Trustee Resolutions for the Trustee of Van Leal

Re: Commencement of Account Based Pension

Directors: Name First

Name Name

Given Name

Receipt of notification to commence a Account Based Pension

An initial oral request to commence an Account Based Pension has been received from ('Member'). This request has now been confirmed in writing by the Member, intending to take effect from the nominated commencement date.

| Commencement Date | 16/10/2014 |
|--------------------------|------------|
| Purchase Price | \$500 |
| Payment Frequency | |
| Reversionary Beneficiary | No |

The member has indicated that they do not wish to set aside specific assets to support the payment of the pension (i.e. pooled assets).

Condition of Release

The Directors are satisfied that the Member has met a condition of release of .

Confirmation of Commencement Date

In accordance with the Member's request and the Fund's governing rules, the Directors confirm that the commencement date of the pension is 16/10/2014.

Powers to Pay Pension

The Directors of the Fund Trustee have the power to pay an Account Based Pension pursuant to Rule 500 of the Fund's Trust Deed. This Pension will operate in accordance with:

- Rule 500 of the Fund's Trust Deed;
- Superannuation Industry (Supervision) Regulation 1.06 ('SIS Regulations'); and
- Any additional terms and conditions adopted by the Trustee and agreed to by the Member

The Directors notes that the terms and conditions of this Superannuation Income Stream (including whether it is auto-reversionary) are to become a Special Rule of the Fund.

Member components

Details of the Member's accumulation balance at commencement of the pension are as follows:

| Tax-Free Component | \$500 |
|--------------------|-------|
| Taxable Component | \$0 |

Pension Components

The purchase price of the Account Based Pension will create a separate superannuation interest for the Member within the Fund in accordance with the relevant tax laws.

The income stream will consist of tax-free and taxable component in proportion to the Member's total account balance at commencement being:

| Tax-Free Proportion | 100% |
|---------------------|------|
| Taxable Proportion | 0% |

Annual Payment Parameters

The required pension amounts have been calculated for the Account Based Pension in accordance with Clause 1 of Schedule 7 in the SIS Regulations.

| | % | Payment Amount (\$) |
|-----------------|------|---------------------|
| Minimum Pension | 4% | \$10 |
| Maximum Pension | 100% | 500 |

Investment Strategy

The Trustee is satisfied that the Fund's current investment strategy provides sufficient liquidity to meet all pension obligations as and when they fall due.

Member Notification

Notification will be provided to the Member to agree with all relevant details for establishing and paying the Account Based Pension by way of a signed *Trustee Notification of Pension Commencement* form.

Trustee Resolutions

It is resolved that upon receipt of the signed Confirmation from the Member, the Directors will attend to the following matters:

- 1. Establish a separate superannuation interest with the purchase price of the Account Based Pension in the accounts and records of the Fund:
- Ensure that at least one payment equal to the minimum annual pension amount is paid to the Member for the financial year, calculated in accordance with Clause 1 of Schedule 7 of the SIS Regulations.
- Consider any request from the Member to receive an amount greater than the minimum pension. The Trustee may however refuse the request and cease paying the pension at any time.

© The SMSF Academy 2016

- 4. Review the cashflow and liquidity of the fund's existing investment strategy to ensure that the Fund has the ability to meet the pension payment obligations.
- 5. Ensure that after the commencement date, to not accept any additional contributions or rollover to the capital supporting the Pension.
- 6. Advise the Member of the calculated minimum annual pension amount in accordance with Clause 1 of Schedule 7 of the SIS Regulations and provide information relating to the pension account balance, and minimum pension amount for each financial year, along with any other information considered relevant;
- 7. Comply with any PAYG obligations in relation to the pension, ensuring that the relevant amount of withholding tax is remitted and reported on a timely basis (as required);
- 8. Ensure that no party to the pension will use the capital value of the pension as security for any borrowings.
- 9. Continue to pay the pension each financial year until such a time that the pension may cease, including where the capital of the pension is exhausted, by commuting the pension or as otherwise contained within the SIS Regulations.
- 10. Allow for the pension to be commuted, in whole or part in any of the situations as outlined within SIS Regulation 1.07D.
- 11. Confirm that a Product Disclosure Statement (PDS) and an Application Form has been provided to the Members as required under section 1012B of the Corporations Act 2001 as completed by the Trustee; and
- 12. Attend to any other matters relevant to the above resolutions and operation of the Fund, including:
 - a. Preparation and lodgement of any notices to the Australian Taxation Office to enable payment of the income stream; and
 - b. Any tax adjustments in the SMSF Annual Return and financial statements.

