

CLIMATE ADAPTATION 2026

Growing knowledge, empowering change

Program as of 1 August 2026. Subject to major change.

Sunday 25 October 2026

10.00-4.30 pm	Early career professionals’ workshop* <i>Details to come:</i> *Registered attendees only
5.00-6.30pm	Climate Adaptation 2026 Welcome Reception <i>The Avenue – Level 1</i> All delegates

Monday 26 October 2026

9.00- 10.30am		Plenary – Growing knowledge, empowering change <i>Room: The Arena</i>		Welcome to Country DCCEEW NSW address – Anthony Lean (TBC), NSW DCCEEW			
Session 1		Chair: Jean Palutikof, Griffith University		Using the National Climate Risk Assessment insights to keep Australia safe and prosperous- Judith Landsberg, Australian Climate Service Enabling adaptation: Incentives, Institutions and Time – Jon Barnett, University of Melbourne			
10.30 - 11.00am		Morning tea The Avenue					
11.00 - 12.30		Workshop Rehearsing 2029, from crisis response to transformative adaptation <i>Room: King St</i> <i>Facilitator: Jean Renouf</i>	Bridging the Climate Translation Gap: From Data to Decisions <i>Room: City Room</i> Chair: Matt Riley Panel: TBC	Lost in translation: connecting economic & financial cases for adaptation investment <i>Room: The Arena</i> Chair: Kieran Power/Chilli Platt/Stella Whittaker Panel: Kate Simmonds (IGCC), Russ Wise (CSIRO), Rick Walters (Aware Super), Luke Speechley (National Partners)	Coastal adaptation (Title TBC) <i>Room: The Vivid</i> Chair: Michael Arman and Anne Leitch Panel: Annabel Sandery (SA DEW)		
Session 2 - Panels			Advances in the Second NZ National Climate Change Risk Assessment <i>Room: The Extra</i> Chair: Paula Blackett Panellists: Holly Walker (He Pou a Rangi Climate Change Commission), Hugh Marshall-Tate (He Pou a Rangi Climate Change Commission), Mitchell Anderson (Urban Intelligence), Shaun Awatere (Bioeconomy Science Institute), Celia Karl (He Pou a Rangi Climate Change Commission, Sarah Harrison (Urban Intelligence)				
12.30 - 1.30pm		Lunch The Avenue 12.45 Launching ASAP: Codesigning the new Australian Society for Adaptation Professionals Facilitator: Josephine Mummery Room: The Arena, Upper Tier					
1.30– 3.00pm			Workshop Meeting the challenge of complexity - approaches for systemic climate risk <i>Room: King St</i> Facilitator: Nerida Buckley Panel: Lauren Rickards (La Trobe Climate Change Adaptation Lab), Neil Aldum, (WA DWER), Aaron Coutts-Smith (NSW Department of Climate Change Energy Environment and Water)	Understanding & communicating climate risk <i>Room: City Room</i> Chair: TBC	Unlocking investment for adaptation <i>Room: The Arena</i> Chair: TBC	Governance: Councils & regions leading collaborative action <i>Room: The Vivid</i> Chair:	Understanding hazards <i>Room: The Extra</i> Chair:
				So, what is climate adaptation anyway? <i>Catherine Kerr</i>	'Profit with Purpose': Advancing Climate-Adaptive Nature-based Solutions Through Blended Finance Russ Wise	Scaling Climate Adaptation Through Regional Council Collaboration Ingrid Baker	Future climate and hazard insights - Australia's National Climate Risk Assessment Shoni Maguire
				From projections to preparedness: Insights from communicating state-based climate projections Sonia Bluhm	The prospects for transforming existing approaches to financing climate adaptation Stella Whittaker	Victorian Climate Resilient Councils - Collaboration for adaptation Fran Macdonald	Multi-Hazard Characterisation and Compound Hazard Assessment Across New South Wales Tahereh Alinejadtabrizi
				Improving climate assessments through expert elicitation David Allingham	Pathways to Unlocking Investments into Climate-Ready, Nature-Positive Regions Russ Wise	From Strategy to Action: The Greater Sydney Heat Taskforce Nicky Morrison	Probabilistic hazard indices in climate risk assessment and adaptation decision-making Lachlan Morrissey
