Josh Harvey, Head, Strategy and Innovation, Essential Energy Connecting EVs to the Grid Fairly and Efficiently Phil Blythe, CEO & Founder, Greensync Q&A CHAIR: David Sullivan, Manager of Electrification Business for Australia and New Zealand, ABB
1:00	LUNCH
2:00	CHARGING INTO THE FUTURE Reshaping the Value of Vehicles: Cars as Energy Tim Washington, Director, Jetcharge Super-Fast Charging with Solar Batteries and Software Evan Beaver, Head of Charging, *Chargefox* Managing Charging for Different Uses Carola Jonas, CEO, Everyty Q&A CHAIR: Behyad Jafari, CEO, Electric Vehicle Council
3:30	THE DRIVEN PODCAST Bright Ideas and Blind Ideology Stephanie Bashir, Founder & CEO, Nexa Advisory Paul Fox, Co-Founder, Evie Networks TBC CHAIR: Giles Parkinson, Editor & Founder, RenewEconomy The Driven
4:30	CONFERENCE FINISH

THE DRIVEN

The Driven is Australia's premier website for news and analysis about electric vehicles, and the transition to zero carbon and shared transport.

Whether you are merely curious about EVs, just love to drive them, are an EV nerd, or want to keep up with the news and analysis about new models, government policy and developments in the charging space, The Driven is for you.

Sign up for your free newsletter at thedriven.io and look out for the podcast on your favourite platform.

RenewEconomy.com.au is Australia's best informed and most read web-site that focuses on clean energy news and analysis, as well as climate policy.

Surpassing 43 million page views, and averaging more than 320,000 unique visitors a month, reneweconomy.com.au discusses the ideas, analyses the trends, the new technologies and the policies that are driving one of the most dramatic transformations since the industrial revolution.

The site operates on an advertising revenue model, so please don't be shy!

ABB is a global leader in electrification, sustainable energy and e-mobility, and uniquely suited to play a prominent role in the mass adoption of electric vehicles – whether in the form of electric cars, trucks, buses or trains.

Ranked #8 by Fortune Magazine on its list of companies that are “changing the world” for advancing e-mobility and electric vehicle charging, ABB's fast charging stations have emerged as the great enabler.
