solid casting design with an affordable automatic heat press price. It is available in a 16" x 20" heater block size.

DK20S Swing-A-Way

The Digital Knight DK20S is our 'flagship' 16x20 swing-away heat transfer press. The DK20S combines a heavy-duty solid steel industrial grade pressing framework with accurate and easy to use electronics to provide the operator with the best possible features and equipment needed for today's various heat transfer applications.

DK16 14 x 16" Clam Shell

Our mid-sized clamshell, the 14x16 DK16 opens for full access to the lower bottom table. This press is the lowest cost solution for a business grade heavy-duty Digital heat press machine. It is important to note that the back of the heat platen raises above and away from the bottom table, providing better access than other clamshell presses.

DK20 16 x 20" Clam Shell

Our largest clamshell, the 16x20 DK20 opens for full access to the lower bottom table. It is important to note that the back of the heat platen raises above and away from the bottom table, providing better access than other clamshell presses. The frame support allows operators to slide shirts over the table with complete drape space around and underneath the loading area.

DK7 Cap Press

The DK7 has a unique hold-down device that pulls the rear strap of the headwear down against the pressing surface, holding the cap in place. The DK7 accepts different sized interchangeable tables for accommodating youth & chld sized caps, fitted and low profile caps, and many other items.

DK3 Digital Mug Press

Adjustable, accommodating all cylindrical mugs available on the market. This includes 11 oz, 15 oz, 16 oz mugs, steins and stainless steel travel mugs. (...but not tapered latte mugs...) The ability of the press to open extra wide allows for easy and fast loading and unloading of mugs from the press.

How to Get Started...

Step 1 - Pick your Printer

OKI 711WT 8.5" x 11"

OKI PRO8432WT 11 x 17"

OKIPRO9541WT 12.5" x 19"

Step 2 - Pick your Package

Silver Package

- Training and support (up to one hour) training session with a dedicated printer technician
- 2 Year Warranty
- High Definition Results Startup Kit
- 10 Laser Light
- 10 Laser Dark
- USB Cable
- 10 Finishing Papers

Gold Package

- Training and support (up to three hours) training session with a dedicated printer technician
- 2 Year Warranty
- High Definition Results Startup Kit
- Forever TransferRIP
- 50 Laser Light
- 50 Laser Dark
- USB Cable
- 10 Finishing Papers

Platinum Package

- Training and support (up to three hours) training session with a dedicated printer technician
- 2 Year Warranty
- High Definition Results Startup Kit
- Forever TransferRIP
- HIX Clamshell Heat Press
- 100 Laser Light
- 100 Laser Dark
- USB Cable
- 10 Finishing Papers

Step 3 - Pick a Date

*Pick an Install date for one of our highly experienced technicians to help you with installation and run through an in depth training session.

Step 4 - Keep in Touch

We want to hear from you so let us know how you're doing. If you require follow up support or assistance, our technicians are here to help.
