

# 2016 Benign Breast Disease Symposium

General Surgery and Gastroenterology  
Clinical Institute

Saturday 12 November 2016  
Olympic Room, Melbourne Cricket Ground,  
Melbourne

Epworth

# Program

---

## 0730 - 0850 Registration

0850 - 0900 Symposium introduction and overview  
**Speaker: Mr Gary Crosthwaite**

---

## 0900 - 1040 Session one

### Session Chair: Miss Jane O'Brien

Triple Assessment of Breast Lumps  
**Speaker: Miss Jane O'Brien**

Breast Imaging  
**Speaker: Dr Chantel Thornton**

Benign Core Biopsy Pathology requiring further action  
**Speaker: Professor Bruce Mann**

Risk Assessment and Risk Management  
**Speaker: Dr Laura Chin-Lenn**  
Questions/discussion

1040 - 1100 *Morning tea and trade display*

---

## 1100 - 1230 Session two

### Session Chair: Mr Gregory Mitchell

Fibroepithelial Lesions  
**Speaker: Miss Suzanne Moore**

Breast Pain  
**Speaker: Mr Rick Masters**

Gynaecomastia  
**Speaker: Mr Su-Wen Loh**

Breast Infections  
**Speaker: Miss Melanie Walker**

Questions/discussion

1230 - 1330 *Lunch and trade display*

---

## 1330 - 1500 Session three

### Session Chair: Miss Melanie Walker

Breast Cysts  
**Speaker: Mr Craig Murphy**

Nipple Discharge  
**Speaker: Miss Jane O'Brien**

Misc Benign Breast Conditions  
**Speaker: Mr Gregory Mitchell**

Case presentations

1500 - 1520 *Afternoon tea and trade display*

---

## 1520 - 1615 Session four

### Session Chair: Miss Jane O'Brien

Axillary Lymph Nodes  
**Speaker: Mr Michael Cheng**

Nipple Disorders  
**Speaker: Dr Joanne Chionh**

Developmental and Growth Disorders including conditions during pregnancy/lactation

**Speaker: Mr Su-Wen Loh**

Summary feedback and close

---

1615 - 1715 **Meet the faculty cocktail party**  
Stumps Tavern

# Symposium faculty

## About the symposium

---

The vast majority of breast conditions are benign. Much attention is focused on malignant lesions of the breast because breast cancer is the most common malignancy in women, however benign conditions actually constitute 90% or more of the clinical problems related to the breast. With the use of modern imaging and the extensive use of needle biopsies, the diagnosis of a benign breast condition can be accomplished without surgery in the majority of patients. Some benign breast conditions point to an increase in the patient's future risk of developing breast cancer and should lead to counselling about screening recommendations and risk reduction strategies.

This symposium will review the evaluation of breast symptoms and the diagnosis and management of benign breast disorders. It has been designed for clinicians (general practitioners and surgeons) nurses, allied health professionals and anyone with an interest in the diagnosis and management of breast disease.

## Proudly sponsored by:

---

MELBOURNE  
PATHOLOGY

**AMGEN**  
Oncology

## Guest speakers

---

**Mr Michael Cheng**  
Endocrine and Breast Surgeon

**Dr Laura Chin-Lenn**  
Endocrine and Breast Surgeon

**Dr Joanne Chionh**  
Endocrine and Breast Surgeon

**Mr Su-Wen Loh**  
General, Breast and Endocrine Surgeon

**Professor Bruce Mann**  
Breast Surgeon

**Mr Rick Masters**  
General and Breast Surgeon

**Mr Gregory Mitchell**  
General and Breast Surgeon

**Miss Suzanne Moore**  
Endocrine and Breast Surgeon

**Mr Craig Murphy**  
General, Breast and Colorectal Surgeon

**Dr Chantel Thornton**  
Breast Surgeon

**Miss Melanie Walker**  
Breast Surgeon

## Symposium conveners

---

**Mr Gary Crosthwaite**  
Director, General Surgery and  
Gastroenterology Clinical Institute

**Miss Jane O'Brien**  
Breast and Oncoplastic Surgeon

## Registration

---

Registration includes morning tea, lunch and afternoon tea with an optional cocktail function.

Full registration	\$250
Nurse/registrar/allied health/trainee	\$150