A copy of these Trustee Resolutions is to be retained within the records of the Fund for the minimum prescribed period of time.

We hereby agree to and confirm the above Resolutions.

Trustee Notification of Pension Commencement

From: The Automation Lab ATF

Van Leal

To:

We acknowledge your request and hereby confirm the commencement of your Account Based Pension from 16/10/2014 with \$500 from your accumulation account. We confirm that the start date is in accordance with your oral request.

In order to commence the Account Based Pension, please confirm the following details:

Pension Conditions

The Account Based Pension will be paid to you in accordance with:

- Rule 500 of the Fund's trust deed;
- SIS Regulation 1.06; and
- Any additional terms and conditions that have been agreed with you and adopted by the Trustee as outlined below.

Minimum & Maximum Pension Amounts

Your minimum and maximum annual payments for the income year are:

| | % | Payment Amount (\$) |
|-----------------|------|---------------------|
| Minimum Pension | 4% | \$10 \$Pro_Rata\$ |
| Maximum Pension | 100% | \$500 |

You have indicated to receive the minimum pension to be paid on a Monthly basis. The trustees will retain discretion at this time regarding the pension amount to be paid for the income year.

By law, you are required to take at least one pension payment per year and this amount must be equal to or greater than the minimum amount for your age at commencement or 1 July each income year.

You have not nominated any reversionary beneficiary for this pension.

The payment of the Superannuation Income Stream will be supported through the existing pool of Fund assets (unsegregated).

Pension Proportions

On a per payment basis, each pension withdrawal must be taken in proportion to the tax-free and taxable components at the commencement of the pension.

We note that the tax-free proportion of your pension has been calculated as 100%.

Commutation

We note that your Account Based Pension can be commuted in part or in full in accordance with the SIS Regulations.

Security

You cannot use the capital of this pension as security for a borrowing.

Additional capital

No further contributions or rollovers can be added to the capital supporting the payment of this pension.

Income Tax Status

As you are under 60 years of age, this pension is assessable income and the taxable component must be included within your personal income tax return. You are entitled to a 15% tax offset on the taxable component of this pension payment. A TFN Declaration form is included to be completed by you for submission to the Australian Taxation Office. This form is necessary for the Trustees to determine the amount of PAYG withholding tax to be deducted from any payment, on your behalf for the income year. At the end of the income year, the Fund will issue you with a Payment Summary detailing the pension information to be included within your income tax return.

Notification of changes

If you wish to change any of the variables of your Account Based Pension (including the Commencement Date, or the annual amount of your Account Based Pension), please contact us in writing as soon as possible.

1. Introduction

The *Corporations Act 2001* (Cth) provides that where a person is provided with a financial product they must receive a Product Disclosure Statement ('PDS'). The PDS must detail that person's rights and entitlements with respect to that financial product.

Under the Corporations Act, it is a financial product when a Member of a Fund commences a superannuation income stream. A PDS should be provided to the Member prior to the commencement of any pension.

A PDS is a statement that contains information required by the Corps Act to provide consumers with sufficient information to make informed decisions in relation to acquiring a financial product. For the purposes of this PDS the issuer is the trustee whose name and address may be found in the records of the Fund. This PDS must be read in conjunction with the trust deed of the Fund - where all rights and entitlements of Members, their dependants as well as duties and responsibilities of the trustees are to be found.

