### About the workshop

This full-day workshop is designed to build regional capability to implement an evidence-based assessment and intervention framework for students presenting with reading disorders.

#### Program:

A framework for identification and intervention of reading comprehension difficulties

- The Simple View of Reading
- Identifying underlying causal factors for reading difficulties
- Role of multidisciplinary team in identification and intervention

Whole school approach to teaching reading

- Differentiation including Assistive Technology
- Focused
- Intensive

Case study

Understanding the diagnostic criteria for Specific Learning Disorder – impairment in reading

Questions

### Who should attend?

Registrants should be regional and school personnel who have a key role in the literacy domain. It is anticipated that the workshop would be offered to School Leaders, Guidance Officers, Speech-Language Pathologists, Support Teachers – Literacy and Numeracy and other key literacy personnel in schools and regional office.

Presented by: Jennifer Peach (Senior Advisor – Speech-Language Therapy, Department of Education Reading Centre)
