1. CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Name: MORPHEUS REMOVE IT HAIR COLOUR STAIN REMOVER

Trade Name: MORPHEUS HAIR AND BEAUTY PRODUCTS

Company Responsible: (Producer) Fleurwood Pty Ltd

Address: 16 Farr Street
Marrickville 2204

Telephone: 02 9572 8088

Distributor: Morpheus Hair & Beauty

Address: Unit 12/7 Hollylea Road
Leumeah 2560

Telephone: 02 4627 7100

2. COMPOSITION / INFORMATION ON INGREDIENTS

PRODUCT NAME: REMOVE IT

PRODUCT TYPE: HAIR COLOUR STAIN REMOVER

USE: REMOVES HAIR COLOUR STAIN FROM SKIN

PHYSICAL CHARACTERISTICS: PALE YELLOW COLOURED LIQUID

HAZARDOUS INGREDIENTS: Ethanol, Benzyl Alcohol, Ethoxylated C12-C15 Alcohol

INGREDIENTS:	PROPORTION	CAS NUMBER
Purified Water	<50%	7732-18-5
Diethyl Glycol Monoethyl Ether	<30%	111-90-0
Ethanol	<25%	64-17-5
Oleic Acid	<5%	112-80-1
Ethoxylated C12 – C15 Alcohol	<5%	68131-39-5
Benzyl Alcohol	<3%	100-56-6

MORPHEUS REMOVE IT HAIR COLOUR STAIN REMOVER

INGREDIENTS: (CONT.)	PROPORTION	CAS NUMBER
Eucalyptus Oil	< 3%	92201-64-4
Peg 40 Hydrogenated Castor Oil	< 3%	61788-85-0
Triethanolamine	< 3.0%	102-71-6
Butyl Hydroxy Toluene	< 0.5%	128-37-0
Methylparaben	< 0.5%	99-76-3

3. HAZARD IDENTIFICATION

Hazard Category : Hazardous according to criteria of Work Safe Australia.

ACUTE HEALTH EFFECTS

Swallowed:

Swallowing large quantities of this product may cause irritation to mouth, throat and stomach with effects including nausea, vomiting and diarrhoea.

Eye:

May cause irritation to the eyes, with effects including stinging and blurred vision.

Skin:

May cause irritation to the skin, with effects including redness and itchiness.

Inhaled:

Vapour from inhaled product may cause irritation to nose, throat and respiratory system with effects including: Cough, discomfort, and shortness of breath.

Chronic:

There is no prolonged or repeated exposure data available for this product.

4. FIRST AID MEASURES

Swallowed:

If swallowed, immediately rinse mouth with water, give large amounts of water and seek medical attention. Do not induce vomiting.

Eye:

If product enters eyes, flush with plenty of water for at least 15 minutes, ensuring eyelids are held open. Seek medical attention promptly if irritation persists or any loss of vision occurs.

SKIN:

Immediately remove contaminated clothing. Wash with water.

INHALED:

Remove promptly to fresh air. If there are signs of respiratory irritation, nausea or headache occurs, seek medical attention.

First Aid Facilities:

Eye wash fountain, safety shower and normal washroom facilities.

ADVICE TO DOCTORS : (Emergency Treatment)

Treat symptomatically

In case of poisoning contact Poison Information Centre

In Australia call Tel. 131126

In New Zealand call Tel. 034747000

5. FIRE FIGHTING MEASURES

Fire/Explosion Hazard:

Flammable. If safe to do so, move undamaged containers from fire area.

Burning can produce carbon monoxide and/or carbon dioxide.

Extinguishing Media:

Use water fog, fine water spray or dry chemical foam.

Fire Fighting Procedures:

Use water to cool exposed containers. Spills or leaks may be washed away with copious volumes of water or spray.

Fire fighters to wear self-contained breathing apparatus in confined spaces or if exposed to product decomposition.

6. ACCIDENTAL RELEASE MEASURES

Personal precaution: Use appropriate personal protection.

Remove all ignition sources.

Environmental precaution: Do not allow to enter drains and waterways.

Method of cleaning up: Use appropriate personal protection. Collect and contain the spills for salvage or absorb in inert absorbent material (sand, vermiculite) for disposal by an approved method.