2. Accessing Superannuation Benefits

A Member can only access superannuation benefits having met certain conditions, such as retirement. Please refer to 'Accessing Member Superannuation Benefits' (at 7 below) for the circumstances where a Member can officially access their superannuation benefits, (i.e. meeting a condition of release). Where a Member becomes entitled to receive a benefit payment from their Superannuation Interest, this can be paid as either an income stream, lump sum or any combination of the two.

Careful consideration needs to be given as to how a Member takes payments from their Fund as there may be various advantages or consequences of how benefits are accessed.

3. Paying an Income Stream

A Member or a tax dependant beneficiary of a Member may become entitled to be paid a Superannuation Income Stream - called a Pension – from the Fund.

When a pension is commenced within a Fund, the amount of assets set aside to Fund the pension for the purposes of Income Tax Law is identified as a separate Superannuation Interest. That is, the account balance used to commence the Pension will always be deemed to be separate of any other account balance (pension or accumulation) the Member may have within the Fund.

When commencing a Pension the components must be in proportion to the Tax-Free and Taxable Components that make up the Member's Superannuation Interest in the Fund at the time of commencement. The proportion of taxable and tax-free components established at the commencement of the pension will typically remain throughout the life of the pension (unless fully commuted).

This can be an important consideration for estate planning purposes where the pension has a significant level of tax-free component within the interest. For example, if a pension account was established with entirely tax-free component, it will **always** be tax-free (including Fund earnings generated on the pension account).

An Account Based Pension ("ABP") can be commenced with all or part of a Member's account balance in the Fund. The rules applicable to this type of pension are covered below, along with the variation to these rules for a Transition to Retirement Income Stream ("TRIS").

3.1 Account Based Pension

The rules of an Account Based Pension include the following:

- The minimum payment amount each year is based on a percentage determined by the Member's age per Table 1 below;
- A payment equal to or greater than the minimum must be paid at least annually;
- The account cannot be increased after the commencement date by the addition of contributions
 or rollovers to the underlying capital of the pension. Depending on your age, this does not
 preclude you from making further superannuation contributions into a separate Superannuation
 Interest (account) within the Fund;
- Is commutable subject to special rules applying for Transition to Retirement Income Streams (see below);
- Cannot be used as security for any borrowings (payment amounts or underlying capital);
- Can be transferred upon death of the Member to a tax dependant beneficiary in the form of a lump sum (either directly or via the estate), pension or combination of both. Where a tax dependant beneficiary does not exist, the death benefit <u>must</u> be cashed and paid as a lump sum as soon as practicable to the nominated beneficiaries or the estate of the Member.

3.2 Minimum Pension

Schedule 7 of the SIS Regulations outlines the minimum payment amount for a superannuation income stream. The percentage factor to be applied is based on the Member's age at the commencement of the pension or at 1 July each year (when the revised pension level is calculated for the following year based on the Member's account balance.)

Table 1

| Member Age | % of account balance to be taken |
|------------|----------------------------------|
| 55 to 64 | 4% |
| 65 to 74 | 5% |
| 75 to 79 | 6% |
| 80 to 84 | 7% |
| 85 to 89 | 9% |
| 90 to 95 | 11% |
| 95 + | 14% |

Where a pension is commenced after 1 July, the minimum payment amount is to be pro-rated based on the remaining number of days in the financial year. No minimum pension is required to be taken where a pension commences on or after 1 June.

Where a pension is paid as a Transition to Retirement Income Stream, a maximum of 10% of the account balance applies each year until a condition of release with nil cashing restrictions has been satisfied by the pensioner. Note that no pro-rate amount applies to the maximum pension, regardless of the time of year when the pension is commenced. In addition, a Transition to Retirement Income Stream cannot be commuted to a lump sum, but can be rolled back to accumulation, subject to the Member having taken a prorate minimum pension amount prior to the pension ceasing.

