

PLAY, WONDER & LEARN

THE 2019 INTERACTIVE
LEARNING IN THE
EARLY PHASE CONFERENCE

SATURDAY 7TH SEPTEMBER 2019

CONTEMPORARY LEARNING HUB - MERIDAN STATE COLLEGE

The Contemporary Learning Hub is proud to announce the return of the Play, Wonder and Learn Interactive Learning Conference for P-3 Educators. This Conference provides ideas and inspiration for making your Early Phase learning context an engaging, interactive and dynamic learning environment. The theme for our 2019 Conference is 'I Wonder'. With the help of leading international Keynote speaker Kath Murdoch, we will be challenging educators to bring curiosity, wonder and the inquiry approach to learning into their Early Phase classrooms. In addition to our inquiry inspired sessions, we have an awesome program once again planned for delegates including sessions on STEM, digital technologies, literacy, mathematics and creative and critical thinking.

Conference Highlights for 2019 include:

- The I Wonder Keynote with Kath Murdoch. Kath is highly respected globally for her work in the field of inquiry based learning and is the author of 'The Power of Inquiry'.
- The Wonder Fuelled Curriculum and Bringing STEM Inquiry Learning to Life sessions by Julie Elder and Jo Klein - Heads of Curriculum at Meridan State College and Baringa State Primary School.
- The Wondering with Picture Books and Little Illustrators workshops with award winning children's book author and illustrator Peter Carnavas.
- Practical sessions in real P-2 classrooms where you'll have the opportunity to explore how educators are using the inquiry approach to learning to challenge, support and motivate our youngest learners.
- The Wondering beyond the Text and Digital Retells sessions where you'll explore effective and innovative pedagogies for supporting young readers.
- A Conference Hall packed with traders showcasing the latest tech and resources for Early Phase classrooms.
- Heaps of competitions and great prizes including a free giveaway for every participant.