				Challenges of science co-production in the climate knowledge fabric Lucia Gamarra	Uplifting adaptation literacy for private sector investment in resilience Sarah Russell	A strategic approach to climate adaptation in regional NRM planning Eilidh Wilson	UNHaRMED - An integrated modelling approach for future focused multi-hazard adaptation Alice Miller
				Communicating future climate risks and impacts to diverse audiences Rachel Young	Investing in Resilience Across Shared Interdependent Risks Heather Macleod	Barriers, Enablers, and Pathways for Relocation Planning: Australian Council Perspectives Jess Van Son	National Hydrological Projections - A Foundation for Climate Risk Intelligence Shoni Maguire
				How to best communicate climate risks in decision support systems German Puga	Building the investment case for estuary floodplain adaptation Mitchell Perry	From risk to resilience: co-creating an adaptive change plan Seona Meharg	Towards a national understanding of flood risk Rikki Weber
3.00 – 3.30pm		Afternoon tea The Avenue					
3.30 – 5.15pm			Workshop Futures in Play: Co-designing a serious game for adaptation planning <i>Room: King St</i> Chair: Chloe Lucas	Building Capacity Through Co-Design & Partnership <i>Room: City Room</i> Chair:	Finance & investment for local government <i>Room: The Arena</i> Chair:	Governance: Place-based case studies <i>Room: The Vivid</i> Chair: TBC	Sector & Regional Risk Assessments <i>Room: The Extra</i> Chair: TBC
				Building Adaptive Capacity: The Importance of Science Communication Olivia Herrmann	What Does Climate Change Actually Cost? A Council Expenditure Review Mara Yasmin Baviera	State Level Coastal Adaptation: A Case Study of Australia Aysin Dedekorkut-Howes	Physical Climate Risk Assessment needs iterative improvement Ned Haughton
				Partnering and co-designing to build capability - Tasmania's learnings Nikki Krushka	Financing Adaptation Through Practical Council Investment Pathways Jamie Ewert	Structural drivers of climate change adaptation within Australian agriculture Douglas Bardsley	Beyond Direct Impacts: Quantifying Cascading Risk for Climate Adaptation Tom Logan
				Building Climate Risk Capability Through Dual Assessment Abby Issell	Making better resilience decisions with limited information and systems Stephanie Lyons	Climate equity and just-adaptation in Victoria? Locating justice-oriented & relational practices Susie Moloney	Managing cascading risks to council services: a practical approach Ella Reeks
				Co-designed all hazard, all stakeholder Local Resilience Plans Coralie Muddle	From risk to investment: Strengthening public sector economic assessment capability Neil Aldum	Climate adaptation experience in Aotearoa: Insights for government policy Raewyn Peart	Comprehensive, regional-scale climate impact assessments for primary industries - NSW's experience James Lawson
				Building adaptive capacity together benefits communities and their anchor institutions Rosemary Aldrich	Assessing International Corporate Adaptive Potential at Scale Karl Mallon	Supporting communities through locally-led home energy upgrade programs Melinda Morris	From Climate Risk Assessment to Funded and Implemented Resilience Action Nilmini Leybourn
				Building community capacity for biodiversity adaptation in the Northern Rivers Pazit Taygfeld	Building Economic Baselines for Better Climate Adaptation Decisions Farha Alvi Rahman	Intersection of DRM and Climate Change Adaptation in the Pacific Liesl Keam	Potential Catchment-derived Sediment Supply to NSW Intertidal Wetlands Cristina Umeh
				Transformative evaluation of adaptation: the Gold Coast's transdisciplinary journey Sean Goodwin	Robust Climate-Risk Disclosure for Resilience: LLM-Assisted Evidence Mapping Quyen Nguyen	Participatory planning approaches for system transformation in a changing climate Jack Piper	Understanding Estuarine Water Level Change for Adaptation Planning Rosey Hart
5.15 - 5.30 pm		Grab snack & drink The Avenue					
5.30 – 6.45pm Film festival		AdaptFest Opening Night <i>Room: The Arena</i> MC: Tanya Wilkins					