Pension payments can only be made in cash, however in certain circumstances you may transfer assets from the SMSF as lump sum amounts that qualify against a Member's minimum pension obligation for a financial year (NB. this will cease at part of the super reforms from 1 July 2017 – refer to **section 4, Super Reforms – Retirement Phase** for more details on the new superannuation measures).

3.3 Reversionary Beneficiary

An important decision at the time of commencing a pension is whether the Member wishes for the pension to automatically continue to a tax dependant in the event of death. For a pension to automatically continue, a dependant beneficiary of the deceased Member must be automatically entitled, under the:

- governing rules of the Fund; or
- rules of the income stream

This decision to nominate a reversionary beneficiary is typically established at the time a pension is commenced. In limited circumstances, you may be able to appoint (or remove) a reversionary beneficiary after the pension has been established.

3.3.1 Who can be a reversionary?

Only your spouse, your children aged under 18, your financial dependant (at the time of your death), or somebody in an interdependency relationship with you. Your children can only be nominated as a reversionary beneficiary if they:

- Are under 18 years of age;
- Are aged 18–25 and financially dependant on you immediately before your death; or
- Have a disability as outlined in the Disability Services Act 1986 (Cth).

In the circumstances where a pension is payable to one or more of your children, they will be eligible to continue to receive the pension up to age 25 (unless the capital is exhausted or the Fund's governing rules specify an earlier period). Upon reaching age 25 (unless they have a disability as outlined in the *Disability Services Act 1986* (Cth)) superannuation laws specify that any remaining balance must be paid as a tax-free lump sum.

3.4 Segregation

Another important decision of the Member when commencing a pension is to decide whether to:

- set aside specific assets to support the income stream; or
- leave the Fund assets pooled and proportionately receive a share of the Fund's income.

If it is decided to segregate specific assets, the assets must be dealt with solely to enable the Fund to discharge all or part of its pension liabilities. In order for an asset to be segregated, it typically cannot be invested, held or dealt with partly for more than one purpose. Assets which are segregated and have a market value exceeding the account balance supporting the pension at commencement will not be considered to be segregated.

Where a Fund does not specifically set aside assets, it will need to obtain an actuarial certificate to determine the percentage of exempt current pension income.

Changes from 1 July 2017 will restrict a Member from applying segregation for income tax purposes where their total superannuation balance is greater than the General Transfer Balance Cap (starting at \$1.6 million in 2017-18) at the end of the prior income year – see further details below under 'Super Reforms – Retirement Phase'.

4. Super Reforms – Retirement Phase

From 1 July 2017, there are important changes to the payment of Superannuation Income Streams (or Pensions) which will limit the amount of capital available that is eligible for tax exemption on Fund earnings. The changes to the Retirement Phase measures within this section of the PDS have been reflected with the Trust Deed.

To ensure that the tax concessions within Superannuation are fairer and more sustainable, the Government has introduced a Transfer Balance Cap ("cap") on the total amount of Superannuation that can be transferred into the 'Retirement Phase'. It does not matter how many different super accounts you hold these balances in.

The amount of the cap will start at \$1.6 million (2017/18), and will be indexed periodically in \$100,000 increments in line with CPI. The amount of indexation you will be entitled to will be calculated proportionally based on the amount of your available cap space. If, at any time, you meet or exceed your cap, you will not be entitled to future indexation (i.e. you will have used 100% of your cap).

You will be able to make multiple transfers into Retirement Phase if you have available cap space.

Where you have Superannuation Interests in the Retirement Phase, you will have a personal Transfer Balance Cap, which cannot be shared with any other person. To determine your position with respect to the Transfer Balance Cap, you have a transfer balance account. This tracks the net amounts you have transferred to the Retirement Phase.

The transfer balance account works in a similar way to a bank account. Amounts you transfer to, or are otherwise entitled to receive, from the Retirement Phase give rise to a **credit** (increase) in your transfer balance account. Certain transfers out of the Retirement Phase give rise to a **debit** (decrease) in your transfer balance account.

