ELEVE APARTMENTS

POST TENSIONING

PROJECT

Provide Post-Tensioning works to Eleve Apartments, Carrara

CLIENT

Condev Constructions Pty Ltd

FORTEC CONTACT

07 3024 4999

DESCRIPTION

Fortec was engaged by Condev Construction for the post-tensioning works on Stage 1 - Building C of the Eleve residential development in Carrara on the Gold Coast.

This stage of the project involved the construction of an eight storey residential apartment building containing 63 units and two levels of parking.

This project was Fortec's first post-tensioning project secured on the Gold Coast.

The Fortec scope included:

- ▶ Provision of shop drawing detailing of the post-tensioned slabs from ground to level seven.
- ▶ Fix recess forms and anchorages
- ▶ Place and fix ducting
- ▶ Install tendons
- ▶ Stress tendons
- ▶ Grout tendons

HIGHLIGHTS

- ▶ All works were self-performed by Fortec.
- ▶ Zero MTI/LTI's on this project.

IMAGES (FROM TOP TO BOTTOM)