Tuesday 27 October 2026

8.45-10.15am Session 5	Plenary – Is transformation possible or unavoidable? <i>Room: The Arena</i> Chair: Johanna Nalau, Griffith University	Title TBC – Maina Talia, Government of Tuvalu Title TBC – Hartmut Fünfgeld, La Trobe University Why is planned relocation so difficult: political-economy case study -- Rachel Dunstone			
10.15 – 10.45 Session 5	Lightening talks <i>Room: The Arena</i> Chair	Misinformation, declining trust and the challenge of building adaptation commitment Michael Spencer Don't waste a disappointment Jen St Jack Climate Corner, Darwin community radio exploring adaptation in Our Place Rachel Tumminello Nature & Community-led adaptation & resilience research, pilot and toolkit August Wylynko Community knowledge gap of climate change health effects Sharna Stinson Adapting to governance risk Lauren Rickards			
10.45-11.15am	Morning tea The Avenue				
11.15–12.45pm Session 6 - Panels	<i>From Talk to Action: Overcoming Barriers to Affordable Insurance</i> <i>Room: King St</i> <i>Chair: Antonia Settle</i> <i>Panel: Jack Piper, Annabelle Butler, Jessica Forrest, Kellie Davis, Sharanjit Paddam, Kate Cotter.</i>	<i>CCROA as a Complex Systems Framework for Adaptation Governance</i> <i>Room: City Room</i> <i>Chair: Nick Jeffery</i> <i>Panel: TBC</i>	Disaster risk reduction intersecting with adaptation (TBC) <i>Room: The Arena</i> Chair: <i>Sponsored by NHRA</i>	<i>Pathways for scaling nature as critical adaptation infrastructure</i> <i>Room: The Vivid</i> <i>Chair: Rachel Morgain</i> Presentations: Enabling policy to scale nature as critical adaptation infrastructure Sarah Hoyal Unlocking the investment potential for nature as critical adaptation infrastructure Rachel Morgain The Australian evidence of nature-based-solutions effectiveness for disaster risk reduction Ainslie Macdonald	<i>Beyond metrics. Developing practical, purposeful adaptation measurement and learning approaches/ Measuring Global Goal on Adaptation: Metadata and Lessons for Australia</i> <i>Room: The Extra</i> <i>Chair: Justine Smith/Joanna Nalau</i> Panel: TBC
12.45-1.45pm	Lunch The Avenue	1:00pm Imagining Good Adaptation: An Arts-Based Demonstration Workshop Facilitator: Sean Goodwin Room: The Arena, Upper Tier			
1.45 - 3.15pm Session 7	Workshop From Climate Risk to Investable Adaptation: A Practitioner Workshop Facilitator: Genevieve Daneel <i>Room: King St</i>	<i>People at the Centre — Heat, Wellbeing & Equity</i> <i>Room: City Room</i> <i>Chair:</i>	<i>Engagement and capacity building putting adaptation into practice</i> <i>Room: The Arena</i> <i>Chair:</i>	<i>Nature based solutions — Policy, Investment & Evidence</i> <i>Room: The Vivid</i> <i>Chair:</i>	<i>Tracking Progress — Monitoring, Evaluation & Learning</i> <i>Room: The Extra</i> <i>Chair: TBC</i>
		Building Local Government Capacity for Heatwaves: Key Lessons from NSW Alicja Lojczyk	Quantifying connection + influence: Applying social network analysis for knowledge brokering Ramona Dalla Pozza	Nature-based Solutions for Climate-Resilient Pacific Infrastructure Kaitlin Shilling	Analysing the state of climate adaptation in Australia Sophie Bagot Jewitt
		Heat stress – From local perspectives to state policy Nicola Johnson	Climate Services for Agriculture and Sea Change Australia: lessons learned Aysha Fleming	Assessing Climate Risk in Nature Projects in NSW David Rissik	Monitoring Evaluation and Learning for adaptation: trends and prospects Tia Brullo
		Community focused information regarding heatwave preparedness: who is saying what? Gregory Melbourne	Agricultural Adaptation: Establishing a Community of Practice Neil Cliffe	What to know? Business Adaptation to the Climate–Biodiversity Crisis Mai Linneberg	Capability Before Indicators: Comparative Lessons from National Adaptation Monitoring Systems Elissa Waters