The Transfer Balance Cap applies to everybody currently receiving a Pension or annuity, in addition to any new Income Stream or annuity that starts from 1 July 2017. Where you are commencing a new income stream before 1 July 2017, you may be required to take action with any Pension balances that are in excess of \$1.6 million to comply with the cap. It is important to obtain advice regarding the likely value of any existing super Income Streams that you have to comply and not have any excess.

Where a Retirement Phase Income Stream is commenced after 1 July 2017, you:

- will need to ensure that your Account Based Pensions and annuities do not exceed the \$1.6 million Transfer Balance Cap;
- may need to include income from capped defined benefit Income Stream in your income tax return if you are over 60, and may be required to pay more tax;
- will need to ensure that if you have a mix of Pension types, with a total value exceeding \$1.6 million that you reduce any Account Based Pensions to reduce the total value of all your Pensions below the Transfer Balance Cap.

Although there will be a limit on the amount of assets you can transfer into a tax-free Retirement Phase account from 1 July 2017, this does not affect the amount of money that you can have in the Accumulation Phase of a Fund. Any amount of Superannuation you have in your Fund above the \$1.6 million amount can be retained in the Accumulation Phase and/or be taken as Lump Sum payments (out of Superannuation). Where retained within an accumulation account, a 15% tax rate will apply to the Fund earnings of this Superannuation Interest.

4.1 What counts towards your cap?

The cap limits the amount that you can transfer into Retirement Phase to start a Pension or annuity over the course of your lifetime. This is no matter how many accounts you hold or how many times you transfer money into Retirement Phase. The cap also includes the value of Pensions or annuities you may start to receive for some other reason, for example:

- your spouse has died and you are receiving, or start to receive, a Pension from their Superannuation balance (e.g. as a reversionary beneficiary);
- your former spouse has been ordered to pay you a portion of their Superannuation Income Stream as part of a family court settlement.

The following table outlines events that can be debits and credits to your transfer balance account to be assessed against your cap:

| Debits (-) | Credits (+) |
|--|--|
| Where you commute (in part or in full) a | Where you have a pre-existing Pension, the value |
| Superannuation Income Stream, you are generally | of all Superannuation Interests that support |
| entitled to a debit for the value of the Lump Sum | Superannuation Income Streams in Retirement |
| from their transfer balance account. | Phase on 30 June 2017. |
| | |
| Where you receive a structured settlement payment | The commencement value of new Superannuation |
| and then contribute the amount into | Income Streams (including new Death Benefit |
| Superannuation (e.g. personal injury payment); | Income Streams) in the Retirement Phase that start |
| | from 1 July 2017; |
| | |
| | |
| A range of limited event (replenishment debits) that | The value of a reversionary Superannuation Income |
| may result in you losing some or all of the value of | Streams that you automatically entitled to receive |
| your Superannuation Interest. | because of the death of a Member. |
| | |
| A debit may be granted by the Commissioner upon | |
| notification for items including fraud, bankruptcy | |
| and void transactions, along with Family Law | |
| payment splits. | |
| | Notional earnings that accrue on any Excess |
| | Transfer Balance amounts you have reported. |

Once the commencement of an Income Stream has been reported against your transfer balance account, the cap does not apply to any subsequent growth or losses of this Pension, nor Pension withdrawals. This means that:

- if you start a Pension with \$1.6 million and the value of that Pension grows to \$2.0 million, you will not exceed your cap and the tax exemption continues to apply to the Fund earnings it generates;
- if you start a Pension with \$1.6 million and the value of that Pension goes down over time as you
 use it to live on or you suffer losses, you can't 'top up' your Pension accounts. You will still be able
 to access other Superannuation amounts you may hold in Accumulation Phase by taking these as
 a 'Lump Sum'.

