The big LDV V80 Van.
It ticks all the boxes.
LDV ticked all the boxes in Europe

No wonder the LDV V80 is one of Europe’s most respected vans.

Perfect for all your transport needs, the V80 van is designed to carry large loads, while you travel in complete comfort.

With an impressive number of worldwide sales and multiple awards, it’s already made its mark.

Loads of space

The LDV V80 van gets a big tick for space. Its large load area offers a substantial 6.4m³ of volume in the short wheelbase model, which extends to a massive 10.4m³ and 11.6m³* on the long wheelbase medium and high roof models respectively. Two standard pallets can be carried in tandem in the load area of all models courtesy of the 1,380mm width between the wheel arches.

The LDV doesn’t ease off when it comes to payload with up to 1,204kg* in the short wheelbase and 1,419kg* and 1,389kg* in the long wheelbase, medium and high roof models respectively. There’s also the added benefit of recessed load tie down points and a cargo mat.

*Includes occupants, fuel and fitted options.
The weight of these must be deducted from the payload to determine carrying capacity. Front and rear axle loads must not be exceeded.
Easy access

The LDV V80 is a large van built to make carrying loads easy. Its wide opening double side-sliding doors make loading safer and faster while the rear barn doors open to 180° for loading with a forklift or at a dock. LDV also has the added benefit of a low-floor clearance delivering increased load capacity as well as easier loading.

Diesel performance

The LDV V80 gets another big tick for power with its advanced, economical 2.5-litre turbo-diesel engine designed by the Italian VM Motori company. The Bosch electronically controlled, common rail, direct fuel injected, intercooled engine supplies 100kW @ 3800rpm and 330Nm of torque. The engine is mounted transversely on the frame and provides the vehicle's front wheel drive. The engine employs a common rail fuel injection system for improved combustion efficiency, as well as low fuel consumption and low emissions.
Lots of features

From front to back, the V80 gives you more, combining efficiency and comfort as only European designed vans can. It comes complete with an air conditioned cabin, three seats, cruise control for those long journeys, audio with radio and MP3 connectivity, 8-way adjustable driver’s seat and power windows.

The exterior isn’t forgotten with 16” alloy wheels to give it a smarter look as well as rear parking sensors for getting in and out of those tight spots. Large vibration free power side mirrors make for greater viewing with the added benefit of mirror integrated indicators.

And when it comes to visibility, LDV’s front fog and daytime running lights ensure you are seen in any light.

Safety and security features

LDV V80 is constructed of a strong, energy-absorbing unibody made of high tensile yet lightweight materials to provide added safety without compromising fuel efficiency.

Standard safety equipment includes dual airbags, rear parking sensors and four wheel disc brakes with ABS (Anti-skid Braking System), EBD (Electronic Brakeforce Distribution) and BAS (Brake Assist System).

The LDV comes with remote central locking, with one button unlocking all doors then another only the rear barn doors.
Full range

When it comes to range, LDV certainly ticks that box. There's a short wheelbase for when you don't need additional load capacity, but with a cargo volume of 6.4m³ and a payload of 1,204kg it's certainly capable of meeting most needs.

If you need additional length and height there is the long wheelbase mid roof van holding 10.4m³ and 1,419kg. And if you need to maximise height the long wheel base is also available in a high roof model, which takes the cargo volume up to 11.6m³.

All LDV Vans come with manual or optional Automated Manual Transmission (AMT).

Warranty for Peace of Mind

The LDV V80 gets a big tick for peace of mind with the reassurance of a comprehensive factory backed 3 year/100,000km* warranty.

The Reassurance of Roadside Assistance

All LDV V80s come with LDV Roadside Assist. In the event that your vehicle is immobilised, you can rest assured that LDV Roadside Assist will help you to continue your journey with the minimum of inconvenience to you and your passengers.

LDV Roadside Assist supports you and your vehicle for the period of your manufacturer's warranty, 24 hours a day, 7 days a week, 365 days a year.

Flexible Finance Options

LDV Finance provides financial solutions designed to provide flexibility, ease and peace of mind. So from the start of your journey with us, you'll remain firmly and comfortably in the driver's seat of the financial arrangement you choose for your new vehicle.

Nationwide Dealer Network

LDV owners have the backing of our nationwide dealer network, which provides comprehensive sales, service and parts back up wherever you may be. To find your nearest LDV dealer just go to ldvautomotive.com.au

World Class Reputation

LDV is one of Europe's most recognised commercial vehicle brands. Not only has LDV had sales success as a cargo and passenger van, it has also been selected by some of Europe's most respected fleets and is the recipient of numerous awards.

LDV is now a division of SAIC, a Fortune Global 500 company and the seventh largest car company in the world. SAIC sold over six million vehicles in 2016 making it the largest automotive manufacturer in China. So it even ticks the reputation box.

* Whichever occurs first