		Community Carers and Responders Network; Building capacity, resilience and wellbeing Sam Refshauge	Engaging communities on coastal futures under climate change Philippa Hill	Climate adaptation for Parks Australia Sandra Oliver	Why track adaptation? Practitioner knowledge exchange as effective adaptation evaluation Matthew de Boer
		Supporting teachers through co-designed climate wellbeing resources Kelly Stock	Adapt Land&Sea – sharing stories of adaptation knowledge and ideas Jenny Styger	Botanic Gardens of Sydney Living Collections Climate Change Resilience Strategy Damian Wrigley	Adaptation Decision-Making Exposed Through Serious Games – A Decade's Experience Paula Blackett
		Impossible Decisions – Community insights on access to affordable insurance Jack Piper	Building climate change awareness and adaptation using immersive media technologies Gabi Mocatta	Innovating restoration: Restore and Renew webtool guiding climate-resilient ecosystem restoration Tricia Hoghin	Framing, Naming and Shaming the Climate Adaptation Implementation Gap Nicholas Kirk
3.15-3.45pm	Afternoon tea The Avenue				
3.45-5.15pm Session 8	Workshop <i>Beat the Optimiser: Making Hard Choices in Climate Adaptation Investment</i> <i>Room: King St</i> <i>Chair: Tim Watson</i> 	<i>Community wellbeing and capacity</i> <i>Room: City Room</i> <i>Chair:</i>	Building better futures <i>Room: The Arena</i> Chair: TBC	<i>Land managers applying adaptation on the ground</i> <i>Room: The Vivid</i> <i>Chair:</i>	<i>Structural & governance gaps</i> <i>Room: The Extra</i> <i>Chair: TBC</i>
		Empowering change from eco-grief to agency – Adapt Land&Sea Steve Willing	Assessing Erosion for Climate Resilience: Lessons from Tropical Cyclone Alfred Esther Zhu	Managing for Change: Embedding Scenario Planning in Protected Area Management Carla Alexandra	Embedding Climate Risk into Council Decision Making Andrew Dunlop
		Adapting to climate change impacts through strength and capability Celeste Young	Turning climate leadership into tourism value Fahim Tonmoy	Embedding Country-centred, values-based adaptation approaches in land and water management Sophie Vella	The Adaptation Gap for NSW councils Suzanne Dunford
		From Climate Risk to Climate Healthy Communities: Lessons from Tasmania Katrina Graham	What might adaptive, safe and regenerative futures be like? Carmen Stewart	Soil Carbon Intelligence for Climate Adaptation and Sustainable Land Management Yuxin Ma	Understanding the adaptation planning-implementation gap: systems thinking insights from Aotearoa-NZ Nicholas Cradock-Henry
		Co-Designing Healthier Climate Adaptation Interventions: A Case Study from Victoria Annabell Workman	Resilient buildings as a response to adaptation to climate change Geoff Boughton	Synergistic Climate Smart Agriculture Portfolios and Smallholder Farmer Welfare Shamima Islam	Governing residual risk at the limits of adaptation Jean Renouf
		Climate Adaptation: Building Collective Capacity Across the Outdoor Sector Helene de Lagillardaie	800,00 days of learning at stake: Climate resilient early learning Rebecca Smith	Planning for different futures - informing practical adaptation pathways for irrigators James Lawson	Moving from adaptation inertia to action: Empowering change Judy Lawrence
		Assessing the health risks of adaptation futures in South Dunedin Sarah Harrison	Why Australia Underinvests in Adaptation and How to Fix It Ramona Meyricke	Youth future perspectives of climate adaptation in Murray Darling Basin Johanna Nalau Adaptation futures for Aotearoa New Zealand's primary industries Anita Wreford	A framework for enabling climate change adaptation best practice Tia Brullo
5.15-8.00pm	Conference roving dinner The Avenue				