Changes to the rules for payment of Transition to retirement Income Streams (TRIS) will mean that such Pensions will not count towards your Transfer Balance Cap as from 1 July 2017. Where you may be commencing a TRIS prior 1 July 2017 it is important to obtain advice about the changes to these income streams and work out whether any further action needs to be taken before 30 June 2017.

Please note that special rules apply to Pensions paid to children in the event of a parent's death. Furthermore, concessions exist with the Transfer Balance Cap to subtract the value of any structured settlement contributions (i.e. from a personal injury payment) made into Superannuation.

If you have a Retirement Phase account balance more than the \$1.6 million cap from 1 July 2017 you will need to:

- remove any amount over \$1.6 million, plus Excess Transfer Balance earnings, from Retirement Phase; and
- pay Excess Transfer Balance Tax (15% for first time breach, 30% thereafter)

The ATO will issue a determination for any such breach of your Transfer Balance Cap to remove the excess amount, or alternatively where you identify the breach, you may request the Trustees to reduce this excessive amount.

4.2 New reporting obligations

From 1 July 2017, all Retirement Phase Income Streams will have new reporting requirements associated with the Transfer Balance Cap. The new reporting requirements will be event based, not annual reporting – that is, they will likely require the event to be reported every time there is a change to a Member's Retirement Phase interests.

Fund Trustees (or via the service provider) will need to report directly to the ATO when:

- a Retirement Phase Superannuation Income Stream commences, including the associated value of the income steam:
- an amount in a Retirement Phase account is commuted:
- a Death Benefit Income Stream commences including the recipient and the amount of the Income Stream; and
- the amount of any structured settlements received before and after 1 July 2017.

There are several important considerations in complying with the new Superannuation measures. As a result, you should seek specialist advice from a suitable qualified professional to ensure that you have assessed all the issues and opportunities with these reforms.

5. Taxation of Member Benefits

Benefits paid to a Member will be taxed depending on their age. For a person over 60 years of age, any amount taken as a lump sum or pension is non-assessable, non-exempt income (that is, tax-free). For a person under 60 years of age, benefits will continue to be taxed in the hands of the recipient.

5.1 Pension

Under the Income Tax Assessment Act 1997 ("ITAA 1997") a pensioner that is less than 60 years of age will be required to include the taxable component of their pension as assessable income in their personal income tax return each year. An individual who is above their preservation age will be entitled to a 15% tax offset to help reduce any income tax in respect to the pension. It is the responsibility of the Fund to calculate and withhold any pay-as-you-go (PAYG) withholding tax from the pension throughout the year based on the information provided by the Member in the TFN declaration.

Where you may be in receipt of a legacy pension (e.g. market linked pension or complying pension), these income streams from 1 July 2017 are classified as capped defined benefit income streams. Subject to the calculated value of this income stream against your Member Transfer Balance Cap, additional taxation rules may apply to any pension payments received. You should seek professional advice about the impact of these capped defined benefit income streams as part of the new superannuation measures.

5.2 Lump Sum

Where a Member is entitled to and takes a lump sum benefit, different tax rates apply based upon their age. Where the Member is less than preservation age, the maximum tax rate on the benefit is 20% plus the Medicare levy (2%). Where the Member is beyond preservation age but less than 60 years of age, any amount of taxable component taken as a lump sum benefit by the Member up to the low rate cap is tax-free (see Schedule 1). Any taxed element amount over this is taxed at a maximum rate of 15% (plus the Medicare levy). Any lump sum amount taken from the Fund must be taken in proportion to the taxable and tax-free components of the Member's Superannuation Interest at the time of the withdrawal (including where the lump sum is taken from a pension that is fully commuted).

Any lump sum amount elected to be taken from the Fund as part of a partial commutation of an income stream must be taken in proportion to the taxable and tax-free components of the Member's Superannuation Interest at the commencement of the pension. This lump sum amount also forms part of the Member's minimum pension obligations for the financial year (per Schedule 7 of the SIS Regulations).

