## 1. PURPOSE

Base's commitment to conducting its business in a legal, honest and ethical manner is absolute. This commitment flows from the unifying set of beliefs and behavioural expectations of the "Base Way" and is considered critical to achieving Base's long-term goals.

The purpose of this Supplier Code of Conduct (**Code**) is to set out Base's key requirements for its suppliers which are directed to ensuring suppliers also act in a legal, honest and ethical manner, and act with integrity and fairness in their business affairs.

The requirements set out in this Code do not represent all of Base's requirements in respect of suppliers. Further requirements are contained in Base's standards, policies and procedures (as applicable) and also Base's underlying contracts with its suppliers. The requirements set out in this Code are not intended to limit any applicable standards, policies, procedures or underlying contracts.

References to Base in this Code are to Base Resources Limited and each of its subsidiaries, including Base Titanium Limited (Kenya) and Base Toliara SARL (Madagascar).

## 2. REQUIREMENTS

Base expects its suppliers to:

- comply with the minimum requirements set out in this Code;
- develop, maintain and implement policies consistent with this Code; and
- maintain adequate records of compliance with this Code.

Base also encourages its suppliers to exceed the minimum standards set out in this Code and expects its suppliers to communicate this Code to their related entities, employees, suppliers and subcontractors so that they are aware of, understand and comply with this Code.

## 3. HEALTH AND SAFETY

Base is committed to the health and safety of all people involved in or potentially impacted by its business operations, whether they are employees, contractors, labour hire, volunteers or visitors to Base's premises or members of our host communities.

Base expects its suppliers to operate with the same level of care and commitment towards the health and safety of the people operating in their workplaces or potentially impacted by their operations.

Among other things, all suppliers must:

- Comply with applicable workplace and product health and safety laws and respect workers' rights to refuse to perform work that is unsafe.

- Provide a safe and hygienic environment for workers and third parties, by identifying and managing risks, providing appropriate equipment and resources, and ensuring access to appropriate and clean facilities and amenities.
- Provide workers with appropriate training to perform their duties safely and to comply with this Code.
- To the extent their personnel enter any of Base's sites, procure that any such personnel undertake all required inductions and comply with all required standards, policies and procedures.