Wednesday 28 October 2026

9.00-10.00am	Plenary – What do we value <i>Room: The Arena</i> Chair: TBC	Title TBC - Petra Tschakert			
Session 9		Climate risk and social cohesion: how SBS strengthens trust and inclusion in a changing Australia -- Abigail Thomas, SBS			
10.00 – 10.30	Plenary – First Nation Voices <i>Room: The Arena</i> Chair: TBC	TBC			
10.30-11.00am	Morning tea The Avenue				
Session 10	<i>Urban infrastructure and asset management</i> <i>Room: King St</i> <i>Chair:</i>	<i>Health & social wellbeing</i> <i>Room: City Room</i> <i>Chair:</i>	<i>Risk for finance disclosure</i> <i>Room: The Arena</i> <i>Chair:</i>	<i>Innovation: Digital Tools & Data-Driven Decision Support</i> <i>Room: The Vivid</i> <i>Chair:</i>	<i>First Nations</i> <i>Room: The Extra</i> <i>Chair: Damian Morgan-Bulled</i>
	Building for tomorrow's climate instead of yesterday's: A co-design journey Ramona Dalla Pozza	Strengthening heatwave adaptive capacity and resilience through mobilising community networks Rosemary Aldrich	Show Me the Money: Measuring Adaptation Finance in Banking Donovan Burton	Resilience Explorer - Accelerating adaptation through accessible and actionable risk information Mitchell Anderson	Leading from Country: Lessons from a Kaupapa Māori Risk Assessment Hugh Marshall-Tate
	A Scalable Blueprint for Climate-Resilient Urban Infrastructure Nic Mesic	Heat and Health Demand Prototype: Extreme heat Preparedness and Resilience Jin Yoon	What does climate risk disclosure mean for adaptation? Robert Turk	A Scalable Digital Decision Tool for Climate Resilience Investment Decisions Peter Heinmiller	The Sautu Enterprise Triad Model for Indigenous Governance and Leadership Alfred Toras
	Whangārei Urban Flood Strategy Technical Assessment - Future-Proofing Urban Adaptation Planning Andrew Allison	Impact of climate change on agriculture and rural women livelihood Muhammad Sayam	Built for This: Adaptation Expertise Needs to Drive Climate Disclosure Mark Siebentritt	My Climate View - Data informed adaptation in Australian agriculture Stephanie Dickson	Leading from Country: Reframing Climate Adaption Through Indigenous Leadership Jasmin Yuke
	Warning signs, climate change risks to Victoria's infrastructure Lorraine Conway	The Heatwave Hub: Translating Heatwave Risk into Community Preparedness Danielle Verdon-Kidd	Using Maturity Models to Implement Adaptation Jamie Ewert	Resilient Asset Management Pilot for smarter adaptation prioritisation Zen Eva Bell	How worldviews shape adaptation success in the Pacific Anna Gero
	Measuring the climate resilience and adaptation performance of transport infrastructure Shannon Regan	From Healthcare Footprints to Climate Ready Care Raymond van der Zalm	Lessons from a Decade of Co-designed Climate Adaptation Planning Annalena Lochte	The innovation-vulnerability gap in digital agriculture research for climate adaptation Belal Al-Hakeem	Using Two-Way Science to Support First-Nations Led Climate Adaptation Katie Quail
	Building Climate Resilience Across the Illawarra Rail Network Kaitlin Shilling	Assessing Heatwaves and Extreme Temperatures Impacts on Well-Being of Students Wai Yan Cheah	Sector based climate scenario development – collaboration in the mutuals sector Chris Lee	From maps to metrics to meaning - Queensland's Tourism Resilience Platform Tanya Lim	From Strategy to Regional Action: Traditional Owner-Led Climate-Adaptation, West Kimberley Lachie Carracher
	Assessing Climate Change Induced Expansive Soil Risk to Queensland Infrastructure Gayan Madhusanka				
12.30-1.30pm	Lunch The Avenue	12.45 Net Zero Commission's Heat Stress Spotlight Report <i>Facilitator: Luisa De Liseo</i> Room: The Arena, Upper Tier			
Session 11	<i>From evidence to action</i> <i>Room: King St</i> <i>Chair:</i>	<i>Heat Risk & Workforce</i> <i>Room: City Room</i> <i>Chair:</i>	<i>Practical tools for risk assessment</i> <i>Room: The Arena</i> <i>Chair:</i>	<i>Innovative Planning Approaches & Applied Case Studies</i> <i>Room: The Vivid</i> Chair: TBC	<i>Indigenous showcase</i> <i>Room: The Extra</i> <i>Chair:</i>
	Adaptation pathways for long-term asset management: Melbourne's Western Treatment Plant Craig Clifton	Prioritising Urban Heat Mitigation Investment for Cairns Regional Council Fraser Ramsay	Making sure climate risk intelligence is useable and used Ross Henry	Innovations from a decade of Dynamic Adaptive Pathways Planning Judy Lawrence	