Any lump sum payment can be made in cash or as an in-specie transfer (e.g. off-market transfer of listed shares).

6. When does a pension cease?

There are a range of circumstances where a pension may cease. This is determined by reference to the particular Fund's governing rules, the requirements of the SIS Regulations, and the facts surrounding the Member (or dependant beneficiary) the pension is being paid to.

The Commissioner of Taxation has stated in tax ruling, TR 2013/5 that a pension may cease in the following circumstances:

When all pension capital is exhausted:

A pension ceases when the capital supporting the pension has been reduced to zero and the Member no longer has a right to have any other amounts applied to that pension (e.g. via a contribution or a rollover amount).

When the superannuation pension rules have not been complied with:

If a superannuation Fund fails to meet the pension rules for an income year (e.g. failure to pay the minimum pension amount), the pension will have been taken to have ceased at the start of that income year, with all amounts taken to be treated as lump sums. In addition, the Fund would be denied any tax deduction to exempt current pension income – that is, a tax exemption on income received from assets supporting the pension.

There are limited circumstances where the Commissioner may be able to use his Powers of General Administration (GPA) to allow for a pension to continue in the event that the pension rules have not been complied with.

When the pension is commuted:

A pension will also cease where a Member (or dependant beneficiary) elects to exchange all of his or her pension entitlements for a lump sum. A pension does not cease when a Member (or dependent beneficiary) elects to exchange part of his or her pension entitlements for a lump sum. Consideration should be given to the potential advantages of how the lump sum amount is to be taxed where a decision is made to partially commute a pension.

When a Member dies:

If a Member who is in receipt of a pension dies, and there is no automatic entitlement to continue to pay the pension to a tax dependant beneficiary, the pension will cease at the time of death. Refer to section 4, Super Reforms – Retirement Phase for further information about the impact of a death benefit income stream (reversionary or non-reversionary against your transfer balance cap).

Importantly, tax law will allow for a Fund's tax exemption to continue beyond the death of a Member until such a time that the death benefit has been paid to the estate or beneficiaries. There are a range of estate planning strategies around the structuring of income streams that a Member should consider seeking specialist SMSF advice.

By operation of the payment standards in the SIS Regulations:

A superannuation pension may cease due to the specific requirements of the payment standards in the SIS Regulations. An example of this would be the requirement that a pension is cashed as a lump sum if it is being paid to a financially dependant child of a deceased Member. In such a situation, the pension ceases at the time specified in the Fund's governing rules or on the day the child attains age 25, whichever occurs first.

7. Accessing Member Superannuation Benefits

At any time, upon satisfying a condition of release under the Superannuation Laws, a Member may seek to be paid a Superannuation Benefit from one or more of the Superannuation Interests held by the Trustee of the Fund on their behalf. However, it is not a compulsory requirement of the Fund for a Member, upon satisfaction of a condition of release, to automatically commence their Superannuation Benefit.

A Member is entitled to maintain their Superannuation Interests for the benefit of their Dependants or Legal Estate in their event of their death. A Member of the Fund can also Rollover or transfer their Transfer Superannuation Interest to an Eligible Entity. This Eligible Entity may include, but is not limited to, a complying Superannuation Fund or another Complying SMSF.

There are several circumstances where a Member of the Fund can officially access their Superannuation Benefits from their Superannuation Interests. These circumstances include, but are not limited to the following:

- Temporary Incapacity and Permanent Incapacity;
- Terminal Illness;
- Retirement or at aged 65;
- Under Severe Financial Hardship or on Compassionate Grounds;
- When a Member reaches Preservation Age and can commence a Transition to Retirement Income Stream;

On the death of a Member of the Fund, numerous Superannuation Laws apply to the payment of Death Benefit Superannuation Lump Sums and Death Benefit Superannuation Income Streams. The Trustee shall pay due regard to any Member's death benefit instructions (including SMSF Will) in making any Death Benefit payments. Benefits that may be paid at the time of the death of a Member include, but are not limited to:

- a Superannuation Lump Sum may be paid on the death of a Member to a Dependant, the deceased Member's Legal Estate, charity or public benevolent institution; and
- Superannuation Income Stream may be paid to a Dependant for taxation purposes which includes
 all those persons who are Dependants but in the case of a Child, only a Child who is aged less than
 18 unless they were financially dependent upon the deceased Member. Where an Income Stream is
 paid to a Child in accordance with the Superannuation Laws, it must be commuted no later than the
 25th birthday of the Child.

