CAPE PRESTON, WA

MAINTENANCE - PROTECTIVE COATINGS

PROJECT

Sino Iron Maintenance Works to Onsite Power Plant

CLIENT

Citic Pacific Mining
Clarence Fernandes 08 9178 3272

DURATEC CONTACT

Ray Delaney 04289 222 709

DESCRIPTION

Duratec was engaged by Citic Pacific to perform maintenance works include the coating of an external diesel tank and a mixture of pipelines, vents, drains and flue stacks.

Four different protective coating systems were applied by brush and spray applications, with all abrasive blasting being fully encapsulated to protect the live equipment operating on site.

HIGHLIGHTS

- ▶ Performing high risk work in a live power station.
- ▶ Successfully completing the works in a compressed time frame.
- ▶ Working on over 142 separate jobs throughout the plant.

IMAGES (FROM TOP TO BOTTOM)

- ▶ Hand preparation of pipework.
- ▶ QA Inspection being conducted.
- ▶ Encapsulation works.