7. HANDLING AND STORAGE

Store in a cool place and out of direct sunlight. Store away from sources of heat or ignition. Store away from oxidising agents. Keep container closed when not in use. Store in accordance with Dangerous Goods Regulations and transport in accordance with ADG Code for Dangerous Goods Class 3.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

National Exposure Standards: No exposure standards have been established by the National Health & Safety Commission for this product.

Engineering Controls: Use good ventilation at all times. In most circumstances, natural ventilation systems are adequate unless the product has reacted or otherwise changed in some type of chemical reaction, then the use of a local exhaust ventilation system is recommended.

Personal Protection Equipment:

GLOVES: The use of protective disposable gloves is recommended AS1336.

EYES: The use of safety glasses is recommended.

CLOTHING: Suitable work wear should be worn to protect personal clothing, e.g. cotton coats or overalls.

RESPIRATORY PROTECTION: None should be needed under normal circumstances.

9. PHYSICAL AND CHEMICAL PROPERTIES

APPEARANCE:	Pale yellow coloured liquid
BOILING POINT:	35° centigrade
VAPOUR PRESSURE:	Not determined
FLASH POINT:	23-61° centigrade
DENSITY:	0.950 – 1.000 grams/ml @ 25° C
pH:	7.5 – 8.5
SOLUBILITY IN WATER:	Completely Soluble

10. STABILITY AND REACTIVITY

STABILITY : Stable under normal conditions of use.

HAZARDOUS DECOMPOSITION PRODUCTS: Decomposes on heating emitting oxides of carbon.

INCOMPATIBILITIES : Strong Acids, alkalis and oxidising agents.

CONDITIONS TO AVOID: Heat, combustibles and other chemicals, oxidising agents and metals. Use plastic containers. Do not mix with other chemicals.

11. TOXICOLOGICAL INFORMATION

There is no toxicological information available for this product.

12. ECOLOGICAL INFORMATION

No data available for this product.

13. DISPOSAL CONSIDERATIONS

Dilute with water to <1%. Refer to appropriate authority in your state. Normally suitable for disposal by approved waste disposal agent.

14. TRANSPORT INFORMATION

U.N. Number:	1170
D.G. Class:	3
HAZCHEM CODE:	2S Poison Schedule N/A
POISON SCHEDULE:	None allocated
SUBSID RISK:	3 : N/A

15. REGULATORY INFORMATION

POISON SCHEDULE: None allocated

RISK PHRASES: None allocated

SAFETY PHRASES: None allocated.

Disclaimer

This MSDS summarises our best knowledge of the health and safety information available on this product and the measures to be used to handle and use the product safely in the workplace. Each user should read this MSDS and consider the information in the context of how the product will be handled in the workplace including its use in conjunction with other products. The information contained in this MSDS, as of the issue date, is believed to be true and correct. However, the accuracy or completeness of this information and any recommendations or suggestions are made without warranty or guarantee. Since the conditions of use are beyond the control of our company, it is the responsibility of the user to determine the conditions of safe use of this product.

Hair Colour Stain Remover

Why you need Remove-It

When hair colour is allowed to remain on the skin, it causes some staining. This usually applies to semi-permanent and certainly to permanent colours. In fact, it's difficult to apply hair colour without this happening.

The extent to which the stain is visible depends on skin colour in relation to the colour applied, the type of colour used (such as permanent) and the length of time the colouring product is left on the skin.

Remove-It Hair Colour Stain Remover contains a combination of emulsifiers and solvents in a water-based solution with a friendly pH factor that meets the following needs...

1 - If **Remove-It** is applied around the entire hairline before colouring the hair, it helps prevent skin discoloration by reducing the formation of colour on the skin

2 - If colour is allowed to stain the skin, then the combination of emulsifiers and solvents help loosen the colour molecules and emulsify them from the skin

Range

Remove-It is available in three sizes... 250ml, 500ml and the 1 litre bottle

Application

1 - Using cotton wool, apply **Remove-It** to the entire hairline prior to colour application to prevent the skin becoming discoloured. Use cotton wool gently so you don't irritate the skin

2 - If skin staining is evident after the colour has been rinsed from the hair, use **Remove-It** on cotton wool to assist with removal

Safety precautions

Remove-It should not be used in the vicinity of the eyes and if the product enters the eyes, thoroughly rinse the eyes with running water until any irritation subsides. If irritation persists, seek medical attention