	Bridging the Intention-Behaviour Gap in Heatwave Adaptation: Evidence from England Afua Assan	Urban Heat, intensification and climate (in)justice in Auckland Iresh Jayawardena	Build It Resilient Once: Site Selection Before Construction Begins Mike Bojko	Re-imagining DAPP for new decision frontiers Amelia Tomkins	
	Turning climate uncertainty into shared action: framing community adaptation insights Alistair Phillips	Data-driven approaches to heat-health risk assessment and workplace injury prevention Xi Lin	Application-ready or not application-ready, that is the question Rebecca Darbyshire	From Pressure to Practice: Embedding Climate Risk, Driving System Change Maddy Day	
	Governance reforms for enabling effective climate adaptation Josephine Mummery	Future Heatwaves in Eastern Australia: Combined Heatwave Risk Index (CHRI) Michela Skipp	Improving hazard maps for impactful wet/windy extreme events Acacia Pepler	Future Climate Future Home: Adaptive Urban Design Strategies for WA Julian Bolleter	
	Lost in Translation. Why Adaptation Language Needs Fixing Genevieve Daneel	Projecting the impact of heat stress on outdoor labour productivity Ian Macadam	Making Climate Risk Personal: A Place-Based Storytelling Tool Kat Ryan	Investing Before Failure: Cost-Effective Climate Adaptation for Transport Networks Ashishika Sharma	
	Green Spaces – Cool community places Nikki Krushka	Heat-Ready Workforces: Operationalising Future Climate Risk for Local Government Angela Smith	Considering climate risk and resilience in the NSW Planning System Brendan Fallon	Resilience ratings show strong business case for First Nations Housing Evelyn Yong	
3.00-3.05pm	Stretch & stride				
3.05 – 3.45pm	<i>Lightning presentations</i> <i>Community, Participation and Communication</i> <i>Room: King St</i> <i>Chair:</i>	<i>Lightning presentations</i> <i>Data and Approaches for Climate Risk</i> <i>Room: City Room</i> <i>Chair:</i>	<i>Workshop</i> <i>Understanding sectoral adaptation needs across the Australian economy</i> <i>Room: The Arena</i> <i>Led by: Svenja Keele</i>	<i>Lightning talks</i> <i>Investment, Governance and Business Decision-</i> <i>Room: The Vivid</i> <i>Chair:</i>	<i>Indigenous showcase</i> <i>Room: The Extra</i> <i>Chair:</i>
	A practical approach for planning in a changing climate Nicole Dennis Understanding Climate Risk in the Community Sector Natali Koerbel Climate adaptation practice – two decades of participatory action research Katrina Graham Driving operational impact through co-design and effective knowledge brokering Charuni Pathmeswaran Maternal perceptions of climate change on child health in ORIGINS Pranav Reddy Social Cohesion: The Missing Link in Climate Adaptation Saul Wodak What Good Climate Adaptation Looks Like Jamie Ewert Building capacities for transformational adaptation through designed practices Nicole Baker	Introducing the World Climate Research Program Academy Melissa Hart Theory-guided AI for next-day ignition forecasting: a climate adaptation innovation Amil Wickramasinghe A climate risk and impact literature review for Western Australia Leonie Perovic Trends in short-duration precipitation extremes over Australian cities Jason Evans Designing assessments that uncover systemic, interacting climate risks and impacts Eric Lede Getting the most out of the new CoastAdapt Anne Leitch Quantifying Climate Risk and Prioritising Adaptation for Indonesia's Critical Infrastructure Geoff Lee Thermal imaging cameras - putting data into decision-makers hands Sally Bamber Air quality and communicable diseases informing National Climate Risk Assessment Rajiv Jayasena		International Banking Compliance Challenges for Physical Risk and Adaptation Practitioners Daniel Nimmo Climate adaptation decision-making and investment Liesl Keam Aha moments – foundations for public sector climate risk management Sarah Russell Systemic risk and climate change - lessons from the coal face Celeste Young Trust and Behaviour in Sustainable Investment Decisions Dan Daugaard How Business Leaders Respond to Climate Risk: Barriers and Enablers Monica Trezise It Takes a Village: A Science, Engineering and Actuarial Lens Nicole Joffe Climate Sensitive Residential Planning and Design for Heat Adaptation Balapuwaduge Marian Lakmini Mendis Natured City Identity, re-imagining cities in adaptation planning Rachel Tumminello Measuring nature-positive outcomes in the built environment Andrea Vargas	
3.45-4.15pm	Afternoon tea The Avenue				
4.15-5.00pm	Looking forward to the future <i>Room: The Arena</i> <i>Chair:</i> TBC	Climate adaptation for future generations– Bronwyn Hayward, University of Canterbury			
Session 13					
5.00pm	Conference close