Subject to the Superannuation Laws and the Fund retaining its Complying SMSF status, a Dependant includes a Child of the Member, a person in an Inter-Dependant Relationship with the Member, any financial dependant of the Member irrespective of age and anyone who in the opinion of the Trustee is a Dependant of the Member.

The Member may request the Trustee to Allot, Rollover or transfer a Superannuation Interest for the benefit of a Spouse as part of the Contributions Splitting laws. Similarly, a Member can request the Trustee to Allot, Rollover or transfer a Superannuation Interest for the benefit of an ex-Spouse or Spouse pursuant to a Family Law Payment Splitting Notice. With respect to any Family Law Payment Splitting Notice, subject to the Superannuation Laws and the Fund retaining its Complying SMSF status, it shall be at the Trustee's total unfettered discretion as to how any Superannuation Interest or Superannuation Benefits are to be paid and to which Eligible Entity payment will be made.

SCHEDULE 1

As of 1 March 2017

Item 1 - Preservation Age

Your preservation age depends on your date of birth as shown in the following table:

| Date of Birth | Preservation Age |
|-----------------------|------------------|
| Before July 1960 | 55 |
| July 1960 — June 1961 | 56 |
| July 1961 —June 1962 | 57 |
| July 1962 — June 1963 | 58 |
| July 1963 — June 1964 | 59 |
| After June 1964 | 60 |

Item 2 – Tax Treatment of Benefits (2016/17)

| Lump Sum Member Benefits | | | |
|--------------------------|--------------------------------------|--|--|
| Age | Tax Free Component | Taxable Component | |
| | | Element Taxed | Element Untaxed |
| Under 55 | Non-assessable non- exempt income | 20% | 30% up to \$1,415,00045% above \$1,415,000 |
| 55 to 59 | | 0% up to \$195,000 (low rate cap) 15% above \$195,000 | 15% up to \$195,000 30% from \$195,000–\$1,415,000 45% above \$1,415,000 |
| 60 and over | Non-assessable non-exempt | (NANE) income | 15% up to \$1,415,00045% above \$1,415,000 |

| Income Stream Member Benefits | | |
|-------------------------------|---------------|-----------------|
| Age of recipient | Element taxed | Element untaxed |

| Age 60 years or more | Non-assessable, non-exempt income (that is, tax-free) | Taxed at marginal rates, with a 10% tax offset |
|---|--|--|
| At or above preservation age and under 60 years | Taxed at marginal tax rates Tax offset of 15% is available | Taxed at marginal rates, with no tax offset |
| Under preservation age | Taxed at marginal tax rates, with no tax offset Tax offset of 15% is available if a disability super benefit | Taxed at marginal rates, with no tax offset |

All amounts above may also be subject to the Medicare Levy and Temporary Budget Repair Levy.

Important information regarding the super reforms from 1 July 2017:

Certain capped defined benefit income streams must be subject to additional tax after the first \$100,000 of pension paid to the Fund Member. The level of tax will depend upon whether the amount includes an Element taxed or Element untaxed.

Item 5 – Minimum Pension percentages

| Age of Pension Member | Percentage factor |
|-----------------------|-------------------|
| Under 65 | 4% |
| 65 to 74 | 5% |
| 75 to 79 | 6% |
| 80 to 84 | 7% |
| 85 to 89 | 9% |
| 90 to 94 | 11% |
| Aged 95 or older | 14% |

Item 3 - Minimum Pension Factor
